A LEGACY OF LASTING INNOVATION

Companies worldwide count on Rubbermaid Commercial Products (RCP) to get the job done. We are proud to be a global leader, trusted partner, and pioneer of professional-grade product solutions that simply work better than the rest.

WHAT SETS RCP APART?

INNOVATIVE PRODUCTS

Solutions designed to address the distinct needs of a variety of environments, from hotels to airports to office buildings.

DURABILITY

Products that meet the challenging demands of commercial facilities day in and day out.

PROVEN PERFORMANCE

Professionals trust that our products will keep their facilities running reliably and efficiently.

WE'RE NO STRANGERS

TO INNOVATION

For over 50 years, RCP has pioneered world-class product solutions that meet the challenging demands of commercial facilities, while outperforming and outlasting the competition.

2008

ACQUIRED TECHNICAL CONCEPTS HOLDINGS, LLC

A leading global provider of innovative restroom hygiene systems.

2011

INTRODUCED FLEX™ SOAP DISPENSERS

Offering adjustable dose sizes and soap compatibility.

2015

**DEVELOPED MICROBURST®
AIR FRESHENER WITH
LUMECEL™**

Using indoor light as a source of power.

2017

**LAUNCHED AUTOFOAM
SOAP DISPENSER
WITH LUMECEL™**

Using indoor light as a source of power.

ENSURE A

POSITIVE EXPERIENCE

EVERY TIME

At RCP, we know that the condition of your washroom is important to your patrons' experience and facility's reputation. Our products are designed to stand up against heavy traffic and constant use. Their reliable and efficient performance keeps your operations running smoothly. No matter what challenges your facility faces, our complete washroom solutions will ensure that your facility maintains a professional image that leaves every visitor with a positive and lasting impression.

KEEP YOUR WASHROOM LOOKING ITS BEST

RCP's selection of solutions ensures that your washroom operates as beautifully as it looks:

PRODUCTIVITY

Keep the washrooms in your facility functioning at peak performance.

COST-IN-USE

Reduce your operating costs, while still getting the job done.

IMAGE

Protect your facility's integrity with lasting durability and consistent cleanliness.

SKIN CARE

Protect your facility's image and employees' well-being with RCP's full line of skin care solutions. Our reliable dispensing systems and high-quality soaps and sanitizers help to positively impact your bottom line.

SOAP & SANITIZER EDUCATION

Proper hand hygiene is important to preventing the spread of germs in high-traffic areas; 80%* of germs are transmitted by touch. Understanding the roles of soap and sanitizer and how they work together can help prevent illness.

*Keep Your Germs to Yourself! | Baptist Health
Bethany Chandler, Pharmacy Resident, BHMC-Little Rock
<https://www.baptist-health.com/keep-your-germs-to-yourself/>

LEARN THE INGREDIENTS

Soaps and sanitizers are made up of a combination of ingredients to meet your specific needs.

SOAP:

SANITIZER:

- 1 SURFACTANT:**
Cleansing and foaming agent that removes dirt and germs
- 2 FRAGRANCE:**
Clean with or without added scents
- 3 DYE:**
Clean with or without added color
- 4 MOISTURIZER:**
Helps to keep skin hydrated
- 5 ANTIBACTERIAL:**
Alcohol-free ingredient helps to kill germs
- 6 ALCOHOL:**
Active ingredient used in alcohol-based sanitizers

KNOW THE DIFFERENCES

SOAP

FOAM

- Dispenses in a light, airy consistency
- Lathers quickly for an easy hand wash
- Rinses easier to reduce drain maintenance

LOTION

- Dispenses in a thick, liquid consistency
- Creates a rich lather
- Most effective in eliminating hand bacteria¹
- Uses more water in day-to-day handwashing activities

SANITIZER

FOAM

- Dispenses in a light, airy consistency
- Use frequently between hand washes
- Compliments a proper hand wash
- Acts quickly to kill microorganisms on hands

¹Foam Soap is Not as Effective as Liquid Soap in Eliminating Hand Microbial Flora
Nicolette Dixon - [https://www.ajicjournal.org/article/S0196-6553\(17\)30082-2/fulltext](https://www.ajicjournal.org/article/S0196-6553(17)30082-2/fulltext)

PRACTICE PROPER HAND HYGIENE

Frequently wash hands with soap and water, even when hands aren't visibly dirty

When washing hands, scrub for at least 20 seconds to remove dirt and germs

Sanitizer should be used in between and after hand washes to maintain hand hygiene

Germs can be transferred more easily to and from wet hands, so hands should be dried after washing

ACHIEVE CERTIFICATIONS

Certification is based on Green Seal standards, which contain performance, health, and sustainability criteria.

Criteria is based on the type of soap, formulation, and packaging.

- Indicates that the product is certified in the SKU listings

Leadership in Energy and Environmental Design (LEED) is a point system. The more energy efficient and "green" the building is, the more points it will earn.

- AutoFoam with LumeCel™ helps with earning LEED points

National Sanitation Foundation (NSF) certification is a regular on-site inspection of manufacturing facilities and re-testing of products to ensure that they continue to meet the same high standards required over time.

The NSF Hand Care product category is divided into three sub-categories relevant to RCP's Skin Care line:

- E1 - Handwashing products
- E2 - Handwashing and sanitizing products
- E3 - Hand-sanitizing products

- Indicates that the product is certified in the SKU listings

DISPENSER EDUCATION

COUNTER MOUNT AUTOMATIC

- Dispenses soap touch-free
- Controlled portioning reduces refill maintenance and waste
- Requires batteries for operation
- Includes helpful indicator lights
- Optimizes wall space

WALL MOUNT AUTOMATIC

- Dispenses soap touch-free
- Controlled portioning reduces refill maintenance and waste
- Requires batteries for operation*
- Includes helpful indicator lights
- Convenient, easy installation

WALL MOUNT MANUAL

- Dispenses soap on demand with push bar
- Includes viewing window for refill maintenance
- Operates without batteries
- Convenient, easy installation
- Most economical option

*Excludes AutoFoam dispenser with LumeCel technology, which is powered by indoor light.

OneShot® Foam

Smart Sensor™ Technology dispenses soap automatically to help improve the health and enhance the image of your facility.

Mounts flush with the counter to maintain the clean look of your washroom, with motion-activated sensors that dispense soap automatically to reduce cross-contamination.

- 1 SMART SENSOR TECHNOLOGY:** Motion-activated sensors dispense controlled amounts of soap
- 2 LONG BATTERY LIFE:** Lasts up to two years or 90,000 handwashing cycles
- 3 COMPLEMENTARY DESIGN:** Pairs well with the RCP AutoFaucet® design
- 4 CONTROLLED DOSING:** Precisely dispenses just enough soap to clean hands

AIR CARE

Protect the perception and reputation of your facility with RCP's full line of air care solutions. Our consistent dispensing systems blend into the washroom environment, attack odors at the source, and release fresh-smelling fragrances to create the ultimate sense of cleanliness.

FRAGRANCE

EDUCATION

Fragrance can reinforce the feeling of cleanliness and freshness in the washroom; 77%* of patrons that experience a business with unpleasant washroom smells leave with a negative perception of the business. RCP offers a full line of air care options that can help you create a positive experience.

*Source: The State of Air Care, Initial Hygiene, 2017

LEARN THE COMPOSITION

Fragrances are made up of three main “notes” that help to create a blended scent.

- 1 **Top Notes:** Also known as “head notes,” serve as the first impression you get from the fragrance.
- 2 **Middle Notes:** The “heart,” or main body of the fragrance, that gives the fragrance its character.
- 3 **Bottom Notes:** The base, which tends to be heavier and fuller, giving the fragrance its strength.

KNOW THE FRAGRANCE FAMILIES

RCP’s fragrance options fall within five distinct fragrance families, based upon their scents:

FLORAL

Characterized by:
Radiant scents, such as rose, jasmine, and violet; green scents, which are reminiscent of freshly cut grass, leaves, and stems.

FRUITY

Characterized by:
Luscious fruity scents, such as apple, pear, plum, mango, peach, and melon.

CITRUS

Characterized by:
Invigorating and uplifting scents, such as lemon, mandarin, and other citrus oils.

HERBAL

Characterized by:
Powerful, aromatic herbal scents, such as rosemary, mint, coriander, lavender, and sage.

FOUGÈRE

Characterized by:
Masculine scents, such as lavender, moss, and woods.

WHAT SETS RCP FRAGRANCES APART

Traditional air fresheners only camouflage malodors; all of RCP's fragrance options have odor neutralizer, which attacks and effectively eliminates unavoidable odors in the washroom. Thus, completing two jobs in one – removing odors and creating fresh-smelling environments.

ODOR NEUTRALIZER

Locks onto malodor molecules to neutralize the odor.

FRAGRANCE-FREE ODOR NEUTRALIZER

RCP also offers a Pure odor neutralizer for environments, where odor removal is desired, but fragrance is not. This option is a blend of natural extracts and purified water that attracts, captures, and neutralizes malodors.

DISPENSER EDUCATION

ACTIVE

- Aerosol system relies on valve-actuating mechanism to dispense fragrance automatically
- Programmable dispensing options reduce refill maintenance and waste
- Requires batteries for operation*
- Includes helpful battery and refill life indicators

PASSIVE

- Relies on natural air movement to dispense fragrance
- Operates without batteries
- Non-aerosol system does not include propellants or added harmful volatile organic compounds (VOCs)

*Excludes Microburst 3000 dispenser with LumeCel technology, which is powered by indoor light.

TCell™

Delivers continuous, passive odor control for up to three months.

Passive fuel cell technology delivers precise, timed fragrance for up to 90 days of consistent odor control.

- 1 FUEL CELL TECHNOLOGY:** Hydrogen released into the refill chamber forces fragrance into the air at a consistent rate and distributes throughout room with natural air flow
- 2 FLEXIBLE CONTROL SETTINGS:** Standard Setting: 60 days - Standard Size Washroom: 3 to 4 stalls/fixtures
Light Setting: 90 days - Smaller Size Washroom: 1 to 2 stalls/fixtures
- 3 BATTERY-FREE OPERATION:** Passive fuel cell technology consistently delivers odor-neutralizing fragrance without the need for batteries

FIXTURES

Keep your washroom running efficiently and reliably with RCP's faucets and flushers. Our automated fixture options utilize smart sensor technology to ensure the washroom is always clean, presentable, and ready for patron use.

FIXTURES

AutoFlush® Sidemount

Replace an existing fixture with an automatic flushing system.

Install an automatic flush system in minutes without shutting off water.

- 1 REPLACEMENT SOLUTION:**
Remove and replace current flush handle to automate existing system
- 2 SMART DESIGN:**
Combines an angled-lens design with advanced sensor technology that activates even when the toilet seat is raised
- 3 DRY CAM-GEAR TECHNOLOGY:**
Patented technology controls the water flow, ensures worry-free operation, and eliminates solenoid valves to prevent costly repairs
- 4 LONG BATTERY LIFE:**
Lasts more than three years or up to 100,000 flushes
- Four C batteries included

AutoFaucet

Dispenses water automatically with dependable Surround Sensor™ Technology.

Surround Sensor Technology dispenses water only when needed and helps prevent the spread of germs.

- 1 SURROUND SENSOR TECHNOLOGY:**
Creates an omnidirectional sensing zone that guarantees activation every time
- 2 DRY CAM-GEAR TECHNOLOGY:**
Patented technology controls the water flow, ensures worry-free operation, and eliminates solenoid valves to prevent costly repairs
- 3 COMPLEMENTARY DESIGN:**
Pairs well with the RCP OneShot soap dispenser design
- 4 LONG BATTERY LIFE:**
Lasts more than three years or 400,000 handwashing cycles
- Four D batteries included
- 5 OPTIONAL THERMOSTATIC MIXING VALVE:**
Ensures water remains in the desired temperature range
- Included in kit 4 or available separately

SURFACE CARE

Improve the cleanliness of your facility with RCP's surface care solutions. Our cleaning systems dispense formulas that help to provide a high standard of clean for washroom surfaces.

SURFACE CARE

AutoClean®

Automatically dispenses solution that cleans and deodorizes fixture surfaces.

A cleaning system that ensures toilets and urinals are always clean, odor-free, and presentable

- 1 IN-LINE INSTALLATION:**
Delivers cleaning solution to hard-to-reach areas, such as rim holes, to ensure that the entire fixture is clean
- 2 FLEXIBLE PROGRAMMING:**
Maximize product life and cost-efficiency with a combination of adjustable program settings:
 - Spray intervals: 3 to 43 minutes
 - Hours per week: 8, 12, 16, or 24
 - Days per week: 5, 6, or 7
- 4 FRAGRANCE REFILL:**
Powerful cleaner and deodorizer formulation offered in two fragrances
- 4 PURINEL® REFILL:**
Specialized formula removes mineral deposits on fixtures and prevents calcium build-up on pipes
