SNOW REMOVAL TOOLS

**PATENTED
Shock-Absorbing
D-Grip**

**Reduce
the potential
of injury.**

Absorbs the shock
normally transferred to the user's
wrist, elbow, and shoulder joints
during repetitive shoveling motion.

Cushions

the heavy contact of tool hitting a hard object.

POWER LIFT Snow Thrower™

Never bend to lift snow again!

Innovative twisting action design allows for easy snow release.

SnowThrower™ is completely adjustable to the user. The easy-to-use screw collar adjusts to the height of the person, while the front handle pivots to adjust to the user's arm length and position. The shovel mechanism allows a person to lift snow and release it without bending. A simple twist of the wrist easily releases snow.

#1397

Release Mechanism

Lifetime™ Handle

Screw Collar adjusts to any height

Massive D-Grip

The dual-handle system allows the user to lift snow without bending. The front handle automatically adjusts to the individual user.

To release the snow, the user turns the rear handle with a small twist of the wrist – the front hand grip stays stationary.

As the rear handle turns, the blade turns.

MegaDozer™

a shovel, pusher and scoop in one MEGA snow-removal tool!
