CARPET & ROOM ALLERGEN REDUCER

Specifically designed, with regular use, to help remove allergens* and eliminate odors at the source – carpeting. It works in two ways:

Sprinkle on Carpet

- The Allergen Reducer goes deep down into the carpeting to remove allergens* at the source by breaking the static charge that bonds them to carpet fibers. Once the bond is broken the allergens are easily removed when you vacuum as directed.

Vacuum Carpet

- The baking soda goes deep down into the carpet to absorb and neutralize odors on contact, leaving your carpet and room smelling fresh and clean.

The **ARM & HAMMER** symbol was first used in the early 1860's by James A Church who operated a spice and mustard business known as the Vulcan Spice Mills. In Roman mythology, Vulcan, the god of fire, was especially skilled in fashioning ornaments and arms for the gods and heroes. The **ARM & HAMMER** symbol, therefore, represented the arm of Vulcan with hammer in hand about to descend on an anvil.

In 1867, when James A Church joined his father as a member of Church & Co. he brought along the **ARM & HAMMER** trademark. He began to use it on some of the baking soda packages that were being sold under various name labels. After a period of time, more people requested the package with the **ARM & HAMMER** symbol on it than all others and the **ARM & HAMMER** brand became our primary brand. Originally used exclusively on our baking soda packages, the trademark now identifies an array of quality consumer and specialty products in use throughout the world. Today Church & Dwight Co., Inc., strives to continue its tradition of providing products of high quality and performance that meet genuine consumer needs.
