INNOVATIVE SOLUTIONS WORLDWIDE

Incredi-Bowl® Bases and Lids

Round polypropylene bowls in 15 sizes from 5 ounces to 48 ounces provide the optimal solution for many food applications. Excellent for soup, stew, chili, pasta, stir-fry and much more, can be used as a main course or as a side dish. Works well for sauces and desserts, too. Each lid fits multiple containers of various depths in 4", 5", 6", 7" and 8.5" diameters. Inside fitting polypropylene lids with leak-resistant seal eliminates messy spills and easy-open tabs are a consumer favorite.

10" - 11" Shallow Oval Platters

Assorted sizes and designs in shallow polypropylene oval platters for any meal or snack occasion. The full perimeter leak-resistant closure prevents messy spills and the addition of several unique features lets you choose the style that best suits your needs. Choose a platter designed to hold an 8 ounce paper food container in place without an extra lid or a package with an arrow that points the way for quick closure. A platter with extra ribbing is available for holding a heavy load.

9" x 6" Processor Trays – Flat Flange for Lidding Film

M400R Series

Specially designed for high-speed equipment, these high impact co-polymer polypropylene containers work well in refrigerated and frozen distribution channels. The single footprint in 16, 24 and 32oz depths are designed with a flat flange to allow film sealing after filling. A special order overcap lid is available to provide the consumer with a re-closeable package.

†High impact co-polymer polypropylene for refrigerated and frozen distribution channels.

10" x 7" Retangle

Popular one, two, and three compartment polypropylene rectangles are the perfect size for most meals. The single compartment 32 ounce containers will accommodate a wide variety of entrees and sides. The 2 and 3-compartment containers keep flavors segregated and the 2 and 3-compartment polypropylene lids will prevent solids from mixing in with other foods. The non-compartmented, leak-resistant polypropylene and RPET dome lids will fit all four containers and allow food with bones or unusual shapes to fit a base with or without compartments.

Clear, anti-fog, vented lids keep food looking fresh and appealing

Packaging that Performs

MicroRaves: Whether its restaurant take-out and delivery or supermarket take-home, think **RAVE**:

- Resistant to heat and leaking
- Anti-fog clear lids
- Variety of shapes, sizes and configurations
- Endless options to merchandise and deliver prepared food

Features	Benefits
• Polypropylene Bases and Lids	High performance products withstand temperatures to 230°F under heat lamps, in warming units or the microwave. Resistant to hot grease and oils. No release of odors when heated affecting the flavor or taste of food. Tough, cut-resistant material is also light and durable.
• Clear Polypropylene Lids	Clear Guard® anti-fog in all polypropylene lids offer excellent visibility of hot foods to assure order accuracy and drive sales from a hot display.
• Clear PETE Lids	Excellent visibility increases impulse sales of cold, ready-to-reheat foods in a refrigerated display.
• Design	Variety of shapes and footprints for every merchandising and take-out situation. Classic black bases with ribbing to reinforce the container and allow juices to drain.
• Size	Single serving, multiple or family size portions, snacks and small portions.
• Single and Multiple Compartments	Appetizers, sides, entrees, desserts packaged separately or complete meals.
• Leak-Resistant Closure	Confidence that the food stays inside package during handling and transport avoiding messy spills.
• Combo Packs	Many products available in convenient base and lid combo packs.
• Consumer Reusable	Polypropylene packages are dishwasher safe and a valuable bonus for your customers who can reuse the containers again and again.
• Recyclable & Sustainable	All polypropylene  and RPET/PETE  are recyclable. Many black, polypropylene bases are made with natural additives reducing the use of oil based resins by 40%. The RPET lids are made with a minimum of 10% FDA approved post-consumer recycled resin.

Many products listed are made with 40% less PP resin and the PETE bases and lids are made with a minimum of 10% FDA approved, post-consumer recycled material (RPET)
