QUALITY DISPOSABLE FOOD SERVICE PRODUCTS & APPAREL

Focus Around The Fryer

Scratch Resistant Scouring Pad

Page 19

Cleans without scratching. Use on virtually any surface.

Smart-Tabs™

Page 7

Low-foaming boil-out tablets increase fryer efficiency and extend oil life

Filter Aides

Page 5

Remove solid contaminants from oil while filtering

Filter Brite® Pads

Page 4

Requires no retrofit of the filter unit

Filter Brite® Powder

Page 5

Filter Brite® products extends the life of the oil and improves the food quality and increases profits

Fryer Drain Rod

Page 6

Pushes crumbs through clogged fryer drain pipe

Fryer Boil Out

Page 6

Cleans heating elements, maintains constant temp during frying, which results in quality foods & reduces downtime. Also cleans fryer baskets like new.

Fryer Brushes

Page 6

Use to clean all areas of the fryer. Heat-resistant up to 500°.

Stropping Pads

Page 6

To clean the difficult areas around and underneath the heating elements.

Scouring Pads

Pages 18-19

Available in many sizes and weights for all applications.

Shortening Filtration

Pages 2-3

Sheet, Envelope & Disc Filters

Manual Filtration

Page 3

Removes more particles than a china cap or cheesecloth

How To Size Up a Conventional Filter

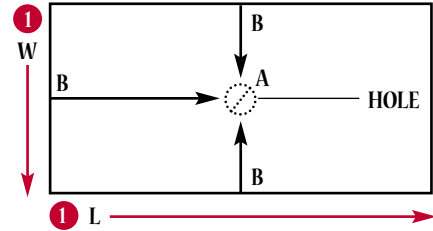

Measure Width, Length or Diameter of the filter to the most outside points. Note any hole in the filter, the location of the hole and size or diameter of the hole. Then locate the filter from pages 2 or 3 of this catalog. If the filter you're looking for is not listed, or you have questions concerning filter size, material or availability, call 1-800-548-5150. (For Filter Pads, powder-filled paper material, use our guide on page 4.)

For assistance in matching up a filter, Call 1-800-548-5150 (eastern) and ask us for help.

SHEET

SINGLE THICKNESS

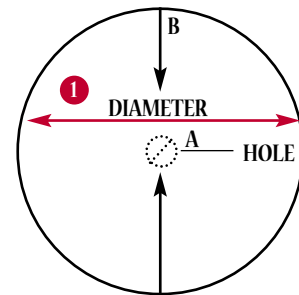

- 1 Measure width and length.
- 2 If a hole is present:
 - A. Measure across the opening of the hole to determine the diameter.
 - B. Measure all sides to the outside edge of the hole to determine its position.

DISC

ROUND WITH OR WITHOUT HOLE

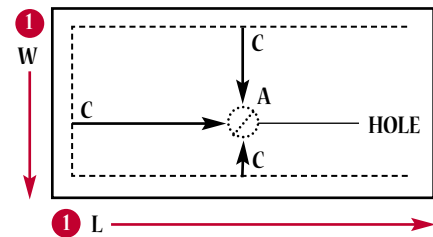

- 1 Measure diameter of disc.
- 2 If a hole is present:
 - A. Measure across the opening of the hole to determine the diameter.
 - B. Measure all sides to the outside edge of the hole to determine its position.

ENVELOPE

DOUBLE THICKNESS WITH STITCHING ON TWO OR THREE SIDES. THESE FILTERS WILL COME WITH OR WITHOUT HOLES. IF A HOLE IS PRESENT IT WILL EITHER BE THROUGH ONE SHEET OR GO DIRECTLY THROUGH THE FILTER.

- 1 Measure width and length.
- 2 If a hole is present:
 - A. Measure across the opening of the hole to determine the diameter.
 - B. Make a note if the hole is through one side of the filter or passes straight through both sides of the filter.
 - C. Measure from the closed or stitched points of the filter to the edge of the hole. You should have three measurements for the hole position when you've finished.

MANUAL FILTERS & HOLDERS

Manual filters are made from a high flow non-woven material for efficient filtering. Our material removes more particles from the shortening than a china cap or cheesecloth, therefore maintaining food quality.

Item #	Filter Size / Detail	Pack Case	Case Weight	Case Cube
FC100	10" Filter Cone	100 Bulk	1.60 lbs.	0.210
FC-10-3	10" Filter Cone	10/50	11.00 lbs.	1.590

Disco® Filter Brite® filter pads require no retrofit of the filter unit.

How To Size a Filter Pad

Note: When using a Filter Brite® filter pad in a Frymaster filter unit, the pad must fit the inside dimension of the filter pan. It cannot be over or undersized or poor filtration will occur. Filter Brite® pads must fit to within 1/8" of the sides of the pan. It is critical that you measure the length and width of the inside of the filter pan. DO NOT GUESS. See the illustration below for further detail.

1. Measure the inner length and width of the filter pan.

L = Length W = Width

Example: L = 21 1/2" x W = 11 5/8"

2. Use the dimensions to locate the correct filter pad from the listing above. If the filter pad you're looking for is not listed, or you have questions concerning filter size, material or availability, call 1-800-548-5150. Disco® has a team of Hot Oil Specialists ready to answer your filtering questions.

Filter Powders

DEFLATE OIL COST AND IMPROVE FOOD QUALITY

FILTER BRITE® OIL PURIFICATION POWDER

Filter Brite® Oil Purifier filters harmful contaminants out of cooking oil to maintain food quality and extend the useful life of the cooking oil. It is permitted for use in oils by the FDA and USDA. Available in bulk or convenient portion packs.

IMPROVE FOOD QUALITY

- Removes Particles From Oil And Reduces Carbon Build-Up In Fryer Pot
- Increased Food Hold Time
- Fried Food Appearance Is Better And More Consistent
- Better Tasting Food
- Fried Food Absorbs Less Oil
- Reduces Smoking And Free Fatty Acids

INCREASE PROFITS

- Less Labor Costs
- Easy And Safe To Use
- Pre-Measured Filter Brite® Oil Purifier In The Filter Pad Or Portion Pack Reduces Equipment Oil Pump Failure
- Reduces Oil Cost By Up To 50%

FILTER BRITE® PORTION PACKS

Filter Brite® Portion Packs contain our oil purifier. The FB560 will filter a 35 to 50 lbs. capacity fry pot.

Item #	Pack Case	Case Weight	Case Cube
FB560	60 Applications	14.00 lbs.	1.060

FILTER BRITE® BULK

Filter Brite® Oil Purifier bulk box contains 14 lbs. of powder. Inside the box is an 8 oz. (by volume) scoop for measuring the right amount of powder every time. Use one scoop when filtering a 35 to 50 lbs. capacity fry pot.

Item #	Pack Case	Case Weight	Case Cube
BR20	60 Applications	14.00 lbs.	0.570

*8 oz. measuring cup included

SHORTENING FILTER POWDER

This filtration aid helps in the filtration of oil by removing the solid contaminants (crumbs) from the oil during the filtering process. When used in conjunction with filter paper, it creates a cake on top of the filter, adding an extra layer of depth filtration.

Item #	Pack Case	Case Weight	Case Cube
DFP-80	80 Applications	6.10 lbs.	1.250

DIATOMACEOUS EARTH BULK

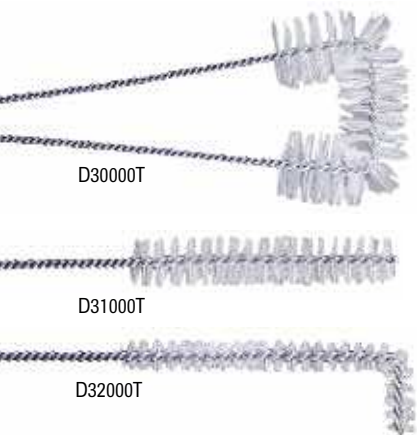

Diatomaceous Earth (also known as DE) aids in the filtration of oil by removing the solid contaminants (crumbs) from the oil during the filtering process. Available in our 25 lbs. box. Not an oil purifier.

Item #	Pack Case	Case Weight	Case Cube
DE125	166 Applications	27.00 lbs.	2.340

Fryer Cleanup Accessories

D30000T

D31000T

D32000T

D34000TPO

HIGH TEMPERATURE FRYER BRUSHES

Cleaning is a constant part of fryer operation. Using the right tools to clean the fryer is just as important as filtration. Our fryer brushes are designed to clean all areas of the fryer while it's still in operation. The bristles are heat resistant to 500°F so that the fryer can be cleaned during filtering without having to wait for it to cool down.

Item #	Description	Overall Length	Bristle Length	Fiber	Pack Case	Case Weight	Case Cube
D30000T	U-Shaped Fryer Brush	24"	2"	Teflon	6	5.90 lbs.	0.560
D31000T	Straight Fryer Brush	28"	1"	Teflon	12	5.40 lbs.	0.560
D32000T	L-Tipped Fryer Brush	23"	7/8"	Teflon	12	3.90 lbs.	0.560

ECONOMY FRYER BRUSH

Our economy fryer brushes feature natural tampico bristles set into a wire twist with a wooden handle. Good performance at a low cost.

Item #	Description	Overall Length	Bristle Length	Fiber	Pack Case	Case Weight	Case Cube
D34000TPO	L-Tipped Fryer Brush	23"	2"	Tampico	12	6.00 lbs.	0.560
D35000TPO	Straight Fryer Brush	26"	2 1/2"	Tampico	12	6.15 lbs.	0.710
D36000TPO	Bent Fryer Brush	28"	2"	Tampico	12	6.50 lbs.	1.080

FRYER DRAIN ROD

The Fryer Drain Rod is a key tool to have handy when filtering a fryer. Use it to push through crumbs and other debris when they clog the fryer drain pipe.

Item #	Size	Material	Pack Case	Case Weight	Case Cube
FDR	5/8" dia.	Nickel Plated Steel	1	1.50 lbs.	0.510

NI502208

NI502220

CRIMPED NYLON BRUSH

Ideal for kitchen scrubbing and other tough jobs. Fibers are flared to get into tight places and clean quickly. White plastic block is virtually unbreakable. A popular food service brush.

Item #	Handle	Bristle Trim	Bristle Color	Pack Case	Case Weight	Case Cube
NI502208	8 1/2" Plastic	2"	Clear	12	6.00 lbs.	0.470
NI502220	20" Plastic	2"	Clear	12	10.00 lbs.	1.290

STROPPING PAD

For cleaning around and underneath fryer heating elements where it is difficult to reach with a brush.

Item #	Description	Size	Pack Case	Case Weight	Case Cube
SP-94	Medium Duty Green	4" x 25"	1/25	3.10 lbs.	1.000

FRYER BOIL OUT

Boil Out removes the carbon build-up in fry pots and is economical and easy to use. Clean heating elements maintain constant temperature during frying which results in quality foods and reduces fryer down time. Each container has enough to do approximately 10 boil outs for a 50 lbs. capacity fryer. There are two 8 lbs. containers per case. Available in two formulations: original and non-corrosive.

Item #	Description	Pack Case	Case Weight	Case Cube
FBO8	Original Fryer Boil Out	2/8 lbs.	16.00 lbs.	0.460
MSFBO8	Metal Safe (Non-Corrosive) Fryer Boil Out	2/8 lbs.	16.00 lbs.	0.460

*Includes measuring scoop

FORMULATED TO MEET THE TOUGHEST FRYER CLEANING!

MAKES QUARRY TILE, GROUT & CONCRETE FLOORS LOOK LIKE NEW!

Chef Hats

Demonstrating professionalism and experience, chef hats are a staple in most kitchens. Higher heights reflect greater experience. Originally, the number of pleats on a hat represented the number of ways a chef could prepare an egg. While this criteria may be old-fashioned, our line of hats is not. Designed for both form and function, these hats provide a comfortable fit and a professional appearance.

Le Classic™

Our best selling traditional "pleated" style chef hat.

Signature **AirVent STAR**

System in crown ensures cool comfort while the Touch 'n Seal Sizer® guarantees correct fit.

Available in 7", 9", 10" and 12" heights, with or without sweatband. Packed fully formed.

CC200

Le Flute

"Fluted" style corrugated chef hat offers an economical alternative.

Signature **AirVent**

STAR System in crown ensures cool comfort.

Available in 7", 9" and 10" heights.

Packed fully formed.

CM200

Le Contour™

Traditional European styling. Soft and comfortable to wear with air vents. Adjustable headband can be custom imprinted. Available in 9" and 11" height. Folded flat in small case cube for efficient storage. Best choice for print! **CH600** (Also available in non woven material: **CN600**, cannot be custom printed)

Le Compac™

Lightweight **paper crown** with air vents. Touch 'n Seal Sizer® guarantees correct fit. Flat-pack design saves storage and shipping costs. Can be imprinted with your logo. Available in 7" and 9" heights. **CH100** (Available in non woven material: **CN200**, not pictured)

Apparel

Materials & Sizing

SPUNBONDED

POLYPROPYLENE UNCOATED (SBPP)

Available in several weights—from 16 gm. for Bouffants to 65 gm. for certain coveralls and lab coats. These non-wovens offer splash protection from non-hazardous liquids and dry particulates.

SPUNBOND, MELTBLOWN, SPUNBOND (SMS)

Similar to Spunbonded Polypropylene, this soft, comfortable non-woven has two layers of spunbonded polypropylene enhanced with an inner layer of meltblown for extra protection. Great for dusty areas and superb for splash protection. Available in standard white and blue.

BREATHABLE BARRIER (BB)

Microporous laminates are the newest arrival on the non-woven scene. Micro-porous film is laminated to a spunbonded polypropylene substrate to provide a barrier that is strong and breathable as well as an effective shield against many liquids. Available in white.

POLYCOATED

SPUNBONDED POLYPROPYLENE (PE COATED SBPP)

Fabric made by laminating a coating of liquid polyethylene to the polypropylene substrate. This fabric is not breathable. While providing an excellent shield against liquids, it is more comfortable to wear in a cooler environment. Available in white.

Latex-Free!

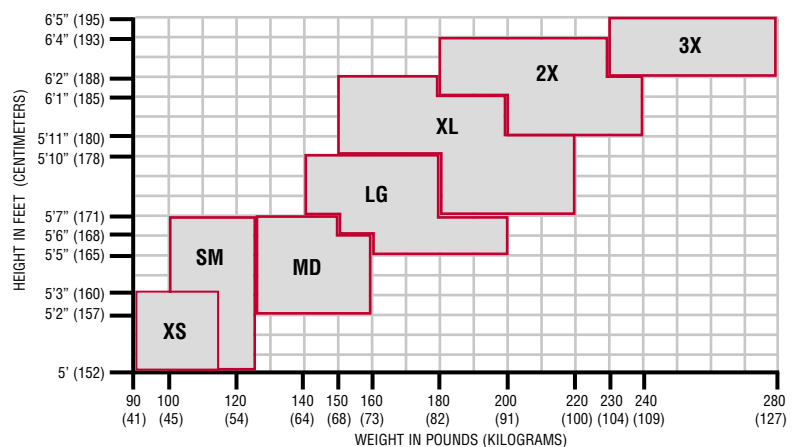

All Apparel and Headwear are made with latex-free elastic which helps eliminate irritation to those sensitive to latex.

Scratch
Resistant

CONTOUR® SUPREME SPONGE

Combines our innovative sponge material with an organic compound which cleans without scratching. Safe to use on virtually any surface. Features a unique four angle point design to easily clean corners on countertops, food pans and equipment. Designed to match the natural shape of your palm. Blue color for easy identification versus the green heavy and medium duty pads that scratch.

Item #	Size	Pack Case	Case Weight	Case Cube
CSS20	6" x 3 ³ / ₄ " x 7 ⁷ / ₈ "	20/Bulk	3.00 lbs.	0.36

WALNUT PAD® SUPREME SPONGE

Innovative sponge material absorbs water while the Walnut Pad® helps cleaners work even better without scratching. Safe to use on stainless steel, copper or coated cookware and any surface where scratching is a concern.

Scrubbers

STAINLESS STEEL SCRUBBERS

Scrubbers are made of high-grade stainless steel with four-sided strands, giving four cleaning edges to handle the toughest jobs. Because each scrubber is made of a single strand of stainless steel, they will not tear or splinter. Will not rust or corrode.

"300" SERIES - PREMIUM GRADE

Manufactured from "300" series premium grade stainless steel (18/8). Great for highly aggressive cleaning jobs when scratching is not an issue.

Item #	Size	Pack Case	Case Weight	Case Cube
D100	50 gm. (1.75 oz.)	6/12	8.96 lbs.	0.910
D100/12	50 gm. (1.75 oz.)	1/12	1.60 lbs.	0.160
D200	35 gm. (1.25 oz.)	6/12	6.60 lbs.	0.660

"400" SERIES - HIGH GRADE

Manufactured from less expensive "400" series high grade wire construction. This scrubber has effective properties for the removal of baked-on deposits and other medium duty jobs.

Item #	Size	Pack Case	Case Weight	Case Cube
D104	50 gm. (1.75 oz.)	6/12	8.96 lbs.	0.910
D104/12	50 gm. (1.75 oz.)	1/12	1.60 lbs.	0.160

D204/12	35 gm. (1.25 oz.)	1/12	1.20 lbs.	0.160

KURLY KATE® STAINLESS STEEL SCRUBBER

The Kurly Kate® line of stainless steel scrubbers feature both a 50 gm. and 35 gm. scrubber made from "400" series wire. Each scrubber is individually packaged in a printed bag with a peg hole for retail display.

Item #	Size	Pack Case	Case Weight	Case Cube
6375650	50 gm. (1.75 oz.)	6/12	9.02 lbs.	0.880
6275630	35 gm. (1.25 oz.)	12/12	13.00 lbs.	1.230

BRASS SCRUBBER

A soft tempered brass wire scrubber that is easy on the hands. Scrubber is made of one continuous strand of wire. Will not corrode, rust or splinter. Can be used with detergent or other cleaning solutions. Easily recognized by its gold color.

Item #	Size	Pack Case	Case Weight	Case Cube
D300	35 gm. (1.25 oz.)	6/12	6.45 lbs.	0.290
D400	50 gm. (1.75 oz.)	6/12	9.25 lbs.	0.380

KURLY KATE® BRASS SCRUBBER

Another product in the Kurly Kate® line of scrubbers. This 50 gm. scrubber is made from a soft tempered brass wire (gold in color) that is easy on the hands. Can be used with detergent or other cleaning solutions. Each scrubber is individually packaged in a printed bag with a peg hole for retail display.

Item #	Size	Pack Case	Case Weight	Case Cube
7380550	50 gm. (1.75 oz.)	6/12	9.00 lbs.	0.590

COPPER MESH SCRUBBER

Manufactured from pure copper ribbon, these scrubbers are ideal for safely cleaning soft metals such as aluminum, copper, stainless steel, plated and tinned surfaces. Not recommended for use on fine china, plastics, or painted surfaces.

Item #	Size	Pack Case	Case Weight	Case Cube
CM	50 gm. (1.75 oz.)	6/12	9.40 lbs.	0.430

Griddle Cleaning

GRIDDLE CLEANING SYSTEM

We offer three different Griddle Cleaning Systems to choose from. The **GCSHR** features our GPH10HR holder which is made from a high heat resistant plastic and has gripping teeth for holding the griddle pad firmly in place. Included with the handle are 40 Griddle Screens and 10 Griddle Pads. The **GCS** features our GSH482 holder with a metal textured bottom and plastic handle. Included with the handle are 40 Griddle Screens and 10 Griddle Pads. The **GCSHR20** features the GPH10HR (mentioned above), 20 Griddle Screens and 10 Griddle Pads.

Item #	Pack Case	Case Weight	Case Cube
GCSHR (Includes GPH10HR)	1 Kit	1.45 lbs.	0.160
GCS (Includes GSH482)	1 Kit	2.00 lbs.	0.160
GCSHR20 (Includes GPH10HR)	1 Kit	1.40 lbs.	0.250

Use with GP46 & GP10/20

GRIDDLE PADS

Ideal for light griddle cleaning and polishing. When used alone on a warm griddle, this pad will do light cleaning and polish the griddle surface to bring back the shine. A Griddle Pad must be used when using a Griddle Screen and Holder. The pad allows particles from the griddle to soak up through the screen and prevents the screen from clogging.

Item #	Size	Pack Case	Case Weight	Case Cube
GP46	4" x 5 1/4"	6/10	2.85 lbs.	0.560
GP46/20	4" x 5 1/4"	1/20	1.15 lbs.	0.260

Use with GP10/20 & GSH482

GRIDDLE SCREENS

Use Griddle Screens for those times when you do not need to clean a heavily charred griddle or for use after cleaning with a Grill Brick. For more effective cleaning, use the Griddle Screen with a Griddle Pad. Griddle should be 212°F or less. The pad allows the particles from the griddle to soak up through the Griddle Screen and will help keep the screen from clogging. Choose any of our Griddle Pad Holders to protect hands from grease and burns. **Griddle Screens measure 4" x 5 1/2"**

Item #	Pack Case	Case Weight	Case Cube
GS10/20	10/20 (200 screens)	3.70 lbs.	0.110
G35	50/8 (400 screens)	7.60 lbs.	0.340

Pan Covers

Disposable food pan covers come in four different sizes to fit sixth, third, half and full pans. Elastic band keeps the food pan cover in place during transport and storage. Try them on a bowl when tossing chicken wings in sauce to reduce splashing. No need to keep up with plastic and metal lids that need to be washed, get lost or take up valuable kitchen space.

Hand Dish Washing Soaps

HAND DISH WASHING SOAP TREND-X®

A powdered dish washing detergent offering superior sudsing through rapid solubility in all types of water conditions. This versatile formula can be used as a “general all purpose cleaner” that works on floors, walls and most other water safe surfaces. Can even be used in light laundering and car washing. Biodegradable—safe for all sewage systems. Spray dried—dissolves rapidly. Cleans in hard and soft water. USDA (A-4)—can be sold to all federally inspected meat and poultry plants.

Laundry Detergents

INSTITUTIONAL HEAVY-DUTY DETERGENT

A concentrated blend of cleaning agents which will emulsify grease and dirt in either hard or soft water with excellent results. This synthetic detergent formula contains water softening, fabric brighteners, grease emulsifiers and soil suspending agents. Highly concentrated—uses smaller amounts than many competitive products. Biodegradable—safe for all sewage systems.

Urinal Products

URINAL SCREENS

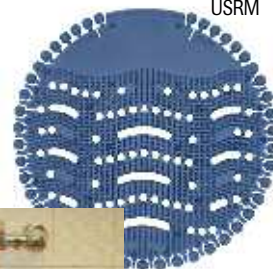

4 oz. enzymatic deodorant block contains surfactants and chelating agents to clean and deodorize for 30 days (up to 2,000 flushes). Coloring agents are released with each flush so you know that it's working. Increased ventilation reduces potential splash back and flexible screen traps more debris to prevent costly drain clogs.

Fruit and Vegetable Crisper

FRESHWAY®

Use FreshWay® with confidence to retain the crispness and color of fresh cut fruits and vegetables. FreshWay® contains no sulfites; it will retard oxidation rather than reverse it. FreshWay® will extend the life of fresh cut lettuce and cabbage by two to five days, depending on water and vegetable conditions. FreshWay® solution may also be used with bell peppers, cucumbers, tomatoes, celery, radishes, mushrooms, carrots, apples, potatoes and more. When comparing FreshWay® with other crispers on the market, remember that FreshWay® does not contain any fillers like dextrose or corn sugar, which means it will cost less to use. Made in USA.

Choosing the Best Value in Wet Mops

YARN	ADVANTAGES	DISADVANTAGES	USES
Cotton	Good absorption & retention. Low initial cost.	Requires break-in. Lints and dries slow, promotes mildew and deterioration.	General use. Picking up liquids Scrubbing.
Rayon	Quick absorption & release. Dries fast, mildew resistant. Cleaner yarn, lints less.	Shrinks when laundered. Less liquid retention.	Applying liquids (finishes, disinfectants).
Synthetic	Long staple fiber for superior tensile strength, no lint.	Higher cost. Poor absorption.	Cleanrooms. Rough surfaces.

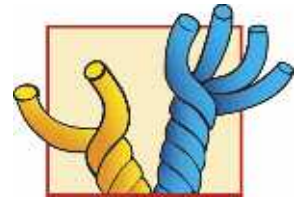

To accommodate your specific cleaning needs, we offer a wide variety of yarns as well as new products to help users do their job more efficiently. Let the following information assist you in choosing which mops are right for your needs.

Yarn

Certain yarns do a specific task better than other yarns. That's why there is such a variety of mops. To get maximum efficiency and value from a wet mop, it is important to select the right yarn for the job.

Yarn Ply

Yarn ply indicates the number of strands twisted together to make a single yarn strand. More plies give added strength, though higher ply numbers do not necessarily mean higher quality yarn. More strands may add durability but they also decrease absorbency. It's much

Cut-End

The cut-end is the standard, most popular and economical (initially) mop style. Cut-end mops fray and unravel, increasing the lint factor and leaving loose strands behind.

In addition, without tailbands, cut-end mops cover less area per pass. Since cut-end mops cannot be laundered, they are often considered "disposable" and thrown away before their useful life is over.

Looped-End

The looped-end mop is designed for superior performance and extended life. There are no ends to fray or unravel as the mop sweeps over the floor surface in a wide, even path. Looped-end mops can be laundered for longer life and cleaner appearance. The initial investment is soon compensated with lower replacement, reduced labor cost and increased performance.

Headbands

1 1/4" headbands are available for stirrup-type handles and are useful on finishing-type mops such as our FastTrack™ looped-end mop. The 5" width headbands are compatible with clamp and jaw-type handles. The synthetic mesh material provides non-abrasive scrubbing to help dislodge dirt and to allow quick drying of yarns. Abrasive scrubbing pads can also be included.

Looped-End Mops

LAUNDERABLE, PRE-SHRUNK MOPS

Our line of pre-shrunk, looped-end mops is designed to meet the needs of the health care industry and other users who launder mops. These mops may be laundered repeatedly while maintaining their clean appearance, low lint factor, absorbency and strength without shrinking. They also save money by outlasting cut-end mops up to eight times and reducing labor costs by up to one half!

Size	Equivalent Ounces	Band Color	Approximate Lbs. / Dz.
Small	8-10	Red	10
Medium	16-20	Green	15
Large	24-32	Blue	18
X-Large	32-40	Yellow	23

Vinyl covered mesh headband is more durable

Two types of top quality, pre-shrunk yarn withstand heavy use and laundering

Tailband provides wide surface coverage and prevents tangles

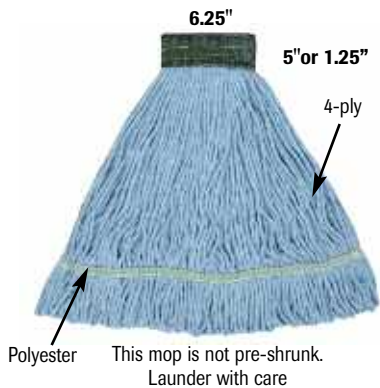

Looped-end yarn keeps yarn ends from fraying and linting

Looped-End Wet Mops

JW ATOMIC LOOP

This economical cotton/rayon/synthetic blend mop cleans two to three times the area with up to six times the life of a conventional cut-end mop. Available with a wide band for tough jaws handles, or narrow band for speed change handles. (See page 37)

Utility Pads & Holders

UTILITY PADS

LIGHT-DUTY - WHITE

A light-duty pad for cleaning delicate surfaces and light cleanup on sinks, ceramic tile, windows, tubs and toilets.

MEDIUM-DUTY - BLUE

Use to clean baseboards, swimming pool walls and for removing scuff marks on floors.

HEAVY-DUTY - BLACK

For stripping heavy wax build-up areas where machines can't reach, such as baseboards and corners.

HEAVY-DUTY - EMERALD

For stripping heavy wax build-up areas where machines can't reach, such as baseboards and corners.

HEAVY-DUTY - SAFIRE

For stripping heavy wax build-up areas where machines can't reach, such as baseboards and corners.

HEAVY-DUTY - BROWN

For heavily soiled traffic areas such as halls, stairs, around stoves and fryers. Easily removes old finish and wax build-up.

POLICY INFORMATION

All prices and specifications are subject to change without notice. All orders taken will be subject to the company's acceptance.

MINIMUM ORDER

There will be a small order charge of \$10.00 added to any order under \$100.00. This minimum applies to all orders, customer pick-ups, drop ships, etc.

SPECIAL ORDER ITEMS

In order to meet all our customers' needs, Cellucap® & Disco® stock the majority of items contained in this catalog. However, due to low volume and/or lengthy manufacturing process, some items are not kept in stock and typically take 2 to 4 weeks to produce. These items have been marked throughout the catalog with the following designation: "*". Please call customer service to check on availability of these items if there are any time constraints involved with your order.

MERCHANDISE RETURN

Prior approval is required to return merchandise. Returned merchandise is subject to inspection, and a 15% restocking fee may be assessed as well as appropriate freight charges. No credit will be issued until merchandise is received. Freight charges for the outbound freight may also be assigned to the customer.

PAYMENT TERMS

Net 30 days on approved credit.

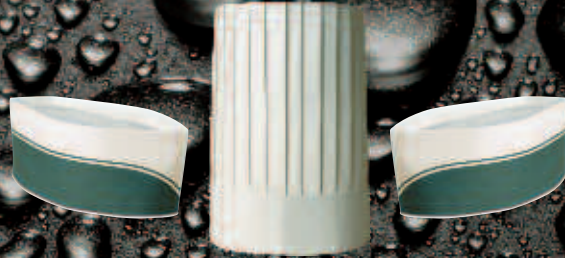

CUSTOMER PICK-UP

Pick-up orders are available from our McDonough, GA, and Philadelphia, PA facilities. F.O.B. plant pricing available on request.

PRIVATE LABEL PROGRAM

The initial order accompanying a request for a private label will receive approval by Cellucap® & Disco® if quantities warrant such printing costs. Labels can be produced in full color to the client's specifications. Special artwork or variations from normal specifications may incur additional charges.

Disco® is a registered trademark of Disco, Inc.
 Typar™, Teflon® & Silverstone® are registered trademarks of DuPont Corp.
 Filter Brite®, FreshWay®, Brillo®, Contour®, Kurlly Kate®, Trend-X®, Walnut pad®,
