## Foam Foodservice Products and the Environment

- Foam can be recycled
- Dart Container operates foam collection centers in North America, the UK, and Argentina and has capabilities to recycle 12 million pounds of post consumer foam #6 annually
- Foam foodservice products do not “clog” landfills. Polystyrene foam foodservice products constitute less than 1%, by both weight and volume, of landfill waste
- Dart does not use chlorofluorocarbons (CFCs) in manufacturing foam cups, and never has

Visit [www.dartcontainer.com/recycle](http://www.dartcontainer.com/recycle) to learn more about foam recycling.
