This Dexter exclusive steel enhances

- * Sharpness
- * Edge holding
- * Ease of re-sharpening
- * Corrosion resistance

Increased Hardenability:

Edge life is proportional to hardness

Increased Tensile Strength:

Promotes edge stability or resistance to micro-chipping and edge rolling

Increased Toughness:

Adds resistance to abrasion or edge dulling

Increased Corrosion Resistance:

Elements form a self-repairing barrier from oxidation

Finer Grain Structure:

The finer the grain, the sharper and longer lasting the edge

OUR PEOPLE:

We are proud of our American Heritage and our pride shows in every product we manufacture. We've been told that we're not the best because we're the oldest... but rather we're the oldest because we are the best. Our 250 employees take seriously our commitment to provide our customers with the highest-quality, American-made kitchen tools available. We invite you to try The Dexter Edge.

What's inside is most important

Our
Manufacturing
Process:
A HEALTHY DOSE OF
CRAFTSMANSHIP

The Dexter manufacturing process is committed to crafting products of consistent quality and dependability...all at unmatched value.

Our 200 years of experience and state-of-the-art equipment enable us to produce superior cutting edges that are sharp out-of-the-box, long-lasting, and easily restored. Our manufacturing process involves:

Blade Formation: Blades are created through laser cutting or the traditional blanking process. The blade shape is created and the scrap "skeleton" is recycled.

Heat Treatment: Controlled heating and cooling are used to create a small, tight grain structure thus producing a blade that is extremely strong, wear-resistant, and with just-right flexibility.

Precision Edge Grinding: Accurate and consistent grinding creates specific flex points so blades flex precisely where they should.

OUR STEEL:

We craft our cutting knives with DEXSTEEL™; our proprietary high-carbon, high-alloy stainless steel specially engineered for professional quality knives.

DEXSTEEL™

- ▶ Enhances sharpness, edge-holding, corrosion resistance, and ease of re-sharpening
- ▶ Creates a finer grain structure enhancing edge sharpness and life
- ▶ Increases hardenability and tensile strength for durability and toughness

Connoisseur®

- Durable handles crafted with engineered rosewood that is impregnated with polymers and resins
- Handles are secured to blades with large brass compression rivets
- Sanitary and easy to clean
- NSF Certified

DuoGlide®

- Ultra-soft, right-sized and textured handle makes it easy to grip the knife securely
- Contoured handle shape fills the hand providing comfort and control
- Protective finger guard
- Sanitary and easy to clean
- NSF Certified
- DEXSTEEL™

Cascade

- Durable, easy-to-clean polypropylene handle
- Drop handle design with control bump offers stability with reduced hand and arm stress
- Textured for secure grip
- Protective finger grip
- NSF Certified
- DEXSTEEL™

V-LO®

- State-of-the-art composite handle design for maximum comfort and control
- Combines firmness of a polypropylene core with a comfortable Santoprene® grip
- Dex-Tex® Armadillo texture for sure grip
- Protective finger guard
- Trademarked, modern distinctive look
- NSF Certified
- DEXSTEEL™

SOFGRIP®

- Comfortable, non-slip grip handle provides maximum control and safety
- Ergonomic handle matches the contours of the hand, for hours of comfortable use
- Impervious blade-to-handle seal provides utmost in sanitary performance
- Protective finger guard
- Trademarked handle design and surface ornamentation
- NSF Certified
- DEXSTEEL™

(continued)

UR-Cut®

- Moldable handle creates custom grip that matches contours of user's hand
- Impervious blade-to-handle seal provides utmost in sanitary performance
- Protective finger guard
- Trademarked handle design and surface ornamentation
- NSF Certified
- DEXSTEEL™

SANI-SAFE®

- Textured, slip-resistant, easy-to-clean polypropylene handle
- Impervious blade-to-handle seal provides utmost in sanitary performance
- Protective finger guard
- Trademarked handle design and surface ornamentation
- NSF Certified
- DEXSTEEL™

W C G P R T Y

Dexter 360™

- Ergonomic handle combining soft Santoprene® and durable polypropylene
- Color coded to facilitate participation in food safety programs
- Protective finger guard
- NSF certified

Traditional™

- Offers the warmth and feel of a natural wood handle
- Handle is secured to the blade with large brass compression rivets
- Protective finger guard
- DEXSTEEL™

iCUT-PRO®

- Soft, comfortable Santoprene® handle
- Contoured handle shape fills the hand providing comfort and control
- Sanitary and easy to clean
- NSF Certified

Basics®

- Durable polypropylene handle is textured for slip resistance
- Sanitary and easy to clean
- Protective finger guard
- NSF Certified

Connoisseur[®]

Designed for executive chefs and “front-of-the-house” use in the finest restaurants, hotels, and other institutions.

Combines premium materials with Dexter’s expert craftsmanship.

Sanitary engineered rosewood handles, impregnated with polymers and resins, provide warmth, durability, balance, and stain resistance.

Stain-free, high-carbon steel blades are individually ground to the ultimate edge.

Superior blade shape for easier slicing

Hand honed to the ultimate edge

NSF certified to meet health code standards

Sanitary handles of engineered rosewood are impervious to stain

Unique edge geometry for long lasting, easily restored performance

Stain-free, high-carbon steel for edge retention and easy cleaning

Forged blades have full tang that offers durability and perfect balance

Handles are secured to the blade with large brass compression rivets

Cascade

The Cascade line of knives was designed with the chef in mind. Each knife feels like an extension of the hand; seamless, balanced, and easy to use.

Cascade combines the most advanced production capabilities, ergonomic study, style, shapes, and materials. Features like drop handle with control bump and unique blade arcs create a knife that is both functional and comfortable to use.

Whether cooking is your profession, passion, or both; the Cascade series of kitchen knives was created to ensure everything you prepare exceeds expectations.

Precision engineered edge geometry for long lasting, easily restored performance

Hand honed to the ultimate edge

NSF certified to meet health code standards

Protective finger guard

Signature drop handle with control bump fills the hand and aids in smooth and efficient cutting, with reduced forearm stress

Proprietary DEXSTEEL™ high-carbon, high-alloy stainless steel for enhanced sharpness, edge holding, corrosion resistance, and ease of re-sharpening

Unique arc of the blade creates a classic forward slicing motion for effortless cutting

Ribbed texture, ergonomic shape, and finger contour provide a comfortable, secure grip

Glass filled polypropylene handle is impervious to both heat and moisture

Knives with scalloped blades feature many curved edges protected by sharp points that help to break through bread's hard crust. As these points break through, the curved edge slices the soft interior without damaging it. Features like offset handles or curved blades allow the user to cut completely through a loaf of bread without contacting the cutting board.

29803 V3CP 3 piece cutlery set **NSF**

Heat Treatment is the process of controlled heating and cooling of metals in order to change their physical and mechanical properties. The desired properties for the manufacture of professional cutlery are strength, resistance to wear, and flexibility. This process is key to the production of a small, tight, and consistent grain structure that promotes long edge life.

Gift Sets & Multipacks

Set includes:
12" duo-edge roast slicer, 13" cook's fork, 7" duo-edge Santoku knife, 3 piece cutlery case

SOFGRIP®

The standard in non-slip and comfortable design for demanding kitchen environments. A soft rubber grip reduces stresses that may cause fatigue and common wrist injuries like carpal tunnel syndrome.

Blades are manufactured from proprietary DEXSTEEL™ stain-free, high-carbon steel and are individually ground and honed.

SOFGRIP® handles are ergonomic and feature the Dexter trademarked handle design and surface ornamentation.

Superior blade shape for easier slicing

Hand honed to the ultimate edge

NSF certified to meet health code standards

Protective finger guard

Ergonomic, slip resistant SOFGRIP® handle

Many Dexter SOFGRIP® products are available with either black or white handles

Unique edge geometry for long lasting, easily restored performance

Proprietary DEXSTEEL™ high-carbon, high-alloy stainless steel for enhanced sharpness, edge holding, corrosion resistance, and ease of re-sharpening

Impervious seal of blade to handle for utmost sanitation and durability

SOFGRIP® handle matches the contours of the hand for hours of comfortable use

- 24463B SG164-6SCB-PCP** 6" scalloped sandwich/utility knife **NSF**

The sharp points of scalloped edges break through tough rinds and firm skins of fruits and vegetables and protect the sharp scalloped edges. After the points break through the tough outer surface, the curved scalloped edges slice through soft interiors without damaging them. One advantage of the scalloped knife is that the many individual scalloped cutting surfaces add up to more cutting surface than the actual length of the blade, which increases the amount of cutting per slice.

Utility Knives

Safe Storage

Knife blocks, cutlery cases, and knife guards provide excellent storage solutions, help to prevent accidents and prolong the life of your knives.

UR-Cut®

Dexter-Russell®, the experts in edges since 1818, now provides the latest in handle technology....personalized handles. Moldable handle material allows the user to form each handle to their particular grip, making the handle more comfortable to use and easier to grip.

Blades are manufactured from proprietary DEXSTEEL™ stain-free, high-carbon steel, and are individually ground and honed.

Superior blade shape for easier slicing

Hand honed to the ultimate edge

NSF certified to meet health code standards

Protective finger guard

Comfortable, non-slip grip provides maximum comfort, safety, and control

Unique edge geometry for long lasting, easily restored performance

Proprietary DEXSTEEL™ high-carbon, high-alloy stainless steel for enhanced sharpness, edge holding, corrosion resistance, and ease of re-sharpening

Moldable handle creates a custom grip that matches the contours of the user's hand

High-visibility orange for easy identification

**CREATE
UR
Custom
Grip**

1. Remove your knife from the package.
2. Use oven mitt or pliers to hold the blade. Dip the handle in boiling water to just cover the handle without the knife touching the sides or bottom of the pot.
3. Hold it in the water for 2 minutes.
4. Remove from the water and dip in cold water for one second, then grip handle as you would if using and squeeze.
5. Dip the handle in cold water for 10 seconds to maintain shape. Let cool before using.

MAKE IT PERSONAL
Caring for UR-Cut®
Hand-wash, rinse, and dry after use. Do not put in dishwasher.

Dexter 360™

Dexter 360™ series knives are manufactured in Massachusetts with American-made steel and over 200 years of know-how.

Dexter hollow-ground blades are extremely sharp and easily re-sharpened.

Superior blade shape for easy slicing

Hand honed to the ultimate edge

NSF certified to meet health code standards

Protective finger guard

Color coded to facilitate participation in food safety programs

American stain-free, high-carbon steel for enhanced sharpness, superior edge holding, and corrosion resistance

Hollow ground blade for super-sharp, easily restored edges

Impervious seal of blade to handle for utmost sanitation and durability

Ergonomically shaped handle is a combination of durable polypropylene and slip-resistant Santoprene®

Knives with colored handles help facilitate compliance with food safety programs. Dexter 360™ series knives offer 6 different colors that allow the user to assign a knife to a particular person, operation, or food group, helping to reduce risk and reinforce prevention.

Suggested Color Use:

General

Fish

Fruits/
Vegetables

Allergen
Free

Raw
Meat

Poultry

Traditional™

For those who prefer the warmth and feel of a real wood handle.

Features either proprietary DEXSTEEL™ stain-free, high-carbon steel or classic high-carbon steel blade, with an individually ground and honed edge.

Natural rosewood handle is secured to the blade with brass compression rivets.

Boning Knives, Rosewood handles

01350 S13G6NR-PCP 6" narrow boning knife

Blades made with carbon steel require extra care. Keep blades clean and dry. Blades may darken with age and use, thus creating a protective patina. If blade rusts, simply remove with abrasive cleanser or steel wool. Clean, dry, and oil for long storage.

01880 1376PCP 6" wide boning knife, beech handle

01930 1376R 6" wide boning knife

02010 1376HB 6" ham boning knife, beech handle

02100 1376NR 6" narrow boning knife

02150 1378PCP 8" wide boning knife, beech handle

As important as quality materials and proper heat treatment of the steel, proper edge geometry is key to the manufacture of professional quality cutlery. Precision grinding creates the proper edge profile for the task at hand with accuracy and consistency. Hallmarks of a precision ground blade are extreme sharpness, long edge life, and ease of re-sharpening.

Bread Knives, Rosewood handles

13200 S62-8RSC-PCP 8" scalloped bread knife

13390 S63-9SC-PCP 9" scalloped offset sandwich knife

18160 S47G10PCP 10" scalloped bread knife

Knives with scalloped blades feature many curved edges protected by sharp points that help to break through bread's hard crust. As these points break through, the curved edge slices the soft interior without damaging it. Features like offset handles or curved blades allow the user to cut completely through a loaf of bread without contacting the cutting board.

Suffix PCP denotes that item is packed in hanging retail package

Dexter baker's spatulas are precision ground to be flexible so product can be scraped out of mixing bowls, or frosting can be spread over a delicate cake. A lot of thought goes into the precise flex points so that, when flexed, spatulas conform to the shape of a mixing bowl so frosting can be quickly and efficiently removed. And because they are professionally heat treated, they return from flex to straight, every time.

Dexter Cool Blue™ turners withstand temperatures up to 500°F and are a NSF certified option for working on the grill. When polypropylene won't stand up to the heat, and wood handles aren't an option, Go Blue...Cool Blue™

Suffix PCP denotes that item is packed in hanging retail package

Turners & Servers, Rosewood handles

(continued)

Blades made with carbon steel require extra care. Keep blades clean and dry. Blades may darken with age and use, thus creating a protective patina. If blade rusts simply remove with abrasive cleanser or steel wool. Clean, dry, and oil for long storage.

Rely on the experts in edges for all of your sharpening needs.

For quick edge touch-ups and restoring factory sharp edges, Dexter gives you the solution.

Each sharpening solution is designed to give you the edge you need to excel in today's demanding and fast paced food service industry.

Sharpening Systems

Ceramic Rods

- 3 ceramic rods of varying coarseness for dull or worn edges, partially dull edges, and quick touch ups
- Requires no oil or water when sharpening
- Rods can be rotated for new clean surfaces and cleaned with soap or detergent
- Can be positioned vertically or horizontally
- Rods measure 12" x 1"

07080 3-WAY 3 rod ceramic sharpener

Brown 507409 – 120 grit
Blue 507419 – 150 grit
White 507429 – 200 grit

Manual Sharpener

- Combination of 3 different stones
 - 100 grit Crystolon® stone for restoring worn edges
 - 150 grit Crystolon® stone for re-establishing sharp edges
 - 320 grit India stone hones to a fine cutting edge
- 12" stone length permits long strokes for optimal sharpening
- Heavy duty base with non-skid bottom
- Pint of lubricating oil included

07946 EDGE-15 tri-stone sharpening system

Replacement stones:
100 grit – 07954
150 grit – 07953
320 grit – 07952

Electric Sharpeners

- Precision guidance system to maintain perfect edge angle
- Stainless steel housing
- Replaceable grinding wheel assembly
- Sharpens plain edge and scalloped edge knives
- Made in USA

Removable ABS edge guide for easy cleaning

07931 EDGE-21

electric edge sharpener by Edlund Co.

Crystolon®/India Benchstone

- 150 grit Crystolon stone manufactured with silicon carbide abrasives provides quick sharpening
- 320 grit India stone manufactured with aluminum oxide abrasives creates fine, smooth cutting edges
- Durable, non-slip case creates sharpening station, protects stone, and provides reservoir to keep stone from drying out
- Stone measures 11½" x 2½" x 1"

07945 EDGE-14

11½" Crystolon/India benchstone

Waterstone

- Softer grade of stone allows it to be used with water as the lubricant versus oil
- Combination grits create sharpening efficiency
- 1000 grit for quick sharpening
- 4000 grit for super-sharp, polished edge
- Durable, non-slip case creates sharpening station, protects stone, and provides reservoir to keep stone from drying out
- Stone measures 8" x 3" x 1"

07944 EDGE-13

8" waterstone

Hand-Held Sharpeners

For those who require a quick edge touch-up, Dexter hand-held sharpeners put a razor sharp edge on your knives in just a few strokes. Choose from Tungsten Carbide cutting heads or the combination of Diamond and Ceramic wheels for quick and effortless sharpening.

- Tungsten Carbide cutting heads for precision sharpening
- Just 3 or 4 strokes and it's sharp!
- Protective handle grip for either left or right-handed sharpening

07920 EDGE-1

EZ edge hand-held edge sharpener

- Dark diamond stones sharpen and hone creating a new edge
- White ceramic stones polish the edge to ultimate sharpness
- Safe and easy to use

07921 EDGE-2

2-stage hand-held edge sharpener

Butcher Steels

Dexter knives are shipped from the factory with a super-sharp, feather edge. With continuous use, this feather edge rolls over and the edge appears dull. A few simple strokes on a Dexter butcher steel will realign and restore a sharp edge.

30401 30401 10" butcher steel

Sharpeners

With continued use, every edge will need to be re-sharpened. This can be accomplished by using a Dexter edge sharpener which actually removes steel from the blade and restores the super-sharp, feather edge.

OUR STORY:

Dexter-Russell, Inc. is the largest manufacturer of professional cutlery in the world. We are the proud successor to the two oldest American cutlery manufacturers: The Harrington Cutlery Company and the John Russell Cutlery Company. Throughout our long and rich history, we have maintained a tradition of excellence in both materials and workmanship.

Today, we continue to provide our customers with **The Dexter Edge**: Professional cutlery designed, built, and tested to be people friendly and kitchen tough. We have listened to our customers and have determined to excel at what is most important to them; **Knives sharp right out of the box, and edges that are long-lasting and easily restored.** Our spatulas, servers, and turners are precision-ground for just-right flexibility. The complete array of Dexter professional cutlery, tools, and accessories provides consistent, time-tested performance in the kitchen.

Well into the future Dexter-Russell will continue to be a leader in the foodservice industry through continuous improvement, investment in the latest technologies, innovative marketing, and a reliance on 2 centuries of experience. Add it all up and you get **The Dexter Edge, the right knife and solution . . . since 1818.**

The look...**brand focused.**
The quality...**legendary.**
The package...**green.**
