Insulated Tableware

Make a statement with beautiful traytops from Aladdin!

Give your meals a beautiful new look with insulated tableware that's as stylish as it is functional. Your patient trays will deliver hospitality at every meal.

Aladdin offers three beautiful dome styles: Allure®; Essence™; and Radiance™. Each style is available in multiple colors and coordinates with insulated tableware to enhance patient meal presentation.

They also coordinate beautifully with our room service tray, and can be used with flat cafeteria tray systems. Designed to fit Aladdin temperature maintenance meal-delivery systems, our tableware products are fully foam insulated to keep foods hotter, or colder, longer.

The insulated soup dome maintains soups or other hot foods (*input temperature at or above 180°*) at or above 140° for up to 80 minutes, so your soups, stews, hot cereals, hot desserts or extra side items *won't* arrive cold at mealtime.

Our insulated tableware works perfectly with these Aladdin meal-delivery systems:

- Heat On Demand Advantage®
- Heat On Demand Advantage® RS+
- Heat On Demand Ultra®
- Heat On Demand 2®
- Heat On Demand®
- Insul-Max™

Aladdin's Radiance™ dome

When used with our Heat On Demand® Advantage systems, Radiance™ domes provide the longest hot-food holding time in the industry!

Shown in our new color Tungsten, with coordinating insulated components, a clear Dimensions® 8-oz. bowl, a Heat On Demand Advantage® base with a 9" Presentation® china plate, on an RST1 Room Service Tray with a Sea Flowers tray cover.

Standard Features of Insulated Tableware Products

- Made from durable, long-lasting polymer.
- Fully foam insulated to maintain food temperatures.
- Highly stackable, stable designs for easy storage.
- Designed for easy cleaning.

Special Product Features: ¹ Entrée Domes for 9" dishware

Radiance™ High-Performance Dome

- High-performance dome provides extended hot-food holding time.
- Striking modern styling with a highly stackable design.
- Spacious design provides more internal food clearance.

Essence™ Dome

- Space-saving, stackable design.
- Spacious design provides more internal food clearance.

Allure® Dome

- More finger space beneath the grip for improved control.
- Space-saving, stackable design.
- Spacious design more internal food clearance.

Coordinating Components

Insulated Mugs¹

- Full three-finger grip for improved stability and comfort.
- Outer-fitting lid (snap-on design) keeps it above the liquid inside the mug.

Insulated Bowls¹

- Designed to stack for preportioning and storage.
- 8-oz. bowl has wide opening for easy filling, and eating.
- 5-oz. bowl is perfectly sized for smaller portions of hot or cold food (uses B42 and B44 lids).
- Outer-fitting lid (snap-on design) keeps it above the liquid inside the bowl.

Insulated Soup Domes^{1, 2}

- For use with Aladdin's 8-oz. insulated soup bowls.
- Extends hot food temperatures for foods such as soups, stews, hot cereals and extra side dishes.
- Fits over bowls with disposable lids.
- Recessed handle prevents damage during washing or handling.
