PASSIONATE ABOUT PACKAGING

WELCOME TO DIRECT PACK, INC.

We are a leader in customized and innovative thermoformed packaging for all food applications. Our passion is to truly understand your needs and translate them into outstanding packaging solutions with a strong focus on both visual design, functionality and environmental sustainability.

We bring packaging expertise to the Foodservice, Supermarket, Processor and Produce industries.

FOODSERVICE

From full service restaurants and fast casual chains to contract feeders and neighborhood cafés – our experts have in-depth knowledge of optimizing packaging for all types of foodservice locations. We carry a wide range of containers for both hot and cold food.

SUPERMARKETS

Having been involved in many of the most successful retail packaging programs in the market today, our experts will help you make the most out of your space. We offer innovative packaging with great merchandising effects for the deli, bakery and grab-and-go.

PROCESSORS

Whether you are packing large volumes of food in an automated or manual environment, our knowledgeable and creative team can tackle any production related challenge. We offer functional and good-looking containers for hummus, dips, salads and more.

PRODUCE

We have a deep understanding of the highly seasonal and time sensitive produce business. Besides ensuring on-time delivery, our team has many years of hands-on experience with developing optimal packaging for a wide variety of fresh berries, fruits and vegetables.

A RECYCLING SUCCESS

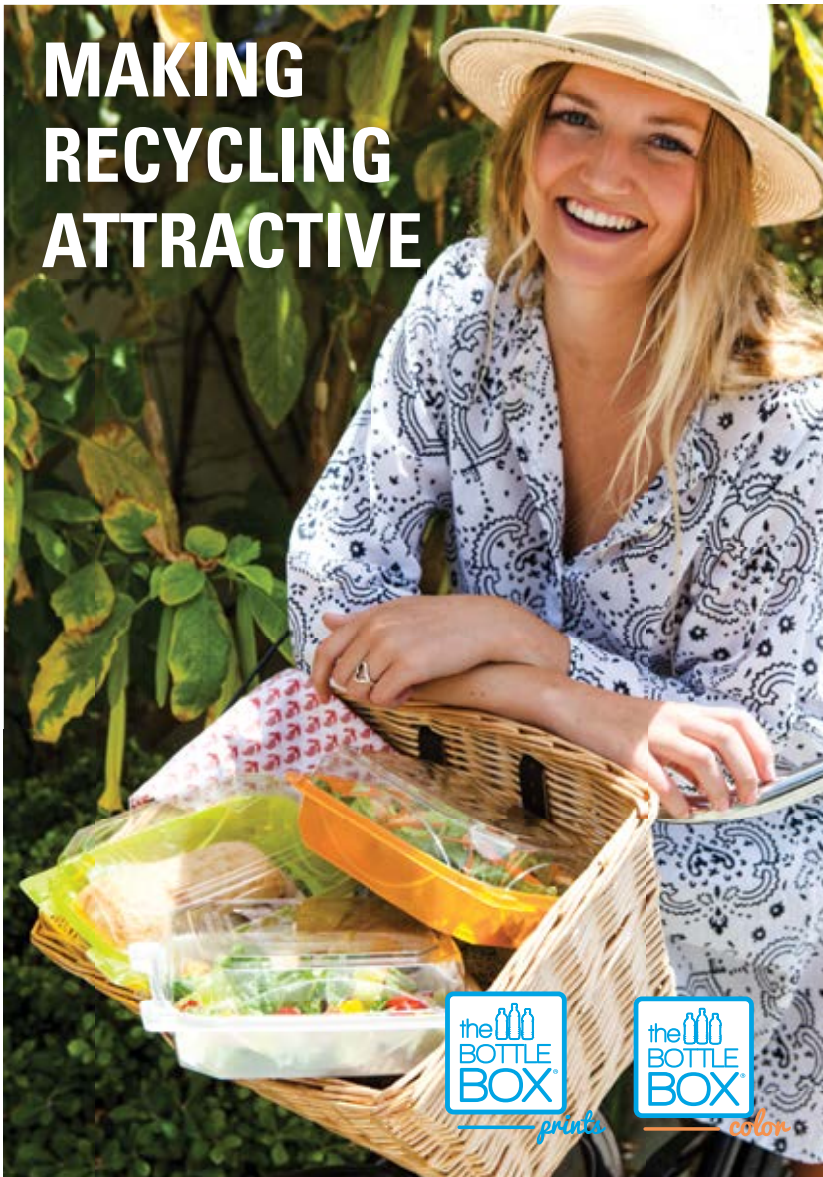

ACTIVELY CLOSING THE LOOP

Sustainability has always been one of the main driving forces for us at Direct Pack, Inc. As the proud founder of the BOTTLEBOX® – the original range of food packaging made from recycled PET plastic - we use millions of beverage bottles to create a line of packaging that not only looks stylish, but makes it easier for us all to do our part in closing the loop. By using the BOTTLEBOX®, you help save beverage bottles from landfills and oceans, and when your customers are done, they can recycle the containers again.

MAKING RECYCLING ATTRACTIVE

OFTEN IMITATED BUT NEVER DUPLICATED

Spotting a true BOTTLEBOX® is simple. Every BOTTLEBOX® is marked with the BOTTLEBOX® logo and the number of bottles it took to create that container. If you don't see either of those markings then you do not have a true BOTTLEBOX®.

HINGED CONTAINERS

FUNCTIONALITY WITH ADDED VALUE

Our range of hinged containers will cover all your needs from small 6x6" to large 9x9" and several rectangular versions. Clear, black or colored, they are perfect for your deli, to-go display, or as doggy boxes. Try our new one-piece containers with black or colored bases and clear lids. They are sure to draw your customers' attention and make your food look even better.

SALAD AND SANDWICH

THE SALAD AND SANDWICH TREND CONTINUES.

In the consumer's search for healthy living combined with convenience, a fresh salad or sandwich "to go" is a natural choice. Today's consumers also want to contribute to a more sustainable environment, so what would be better than serving their meal in a BOTTLEBOX® container made of recycled bottles? And you can easily add a pop of color to their meal with our popular colored and printed containers.

SALAD AND SANDWICH

ATTRACTIVE COLORS AND PRINTS

Born in Southern California out of friendship, creativity and a wish to make recycling more attractive, BOTTLEBOX® prints is a stock collection of four different prints in several color ways, made by well-known textile designer Kerry Cassill. Merchandising fresh food is all about creating a feast for the eyes and drawing the consumer's attention. Experience shows that adding color to your grab-and-go can increase your sales over 20%! Have an idea for a custom print or color? Then please contact us for more information.

SUSTAINABILITY & INNOVATION

Over the years, the BOTTLEBOX® has grown tremendously and our sustainable containers are used by hundreds of fast casual restaurants, neighborhood cafés, grab-n-go's, independent restaurants, and schools all over the country.

As people become more exposed to our story, the BOTTLEBOX® is enjoying an ever-increasing following of consumers- especially by the new generation of consumers that want to make a positive impact on the world, and use their purchasing power as a way to

reflect their healthy, environmentally conscious lifestyle.

Our approach to sustainability includes multiple steps that encompass the whole recycling process. From simply using recycled material, to developing optimal product designs to use as little material as possible, then improving manufacturing processes, and now more than ever, working on end of life recovery.

By using the BOTTLEBOX® you become an active participant in “Closing the Loop”, and contribute to a sustainable environment. That’s a message your customers will value.

NEW ITEMS

As the demand for sustainable packaging options increases, we are expanding the BOTTLEBOX® collection. From clear 7x7", 9x7" and 10x7" containers to increasing our offering for hot food containers with small bowls, new 9x7", 10x7" and 9x9" PP containers. No need to look any further; we have the sustainable packaging alternative you need!

COMING SOON

At Direct Pack, Inc. fulfilling our customer packaging needs is our number one priority. We will be completing our BOTTLEBOX® colors family with coextruded 5x9" and 6x6" containers. Then to complete our offering for hot food, we will be adding clarified PP lids in various sizes. Looking for something special? Please feel free to contact our Sales Team so we can help you find what you need.

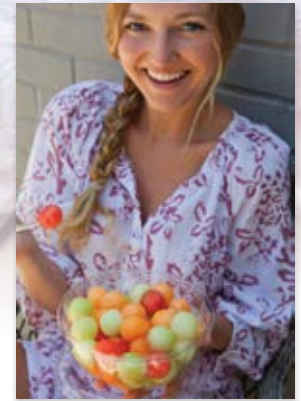

SALAD AND FRUIT BOWLS

GREAT BOWLS FOR FRESH SALADS

These clear BOTTLEBOX® bowls are perfect for pre-packed salads or cut fruit in the deli, or for serving fresh salads in your restaurant or “to go”. The design is very appealing and easy to hold in your hand. We have six different sizes to match your portion sizes. Available with a flat or dome lid.

DELI CONTAINERS

MERCHANDISING EXCELLENCE

Merchandising is everything. Our deli containers are not only functional and sustainable, they also have an important element of design that will enhance the look and freshness of your food and inspire impulse buys. With a broad current range and custom design capabilities, we are in lock step with retailers who want to upgrade and breathe new life into this category.

ENTREES / HOT FOOD

TAKE-OUT CONTAINERS FOR EVERY NEED

Many of the most successful restaurant chains in the country are using our elegant, practical entrée containers. Made for hot or cold food our entrée containers come in a variety of sizes and depths. We offer a wide variety of specialty containers for smaller entrées, soup and sides.

For hot food containers we use polypropylene (PP), which can withstand temperatures up to 220 (degrees) F and be used in a microwave. PP can be recycled and we are working on projects to increase PP recycling in the US. You can choose between our new clear PP lids or our lids made of recycled PET plastic.

ENTREES / HOT FOOD

TAKE-OUT CONTAINERS FOR EVERY NEED

Based on customer demand, we have expanded our offering of medium and large entrée containers and added clarified PP lids. Our popular 10x7" container is now available in both black and copper PP. If you want to keep the food separated on the plate, we offer several solutions with different compartments. The large entrée containers are found on page 18, and matching side containers on page 14-15.

EMBOSSING AND CUSTOMIZATION

MAKE IT YOUR OWN

At Direct Pack, Inc. we live and breathe innovation and design. Being passionate about packaging inspires us to work closely with our customers and come up with new great solutions. Besides the wide range of stock products, we specialize in customization. If we don't have the perfect packaging solution for you in our assortment already, we'll be happy to make it for you.

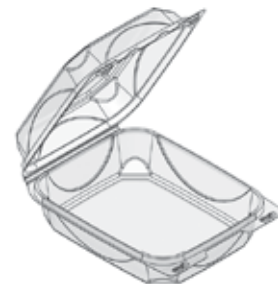

YOU CAN PERSONALIZE YOUR PACKAGING IN SEVERAL WAYS:

Emboss your logo or message on the lid.

Select a color that matches your brand.

Create a packaging with the exact measurements, ounce capacity and functionality you need.

Logo embossing is available for a minimum of 800,000 pieces per year. Please contact us for more information.

THE BOTTLEBOX® STORY

It's simple. It makes sense.

A Recycling Success

At Direct Pack we use millions of discarded water and soda bottles every year to make our range of BOTTLEBOX® containers. The stylish BOTTLEBOX® is the original take-out container made from post-consumer recycled PET plastic.

BOTTLES

- ① You recycle a plastic bottle.
- ② The recycling center receives the bottles in big bales.

FLAKES

- ③ The bottles are sorted by color and ground up into flakes.
- ④ The flakes are thoroughly washed to meet food grade standards.

CONTAINERS

- ⑤ During extrusion the flakes are turned into large rolls of recycled PET.
- ⑥ The rolls are used in a thermoforming process to make the BOTTLEBOX® containers.

GREAT NEWS!

The BOTTLEBOX® containers can be recycled again & again!
