

DE LUXE™

FULL LINE PRODUCT CATALOG

■ INNOVATORS IN FOOD PACKAGING FOR OVER 70 YEARS

De Luxe has more than 70 years of experience supplying a diverse range of both paper and non-paper packaging products and converting capabilities.

We offer an extensive selection of foodservice, dairy, confectionery, industrial and medical packaging. Our innovative products include popcorn bags, bakery cups, coffee bags, pan liners, to-go bags, sandwich wraps and bread bags.

Our advanced paper-conversion capability includes waxing, foil, lamination, pinch bottom bags and industrial packaging. We also specialize in non-paper manufacturing and converting capabilities including multi-layer laminations, composite coating, lamination and unsupported aluminum foil processing.

■ SUSTAINABILITY VISION

The Novolex vision for sustainability is to innovate more sustainable choices for our customers, operate responsibly and invest in our people and communities. We bring this vision to life every day through our ongoing focus on efficiency in our operations, as well as through partnerships with customers, suppliers, communities and others in the industry to develop solutions that reduce the impact our products can have on the environment.

■ Novolex sustainability partnerships

The mark of responsible forestry

Forest Stewardship Council®

The FSC® promotes environmentally appropriate, socially beneficial, and economically viable management of the world's forests. The unique role of the FSC is to bring together people, organizations and businesses to develop consensus-based solutions that promote responsible stewardship of the world's forests. Duro uses the FSC Trademark License FSC®-C010800 for certified chain of custody products made at all Duro plants.

Sustainable Forestry Initiative

SFI Inc. promotes sustainable forest management in North America and supporting responsible procurement globally. SFI Inc. directs all elements of the SFI program including the SFI forest management, fiber sourcing, and chain-of-custody standards, labeling and marketing. SFI certified products provide assurance that the paper used in these products represent a sound environmental choice with raw materials from certified forest content or certified sourcing. Novolex products produced at Duro Bag, Bagcraft, Deluxe and Burrows Packaging are eligible for SFI Certified Sourcing or SFI Chain of Custody logo use. Novolex uses SFI Trademark License Code 01567.

Biodegradable Products Institute

BPI is North America's leading certifier of compostable products and packaging. Their certification program ensures that products and packaging displaying the BPI logo have been independently tested and verified according to scientifically based standards—ASTM D6400 or D6868 standards—for Duro products. The BPI logo also helps industrial composters know that our products will break down as expected and contribute to healthy soil amendment.

Compost Manufacturing Alliance™

CMA is a global leader in providing industrial composting facilities an acceptance standard for compostable products. They perform field disintegration testing through several prominent processing methods to ensure products sent to industrial compost facilities adequately break down within the production cycle. CMA connects supply chain leaders with top compost manufacturing facilities nationwide to ensure mutual success as co-creators of compost and compostables.

American Society For Testing And Materials (ASTM)

This specification establishes the requirements for labeling of materials and products (including packaging), wherein a biodegradable plastic film or coating is attached (either through lamination or extrusion directly onto the paper) to compostable substrates and the entire product or package is designed to be composted in municipal and industrial aerobic composting facilities. In order to compost satisfactorily, the product must demonstrate each of the three characteristics as follows: (1) proper disintegration during composting; (2) adequate level of inherent biodegradation; and (3) no adverse impacts on the ability of composts to support plant growth.

■ Novolex sustainability partnerships (continued)

Dubl Life® is a brand of flexible foodservice and carryout packaging made from 100% Recycled Paper. The Dubl Life brand drives awareness of the benefits of recycling and promotes the use of packaging solutions with post consumer material content.

EcoCraft® is Bagcraft's unique brand of kraft paper products. Each item throughout the EcoCraft line has a sustainability component, whether it be recyclable or made with recycled content.

■ How2Recycle® and consumer education

As part of our commitment to consumer education, Novolex uses the How2Recycle® and How2Compost™ labels on stock products and works with customers to encourage their use on branded items.

How2Recycle® is a standardized labeling system that clearly communicates recycling instructions to the public. When applicable, it includes instructions on how to properly clean a product before recycling.

How2Compost™ labels inform consumers if a product is compostable in commercial composting facilities. The label is available to use on packages that have gone through the Biodegradable Product Institutes (BPI) certification process. BPI certification is open to products that meets the requirements in ASTM D6400 or D6868 based on testing in a BPI-approved laboratory.

Custom converting printing capabilities

Our efficient presses deliver state-of-the-art graphics capabilities to differentiate your products on the shelf and on the go. Our commitment to innovative solutions enables us to expertly consult with you on packaging design.

CUSTOM ORDER INFORMATION FOR QUOTES

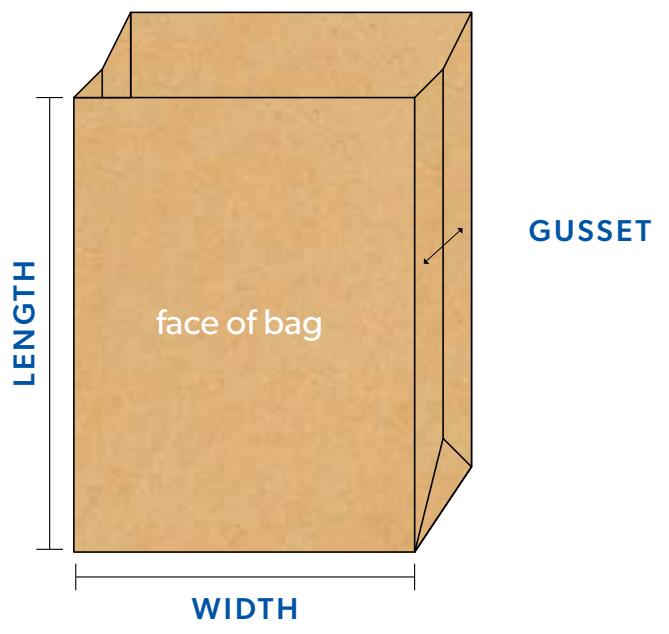

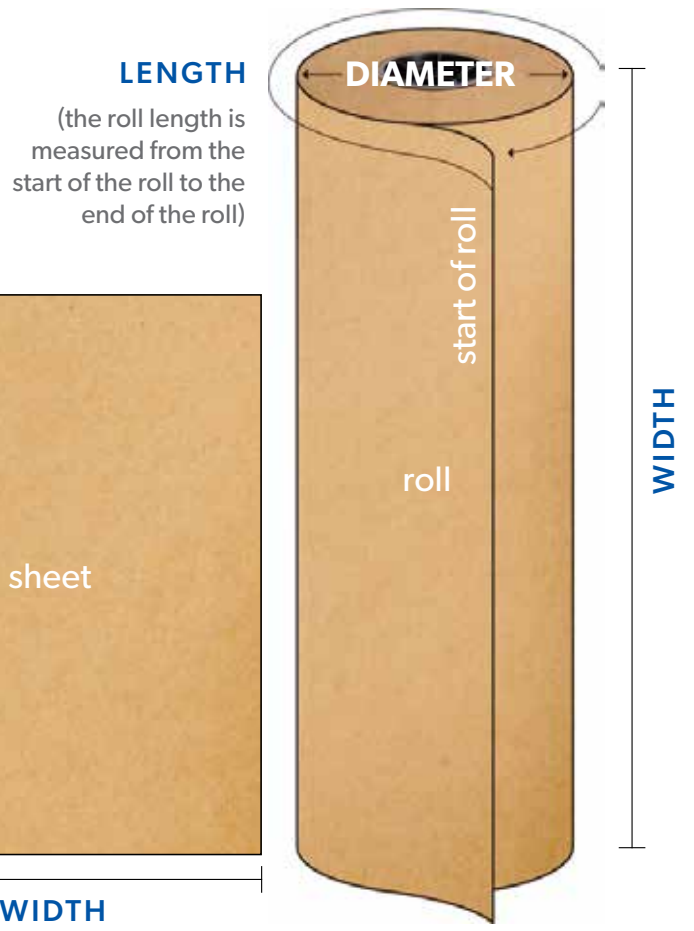

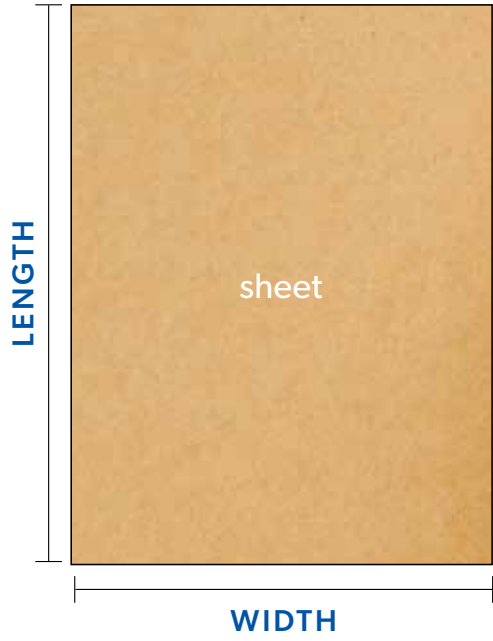

- Bag (width, gusset, length)
- Sheet (width and length)
- Roll (roll width and length or outer diameter)
- Initial order quantity needed and the annual volume (units or cases)
- Name of printed design or logo
- Basis weight of paper if known
- Type of paper or combination of materials (foil, bio-fim or glassine)
- Provide an explanation of the proposed window die or panel location on the package
- Number of printed colors (provide PMS numbers)
- Product application (what will the package used for?)
- Case pack sizes (inner and total)
- Shipping/distribution informations

HOW TO MEASURE A BAG FOR QUOTES AND PRODUCTION: See page 7

- Measure the face of the bag (width)
- Measure the gusset of the bag (side width)
- Measure the length of the bag (not including lip)

For additional informations, contact your Novolex® Sales Representative.

■ Pan liners with standard release

PERFORMANCE FEATURES

- Premium full and half pan liners
- Good for products with low sugar content
- Grease resistant

Dubl Shield® insulated wraps & bags

PERFORMANCE FEATURES

- High-performance wrap for a wide range of demanding applications
- Triangle-shaped design creates insulating air pockets keeping food hot and fresh longer than standard wraps and bags
- Excellent moisture and grease resistance
- Superior heat retention when compared to one-and two-ply paper wraps and bags
- Innovative functionality that keeps bread moist or crisp depending on which side of the wrap contacts the food

EcoCraft® Eco-Flute® grease resistant clamshell containers

Our stock line of EcoCraft® grease resistant clamshell containers come in a variety of shapes and sizes and were designed for a wide range of food types and markets.

Eco-Flute®

EcoCraft clamshells are constructed from Eco-Flute®, a micro-flute technology that utilizes recycled, post-consumer content to provide a sturdy, lightweight package. These containers resist grease and retain heat.

The middle layer uses 100% recycled post-consumer content.

Appetizers & snack container

The advantages of EcoCraft® clamshells

PERFORMANCE FEATURES

- The Eco-Flute® construction provides superior rigidity and crush strength
- The corrugate layer helps to keep hot food hot and cold food cold
- The lightweight Eco-Flute material allows for moisture vapor transmission and resists grease to keep foods fresh and crisp
- Select the right level of venting for each food type with multiple articulated vents
- Windowed clamshells can improve order accuracy
- Easy to store, easy to load and easy to lock.
- The middle layer of Eco-Flute is 100% post-consumer recycled content (PCR), making the total package a minimum of 33% PCR.
- Available in 6 sizes

Meals / ToGo! containers

PERFORMANCE FEATURES

■ Novo-Dry™ desiccant sheets

PERFORMANCE FEATURES

- Made from recycled paper and may be recycled at curbside.
- Eliminates potential safety hazards, spills and mess caused when traditional silica gel or clay packs burst or are opened.
- Effective within a wide temperature range protecting perishable food and fresh produce by controlling relative humidity and providing insulation.
- Controls humidity to prevent rust, corrosion, and mildew on such products as metal parts, furniture, electronics, leather goods and apparel.

INNOVATORS IN FOOD PACKAGING FOR OVER 70 YEARS

SUSTAINABILITY VISION

The Novolex vision for sustainability is to innovate more sustainable choices for our customers, operate responsibly and invest in our people and communities. We bring this vision to life every day through our ongoing focus on efficiency in our operations, as well as through partnerships with customers, suppliers, communities and others in the industry to develop solutions that reduce the impact our products can have on the environment.
