3M Building and Commercial Services Division:
Inspired Protection for Healthier Living

Dear 3M Valued Customer,

Innovation working for *you* ... that is what 3M is all about. Wherever we are, whatever we do, our customers rely on 3M to deliver practical, ingenious solutions that help them succeed and make their lives better.

At 3M Building and Commercial Services, we imagine a brighter, greener, more sustainable future for you, our customer. We are committed to providing you innovative and environmentally preferable solutions for your facilities, assets and people, improving the safety and productivity of your operations, while enhancing the cleanliness and performance of your working environment. We aspire to be your compelling choice to protect the *life* of your building and the *life* of your people.

This cleaning and protection product catalog represents the latest in innovation from 3M. In its pages, you will find trusted and reliable 3M brands like Scotch®, Scotch-Brite™, Scotchgard™ and more. You will find products that are depended on each and every day, backed with the knowledge, integrity, and service our customers expect from 3M.

Our 'innovation inspiration' comes from listening to customers like you and creating new products and solutions for the challenges and opportunities you face. Whether you are maintaining facilities in healthcare, food service, commercial building, education or government, you can be assured that we will work with you to provide cost savings, environmental sustainability and peace of mind.

Please contact us with any questions regarding our products and services at 1-800-852-9722. Or visit us on the web at **www.3M.com/building**.

Sincerely,

Judith Garcia Galiana
Vice President and General Manager

SCOTCHGARD™

HARD FLOOR PROTECTION SYSTEM

Whatever your floor care needs, Scotchgard™ Hard Floor Protection Systems help deliver the right solution.

SCOTCHGARD™ CLASSIC FLOOR FINISH SYSTEM

A cost-effective, high-quality family of three floor finishes. An economical choice for floors in high to low traffic areas.

SCOTCHGARD™ FLOOR PROTECTOR

Two high-performance floor treatments for stone and vinyl floors. Provide protection for up to one year with minimal maintenance. Excellent stain, scuff and scratch resistance helps yield significant ROI.

SCOTCHGARD™ ULTRA DURABLE FLOOR FINISH SYSTEM

For a long-lasting, superior, high-gloss floor finish that can last for up to two years. No burnishing, no top scrubbing, no recoating or stripping means outstanding ROI.

SCOTCHGARD™ HARD FLOOR PROTECTION SYSTEMS GUIDE

The following two-step guide will help you identify the best floor protection solution for you and your facility.

STEP 1: Identify the floor protection systems that work with your substrate.

FLOOR SURFACE*	SCOTCHGARD™ CLASSIC FLOOR FINISH SYSTEM	SCOTCHGARD™ FLOOR PROTECTOR		SCOTCHGARD™ ULTRA DURABLE FLOOR FINISH SYSTEM
		STONE	VINYL	
VCT	●		●	●
Polished Concrete		●		●
Marble	●	●		●
Terrazzo	●	●		●
Sheet Vinyl/Linoleum	●		●	●
Granite	●			●
Ceramic Tile				●
Quarry Tile				●

*Scotchgard™ Hard Floor Protection Systems are not recommended for wood floors.

STEP 2: Compare the results of the floor protection systems that are options for you, then identify the most appropriate choice for your floor protection needs.

	SCOTCHGARD™ CLASSIC FLOOR FINISH SYSTEM	SCOTCHGARD™ FLOOR PROTECTOR STONE AND VINYL	SCOTCHGARD™ ULTRA DURABLE FLOOR FINISH SYSTEM
Performance Attributes			
Environmental preferability: How well the product supports the well-being of people and the environment**	Good	Very Good	Excellent
Initial gloss: How shiny the floor looks after application and throughout the coating's life	Excellent	Very Good	Superior
Durability: How long the floor retains its quality appearance without floor maintenance (beyond daily dusting and damp mopping)	Not Recommended	Very Good	Excellent
Ease of maintenance (appearance): How well the floor retains its gloss over time	Not Recommended	Very Good	Excellent
Ease of application: How easy it is to apply the floor coating successfully	Very Good	Excellent	Good
Repairability: How easy it is to repair the coating	Very Good	Excellent	Very Good
Removability: How easy it is to strip by conventional methods	Very Good	(no stripping necessary)	Good (reapplication without stripping)
Black-mark resistance: How resistant the floor becomes to black marks and scuffs	Good	Excellent	Very Good
Scratch resistance: How resistant the floor becomes to scratches	Not Recommended	Excellent	Very Good
Stain resistance: How resistant the floor becomes to stains (e.g., urine, providine-iodine, alcohol sanitizers)	Not Recommended	Excellent	Very Good
Slip resistance: (source James Machine)	Very Good	Very Good	Excellent
Budget Impact			
Return on investment (ROI)	Good	Excellent	Excellent
Initial coating investment	$.05/sq. ft.	$.16/sq. ft. – $.22/sq. ft.	$1.05/sq. ft.
Application time	3 hours	1 hour	1 hour
Floor-maintenance labor reduction (FTE reduction)	Good	Excellent	Excellent
3-year annualized cost per square foot	$.80 – .90	$.20 – .30	$.50 – .60
Logistic Impact			
Floor-maintenance access limitation: The floor is not accessible to clean due to the room being occupied or in service	Not Recommended	Very Good	Excellent
Application area downtime: How long the floor will be out of service for cleaning, drying, etc.	3 – 4 hours	1 – 2 hours	8 hours
Scheduling flexibility (for in-house staff)	Excellent	Excellent	Very Good

**Environmentally Preferable Products are defined in the Instructions for Implementing Executive Order 13423, titled, "Strengthening Federal Environmental, Energy and Transportation Management" as products or services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. This comparison may consider raw materials acquisition, product manufacturing, packaging, distribution, reuse, operation, maintenance, or disposal of the product or service.

Scotchgard™ Ultra Durable Floor Finish System

3M™ Easy
Clean System

Fits You, Fits the Job, Fits the Budget

Our specially designed 3M™ Easy Clean System is a more efficient way to dust, scrub and shine helping to:

- Reduce labor costs up to 70%
- Increase performance up to 6X
- Cut chemical waste by as much as 80%
- Reduce mop drag by up to 10x

The 3M™ Easy Clean System can help standardize cleaning procedures and help make it easier to meet the Joint Commission, OSHA and infection control guidelines. For more information visit us at www.3M.com/building

Dust, Scrub and Shine with the 3M™ Easy Clean System

3M brings out more shine for less. The 3M™ Easy Clean System can enhance cleaning performance up to six times while reducing labor by as much as 70 percent and cutting cleaning solution waste up to 80 percent. Meeting and exceeding cleaning standards has never been easier.

Trap More Dirt

The 3M™ Easy Trap Duster System uses specially designed disposable dusting sheets to trap and hold more dirt. The double-sided 3M™ Easy Trap Duster holds up to six times more dust, dirt, sand and hair than traditional mops and other disposable dusting systems. The duster fits securely to the 3M™ Easy Trap Flip Holder, which swivels for easy maneuvering, allowing quick and thorough cleaning. When one side of the duster is used to capacity, the flip holder exposes the clean side with one motion, so duster material won't go to waste.

Cleaner Floors with Less Effort

Save time and money with more efficient mopping. The 3M™ Easy Scrub Flat Mop System helps clean hospital, restroom and kitchen floors faster than traditional flat mops and mop-and-bucket methods. The 3M™ Easy Scrub Flat Mop's low drag, easy maneuverability and lightweight handle help cleaning crews shine. The system thoroughly removes dirt while using up to 80 percent less cleaning fluid than traditional mops. The 3M™ Easy Scrub Plus Flat Mop is specially designed for uneven surfaces.

Quick Change for Swift Mopping

Swap cleaning products in a snap with the 3M™ Easy Scrub Express Flat Mop System. Interchangeable bottles of cleaning fluid attach to the mop's handle and can be quickly switched out for different jobs. The portable 3M™ Easy Scrub Express Caddy keeps cleaning solutions organized and handy.

More Shine in Less Time

The 3M™ Easy Shine Applicator System shines floors to a high gloss while reducing labor up to 70 percent and cutting floor finish by as much as 35 percent compared to traditional mop-and-bucket methods. Low-drag 3M™ Easy Shine Applicator Pads deliver finish quickly and evenly. The system's refillable backpack pouch and lightweight aluminum handle with trigger-button dispenser help save cleaning crews' time. The 3M™ Easy Shine Fill Station enables quick refilling of the backpack pouch at the work site, cutting down trips to the janitorial closet. The 3M™ Easy Scrub Plus Flat Mop shines uneven surfaces.

Reduce labor costs by up to **70%**

Increase performance up to **6** times

Cut chemical waste by as much as **80%**

Reduce mop drag by up to **10** times

Cleaning
Chemicals

Portable, Accurate and Reliable Dispensing

For years, 3M™ Twist 'n Fill™ Cleaning Chemical Management System has been an industry leader in providing automated dispensing and mixing, along with top-performing cleaning chemicals.

Now 3M™ Portable Dispensing System with 3M™ Twist 'n Fill™ Technology gives you the same trusted performance with added convenience. The portable, reusable dispenser allows you to dispense and mix cleaning chemicals where and when you need them. With the valuable benefits of our 3M™ Chemical Concentrates, the portable dispensing system can help make cleaning even more flexible, efficient and effective. For more information visit us at www.3M.com/building

Two versatile dispensing systems
with the power of
3M™ Twist 'n Fill™ Technology

The 3M™ Twist 'n Fill™ Cleaning Chemical Management System features a single dispenser that is designed to accurately dilute and dispense a wide range of cleaning solutions. You pick and choose only the chemicals you need for your cleaning task — and dispense them all through the same dispenser.

- Dispense chemicals with one compact dispenser
- Unique bottle and cap design lets you interchange chemicals in seconds
- Very compact — fits in closets
- Easy to use — just insert bottle, twist and fill
- Integral air gap prevents chemical backflow
- Flexible — mount on wall or, for portability, on cart or cleaning equipment
- Accurate dispensing technology helps ensure consistent, effective chemical performance
- Automatic 3-gallon-per-minute dispense rate for bucket applications; 1-gallon-per-minute for trigger spray bottle applications
- Automatic shut-off attachment also available
- Tamper-resistant packaging helps control chemical mixing away from the dispenser

The 3M™ Twist 'n Fill™ Cleaning Chemical Management System features a single dispenser that is designed to accurately dilute and dispense a wide range of cleaning solutions.

3M™ Portable Dispensing System with Twist 'n Fill™ Technology features a reusable dispenser that provides superior mixing and dispensing accuracy. It is easy to use; simply attach the dispenser to the bottle of 3M concentrated cleaning chemical, connect to a water source and fill. The result is accurate, reliable mixing, so the properly mixed cleaner that you need is conveniently available.

- Reusable dispenser designed for durability and comfort
- Easy to install
- Provides superior mixing and dispensing accuracy
- Dilution rate is three times more accurate than closest competitor*
- Dispensing is controlled at a two-gallons per-minute flow rate
- Dilution tips built into each bottle — high performance, no hassle
- Great for bottle, bucket and auto-scrubber applications
- Compact, versatile dispenser that is designed to accurately mix and dispense a wide variety of cleaning and disinfecting chemicals
- The system uses unique, tamper-resistant bottles to help make mixing safer and easier
- A material safety data sheet (MSDS) and label is available for each concentrate and diluted, ready-to-use cleaner

The dilution rate of the reusable 3M™ Portable Dispensing System, P10 with Twist 'n Fill™ Technology is three times more accurate than the closest competitor.*

*Dispensers tested over a range of 20–120 psi.

The Carpet and Rug Institute (CRI) Seal of Approval addresses cleaning effectiveness by testing and certifying only those products that meet high performance standards.

To help customers meet their sustainability goals and initiatives, or to aid in complying with government and state regulations, 3M has completed certification on twelve of its products from Green Seal™, a nationally recognized not-for-profit environmental organization.

3M™ Portable Dispensing System

3M™ Portable Dispensing System P10

3M™ Portable Dispensing System for use with portable series 3M cleaning and disinfecting concentrate products. Contains dispenser, 6 foot hose with pressure relief valve and connector, female and male quick connects and back flow preventer.

Environmental Monitors

A Check Beyond the Clean You See

The 3M™ Clean-Trace™ Hygiene Management System helps address the problem of healthcare associated infections (HAIs) by detecting the presence of organic contamination you cannot see. In about thirty seconds, the system's rapid hygiene test allows you to assess and measure cleanliness—as well as validate the efficacy of your cleaning protocols and performance. For more information visit us at www.3M.com/facility

A simple way to know what doesn't show.

Visual inspection alone cannot determine the presence of surface contamination.

Visual inspection does not produce reliable, quantifiable or truly actionable results. The 3M™ Clean-Trace™ Hygiene Management System does. One quick swab provides a rapid, objective measurement that accurately quantifies surface cleanliness. The Clean-Trace System is a frontline tool in your arsenal to address factors that may contribute to HAIs.

Benefits

The system helps assess standards of hygiene and cleaning procedures by:

- Providing an objective **quantifiable methodology** for monitoring and evaluating cleanliness
- Enhancing and optimizing cleaning practices to **verify the efficacy of current methods**
- Assessing the hygienic status of high-risk surfaces in about **30 seconds**, enabling quick, corrective action
- Providing **automated capabilities** for data tracking and trending

3M™ Clean-Trace™ Hygiene Management System

The 3M™ Clean-Trace™ Hygiene Management System is a major step forward in environmental hygiene monitoring — combining the benefits of an objective quantifiable methodology with the power and convenience of advanced data analysis including automatic report generation. Applications include routine monitoring of daily and terminal room cleaning to help ensure effective cleaning and disinfection of surfaces and mobile equipment, helping validate the efficacy of cleaning procedures and protocols and providing a tool to assist in training and instructing staff.

Hard Floor Maintenance

Consistent Performance, Long Lasting Shine

Every 3M™ Floor Pad is made to high quality standards. Ongoing innovation and advancements in technology make 3M™ Floor Pads more effective than ever. 3M™ Floor Pads help:

- Remove black marks up to 6X faster
- Increase soil removal by up to 60%
- Maintain aggressiveness over the life of the pad by up to 10X
- Extend pad life by up to 25Xs

For more information visit us at www.3M.com/building

How To Choose The Right Pad For The Job

Moving left to right, select the appropriate maintenance operation, machine type and speed, then follow the color bar to the recommended 3M™ Floor Pads.

Maintenance Operation	Equipment Speed	First Choice
Stripping To remove finish, sealer and contaminants from the floor surface. Done at the start of a maintenance program and at times when scrubbing will not achieve the desired results.	Rotary or Automatic / Low Speed 175–600 RPM	**3M™ High Productivity Pad 7300** Most aggressive stripping pad. Unique open construction resists loading and clogging. For fast removal of finish and proven consistent stripping.
Scrubbing Done prior to replacing worn finish; provides a fresh new surface to maintain.	Rotary or Automatic / Low Speed 175–600 RPM	**Scotch-Brite™ Surface Preparation Pad** Heavy duty scrubbing for 2–4 coat removal prior to recoating.
Cleaning To remove light soil and other contaminants.	Rotary or Automatic / Low Speed 175–600 RPM	**3M™ TopLine Autoscrubber Pad 5000** Scrubs and cleans without dulling the finish. Open construction resists clogging. Ideal for use on an autoscrubber.
Buffing To remove scuffs and black heel marks and enhance floor appearance.	Rotary / Low Speed 175–600 RPM	**3M™ Red Buffer Pad 5100** Designed for spray buffing. Cleans when damp; buffs when dry. Use to light scrub without dulling the finish.
Burnishing To repair finish and improve gloss and image clarity of floor surface. **Scuff & Mark Removal**	Electric Battery Propane / Ultra High Speed 1500 RPM & Above	**3M™ Eraser Burnish Pad 3600** Removes black marks and returns gloss in fewer passes than other pads while producing less dust. Ideal for harder finishes and high traffic areas. Excellent durability and minimal finish removal.
Best Gloss	Electric Battery Propane / Ultra High Speed 1500 RPM & Above	**3M™ TopLine Speed Burnish Pad 3200** Optimizes UHS burnishing on a wide variety of finishes. Combines black mark removal and gloss generation in one pad.
Soft Finish	Electric Battery Propane / Ultra High Speed 1500 RPM & Above	**3M™ Aqua Burnish Pad 3100** Produces brilliant gloss. Exceptional durability and life. The soft finish problem solver.
Diamond-Coated Floor Pads Use to clean and condition worn and dull stone floors.	Rotary or Automatic / Low Speed 175–600 RPM	**Scotch-Brite™ Sienna Diamond Floor Pad Plus** Diamond coated floor pads for cleaning and conditioning worn and dull marble, terrazzo, slate, and polished concrete flooring.
Diamond-Coated Floor Pads Use to clean and polish stone floors.	Rotary or Automatic / Low Speed 175–600 RPM	**Scotch-Brite™ Purple Diamond Floor Pad Plus** Diamond coated floor pads for cleaning and polishing marble, terrazzo, slate and polished concrete flooring.

3M™ Black Stripper Pad 7200
Standard of the industry. Consistent proven performance. Long pad life.

3M™ Brown Stripper Pad 7100
Conformable stripping pad for uneven floors. Strips prior to refinishing. Super heavy duty scrubbing for 2–4 coat removal prior to recoating.

3M™ Blue Cleaner Pad 5300
Heavy duty scrubbing for 1–2 coat removal prior to recoating.

3M™ Red Buffer Pad 5100
Designed for spray buffing. Cleans when damp; buffs when dry. Use to light scrub without dulling the finish.

3M™ White Super Polish Pad 4100
Spray buff or dry buff on soft finishes. Use for polishing on wood floors.

3M™ White Super Polish Pad 4100
Spray buff or dry buff on soft finishes. Use for polishing on wood floors.

3M™ Natural Blend Tan Pad 3500
Blend of natural and synthetic fibers. For use on harder finishes and high traffic conditions. Removes marks and scuffs while polishing.

3M™ Tan Burnish Pad 3400
Produces brilliant gloss while removing scuffs and marks. Exceptional durability and life. For use on harder finishes and high traffic conditions.

3M™ Natural Blend White Pad 3300
Blend of natural and synthetic fibers. Excellent results on a wide variety of finishes and traffic conditions. Provides consistent high gloss while minimizing swirl marks.

3M™ Trizact™ Diamond HX Discs Red

3M™ VFlex™ Particulate Respirators 9105/9105S, N95

This respirator has a unique folded design with 3M patented filter media and V-shaped pleats to help make breathing easier and provide a comfortable seal. The product is available in two sizes to fit a broad range of faces. In addition, the respirator features include: uniquely designed tabs for positioning the respirator on the face, adjustable noseclip to help provide a custom fit, and embossed front panel to help the respirator retain its shape. The V-shaped pleats flex with mouth movement for easier talking. The flatfold design allows for convenient storage prior to use.

Product No.	UPC No.	Case/Qty.	Units	Stock No.
9105	500-51131-**17397**-7	400	Case	70-07156389-7

3M™ Particulate Respirator 9210, N95

A breakthrough in comfort and convenience. This three-panel respirator with innovative design is uniquely designed to help provide comfortable, reliable worker protection against non-oil based particles. Suggested applications include grinding, sanding, sweeping, bagging, and other operations that create dust. Uses would also include solids such as those from textile operations, chemical handling, surface preparation, food preparation and handling, woodworking, grain handling and milling, processing of minerals, and certain other substances. It features a low profile collapse resistant design and a soft nose foam pad. Respirators are individually packaged to help prevent contamination during storage.

Product No.	UPC No.	Case/Qty.	Units	Stock No.
9210	500-51131-**37021**-5	240	Case	70-0708-4339-9

3M™ Particulate Respirator 8511, N95

Ideally suited for work settings that involve heat and humidity. Helps reduce exposure to dust from sanding on particle board, drywall, non-lead paints, fiberglass insulation dust. Features the 3M™ Cool Flow™ Exhalation Valve, which offers easy exhalation and cool, dry comfort. M-noseclip helps provide a secure seal and helps reduce eyewear fogging.

Product No.	UPC No.	Case/Qty.	Units	Stock No.
8511 N95	500-51138-**54343**-8	80	Case	70-0707-5755-7

3M™ Particulate Respirator 9211, N95

A breakthrough in comfort and convenience. This three-panel respirator with innovative design is ideally suited for work settings that involve heat, humidity, or long periods of wear. Suggested applications include grinding, sanding, sweeping, bagging, and other operations that create dust. Uses would also include solids such as those from textile operations, dry chemical handling, surface preparation, food preparation and handling, woodworking, grain handling and milling, processing of minerals, and certain other substances. It features a low profile collapse resistant design, 3M™ Cool Flow™ Exhalation Valve, and a soft nose foam pad. Respirators are individually packaged to help prevent contamination during storage.

Green Solutions

Simple Steps to a Clean Future

The 3M℠ Cleaned Green Program is an integrated approach to cleaning for a safe and healthy environment. It is geared to help people understand environmentally preferable cleaning methods and to enhance the health and safety of their facility occupants through the use of environmentally preferable products*, procedures and training services that help minimize the impact on human health and the environment. For more information visit us at www.3M.com/building

Cleaned Green Program

Cleaned Green Program

3M℠ Cleaned Green Program:
An Environmentally Preferable* Approach to Cleaning

For more than 35 years, 3M has been an industry leader in environmental stewardship. The 3M Cleaned Green Program has harnessed this extensive experience and expertise to help you meet your environmental goals. Take your facility's cleaning process to a higher level by measuring and communicating your results through the 3M Cleaned Green Program's easy three-step environmentally preferable approach to cleaning.

An environmentally preferable approach to cleaning your facility can help:

| Minimize impact on human health and the environment | Improve indoor air quality† | Reduce water, chemical and energy waste | Extend the life of flooring, carpets and furnishings | Meet the requirements of new and emerging regulations and third-party certifications | Communicate your environmental sustainability goals internally and externally |

BENEFITS OF CLEANING GREEN

† See epa.give/iaq for the benefits of improving indoor air quality in the indoor environment (EPA-402-K-02-005). http://www.usgbc.org/Docs/Resources/043003_hpgb_whitepaper

3M℠ Cleaned Green — Cleaning & Maintenance Products

3M's effort to reduce its own footprint is just part of our commitment to environmental stewardship. As part of the 3M Cleaned Green Program, 3M Building and Commercial Services Division also offers you a wide selection of cleaning and maintenance products and tools that help you reduce your impact on health and the environment. These solutions are designed to support your environmentally preferable cleaning efforts.

* Environmentally preferable products are defined in the instructions for implementing Executive Order 13423, titled "Strengthening Federal Environmental, Energy and Transportation Management," as products or services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. This comparison may consider raw materials acquisition, product, manufacturing, packaging, distribution, reuse, operation, maintenance, or disposal of the product or service.

3M℠ Cleaned Green Program

Team Selection and Facility Assessment

- Select team members, set goals and establish timeline
- Assess your facility's current products, procedures and equipment
- Determine your facility's requirements for 3M Cleaned Green products, procedures and equipment
- Begin awareness campaign and continuous feedback procedure

Facility Staff Training

- Train facility managers and cleaning and maintenance staff about products, procedures and equipment conversions
- Establish and maintain health and safety benefits awareness efforts
- Highlight staff recognition and advancement opportunities
- Document best practices

Marketing, Promotion and Continuous Improvement

- Determine and pursue relevant third-party certifications such as ISSA-CIMS and LEED®
- Review and share results
- Promote and communicate internally with employees, residents and visitors
- Promote and communicate externally with your community and investors

3M℠ Cleaned Green Program Support Team

3M Building and Commercial Services Division has a highly trained field sales force and global technical support team ready to help you review, implement and address your organization's environmental goals and initiatives. At any time during your participation in the 3M Cleaned Green Program, this team is available to help you maintain a cleaner, healthier, safer and environmentally preferable facility.

Collaborating with Other Organizations

3M works closely with several third-party organizations that provide end-user testing of and/or certification for sustainable products and cleaning practices. Some of the leading organizations are:

- Association for the Healthcare Environment® www.AHE.org
- The Carpet and Rug Institute www.carpet-rug.org
- Green Seal™ www.greenseal.org
- ISSA—The Worldwide Cleaning Industry Association® www.issa.com
- U.S. Green Building Council www.usgbc.org

LEED® Certification Guidance

As part of the 3M Cleaned Green Program, you can receive help determining your eligibility for LEED® credits and certification.

Scotchgard™ Ultra Durable Floor Finish System

Scotchgard™ Ultra Durable Floor Finishing System delivers continuous protection and a beautiful high gloss finish with limited interim maintenance required beyond dusting and mopping. Reduced maintenance compared to traditional acrylic finishes means you reduce staff and environmental exposure to harsh stripping chemicals. Works well on many floor surfaces including VCT, concrete, marble, terrazzo, sheet vinyl/linoleum, granite, and ceramic and quarry tile.

Scotchgard™ Ultra Durable Floor Finish Kit

Kit includes 1-1.89 liter dispenser bag Scotchgard™ Base Finish, 1-3.21 liter two-part dispenser bag Scotchgard™ Ultra Durable Floor Finish, 1 Scotchgard™ Ultra Durable Floor Finish Tube Assembly, 1 Roll 3M™ Vinyl Tape 471 Yellow, 1 Instructional Insert

Scotchgard™ Classic Floor Finish System

Scotchgard™ Classic Floor Finishing System offers a full line of finishes to meet your hard-floor needs. Abrasion resistance testing shows more than 4 times greater durability than competitive floor finishes. Reduced maintenance compared to traditional acrylic finishes means you reduce staff and environmental exposure to harsh stripping chemicals.

Scotchgard™ Low Maintenance 18 Floor Finish

Low maintenance, economical floor finish. Quick-drying formula is responsive to spray buffing and burnishing. Use on most hard floors maintained with machines of any speed.

Product No.	Size	UPC No.	Case/Qty.	Units	Stock No.
59279	2.5 Gallon	500-48011-**59279**-9	2	Case	70-0713-1527-2

Scotchgard™ UHS 25 Floor Finish

Quick-drying, easily repaired coating gives you the deepest "wet look" for high-frequency burnishing programs. For use on resilient tile and terrazzo floors with ultra high speed machines (1,500 rpm and higher). For use with the 3M™ Easy Shine Applicator System.

Product No.	Size	UPC No.	Case/Qty.	Units	Stock No.
59276	1 Gallon Bag	500-48011-**59276**-8	4	Case	70-0715-9154-2

Scotchgard™ Low Maintenance 25 Floor Finish

Exceptionally tough and durable, low maintenance, 25% solids floor finish provides a "wet-look" gloss with less burnishing. Dries fast for outstanding image and film clarity. Use on resilient tile and terrazzo floors.

3M™ Floor Pads Life Cycle and Sustainability

For 50 years, high performing 3M Floor Pads have been an industry leader. High performance aligns well with sustainability.

Fewer Chemicals Used

The Scotch-Brite™ Diamond Floor Pad Plus System allows the maintenance and polishing of stone, marble and terrazzo flooring without the use of floor finishes and strippers. Eliminating the use of floor finish and floor stripping chemicals in a stone floor maintenance program can help reduce chemical exposure for your workers and release to the environment.

Environmental Leadership and Safety

3M sustainability includes developing new products through a Life Cycle Management (LCM) process. LCM includes a comprehensive review of a product's potential health, safety, environmental and regulatory impact throughout its lifetime. 3M professional technical experts—specialists in toxicology, industrial hygiene, environmental engineering, product stewardship and product safety—all participate in the LCM process. As a result, 3M stands behind its floor pads and other products for performance, safety, minimizing environmental impact and general customer satisfaction.
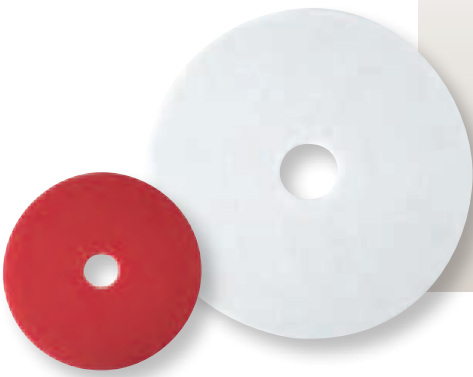

3M Packaging

As part of an environmental stewardship in packaging, 3M Floor Pad packaging engineers have worked to keep the packaging material as light as possible—reducing the amount needed. The packaging is 100 percent recyclable.

Operational Excellence

3M Floor Pad manufacturing facilities operate under a philosophy of operational excellence and continuous improvement. Since 2004, our floor pad manufacturing has made continuous strides to further reduce our environmental impact. Some of these improvements include:

- More efficient manufacturing equipment resulting in 30% reduction in air emission
- Product technology breakthroughs that have reduced volatile organic compound usage in the manufacturing process

*Environmentally preferable products** are defined in the Instructions for Implementing Executive Order 13423, titled "Strengthening Federal Environmental, Energy, and Transportation Management" as products or services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. This comparison may consider raw materials acquisition, product, manufacturing, packaging, distribution, reuse, operation, maintenance, or disposal of the product or service.

Scotch-Brite™ Purple Diamond Floor Pad Plus

Diamond-coated floor pads for cleaning and polishing marble, terrazzo, slate and polished concrete flooring. Helps eliminate floor finish and helps reduce labor costs. Generally used after the Scotch-Brite™ Sienna Diamond Floor Pad Plus.

3M™ Easy Trap Duster System

3M™ Easy Trap Duster System traps and holds 6 times more dust, dirt, sand and hair than traditional dust mops—it's the more efficient way to dust. Use it daily to maintain floors. Designed to dust the floor prior to application of Scotchgard™ Ultra Durable Floor Finish, and between coats of Scotchgard™ Vinyl Floor Protector and Scotchgard™ Stone Floor Protector.

3M™ Easy Trap Flip Holder

Holder works with standard threaded U.S. broom handle. Easy to flip holder clamps onto the 3M™ Easy Trap Duster and allows the customer to easily use both sides of the cloth without bending over. The "A" shape allows the user to plow large debris without it tumbling over the holder.

Scotch-Brite™ Medium Duty Hand Pads

Scotch-Brite™ General Purpose Scouring Pad 96

Synthetic scouring pad is excellent for common cleaning jobs. Performs well on kitchen equipment, walls, railings, floors, desks, stairways, counters and maintenance equipment. It is between 50 and 90% more aggressive, or more effective at removing soil when compared to a variety of similar competitor products. Longer life, washability and reusability all lead to extended pad life and postponing disposal into landfills.

Product No.	Size	UPC No.	Case/Qty.	Units	Stock No.
96	6" x 9"	500-48011-**08293**-1	3/20	Case	61-5000-6024-1

Scotch-Brite™ Heavy Duty Hand Pads

Scotch-Brite™ Extra Heavy Duty Pot 'n Pan Handler 88

The most aggressive scouring pad. Quickly removes stubborn dirt and grime from kitchen and maintenance equipment. Removes heavily encrusted baked-on food from pots and pans. For use in place of metal sponges. More aggressive than most competitive pads removing up to three times as much baked-on food from cookware and dishes. Less effort is required and less time is needed to complete each cleaning operation.

Product No.	Size	UPC No.	Case/Qty.	Units	Stock No.
88	3.5" x 5"	500-48011-**08292**-4	4/10	Case	61-5000-1515-3

Scotch® Box Sealing Tape 371

Polypropylene tape for single-wall, low burst strength RSCs with more than 3,000 minutes adhesion to fiberboard. Tensile strength of 22 lb/inch in machine direction; 44 lb/inch cross direction. Pressure-sensitive rubber resin adhesive to instantly seals cartons. Easy to handle and dispense. Resists abrasion, moisture, chemicals, and scuffing. Conforms around edges and over rough surfaces for a tight seal. Good edge tear and split resistance. Complies with environmental considerations of ASTM D1974-92. Backing colors: clear, blue, green, red, tan, white, and yellow. Graphics show through clear backing.

Scotch® Pouch Tape 827

Clear polypropylene film with bright orange border and printed message: DOCUMENTS ENCLOSED. Rubber resin adhesive grips your package. Non-tacky center window portion covers important shipping information. Linerless, so less waste to remove. Strong film backing provides moisture- and abrasion-resistant barrier. Aggressive adhesive prevents rubbing off, to reduce chance of lost or delayed packages. See-through window allows for easy identification of contents. Conformable film accommodates bulky shipping documents.
