

Dine-In Disposables

*** Great for Dine-In ***

For sanitary dine-in disposables, Pactiv offers a full line of products to keep your staff and customers safe.

- ★ Avoid using or sharing items that are reusable, such as menus, condiments, and any other food containers. Instead, use disposable or digital menus, single serving condiments, and no-touch trash cans and doors.
- ★ Use disposable food service items (e.g., utensils, dishes, napkins, tablecloths). If disposable items are not feasible or desirable, ensure that all non-disposable food service items are handled with gloves and washed with dish soap and hot water, or in a dishwasher. Employees should wash their hands after removing their gloves or after handling used food service items.
- ★ Avoid use of food and beverage utensils and containers brought in by customers.
