# Disposable Cleaning Towels That Perform Like Cloth

Think about the hassle and expense of the laundered cloth towels you rely on for cleaning ... piles of them awaiting pickup, harboring bacteria and often creating unsanitary conditions and foul smells. Dixie™ Disposable Foodservice Towels provide an efficient alternative—with selections that can stand up to any challenge, front or back of house. So, say hello to disposable towels and so long forever to your linen service.

## DIXIE™ DISPOSABLE FOODSERVICE TOWELS

### A SMART SWITCH: From Laundered Towels to Disposables

With rental towels, you pay for laundering, replacement and delivery ... again and again. Disposable towels eliminate these costs. And you'll instantly notice how reliably Dixie™ Foodservice Towels perform.

**HIGHLY ABSORBENT**

**MULTI-PURPOSE PERFORMANCE**

**DISPOSABLE ADVANTAGE**

**SUSTAINABLE\***

**DURABLE AND REUSABLE**

#### FLAX:

Chef Towel + General Cleaning

#### HEF:

Food Prep + Bussing

#### RAYON:

Light-Duty Bussing

#### AIRLAID:

Bussing

\*Flax Disposable Foodservice Towels made from 100% plant-based material. Product is compostable in commercial compost facilities. Such facilities may not exist in your area. BPI® is a trademark of the Biodegradable Products Institute.

# Stepping Away from the Dirty-Water Open Bucket

To avoid exposing patrons to unsanitary conditions, operators are moving away from the open-bucket method of “sanitizing”—and with good reason. Sanitizing solutions can be easily contaminated and cloth towels can lose proper sanitizing strength within 30 minutes\*. Enter the Dixie Ultra™ Surface System, a closed dispenser system with quat-compatible disposable wipes. Welcome to a new era of surface sanitizing.

Measuring Cup

Disposable Wipes

Dispenser

Trash Attachment (optional)

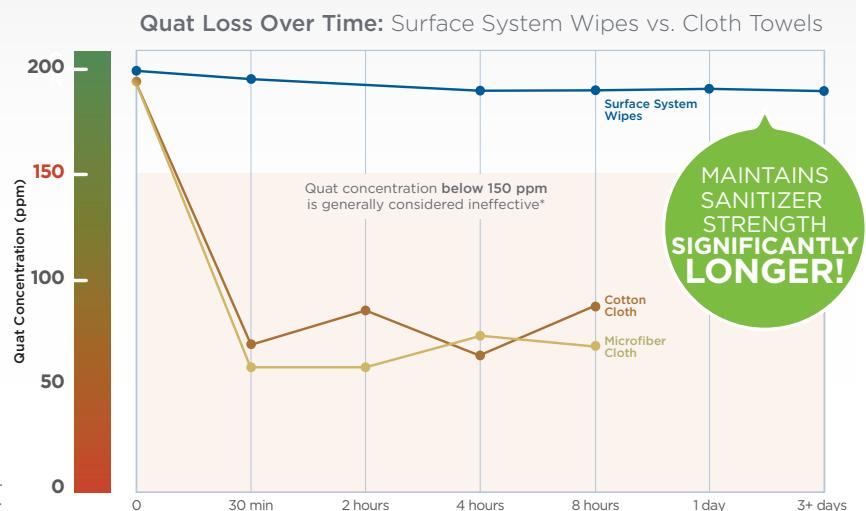

**COMPATIBLE WITH:** Quaternary ammonium compounds (Quat), peroxide, peroxide with peracetic acid, isopropyl alcohol (70% solution), bleach, and phenolic.

## DIXIE ULTRA™ SURFACE SYSTEM

### THE SURFACE SYSTEM DIFFERENCE: Wipes vs. Cloth Towels

Quat-compatible Dixie Ultra™ Surface System wipes maintain proper sanitizer concentrations **significantly longer** than cotton and microfiber towels. So, you can sanitize longer without changing solution. Also, the closed system is designed to avoid reintroducing dirty wipes back into the dispenser solution.

-   
**SANTITARY, CLOSED SYSTEM DISPENSER**
-   
**MAINTAINS QUAT-SANITIZER CONCENTRATION**
-   
**PORTABLE & SAFE FOR INTENDED USE**
-   
**SANITIZER COMPATIBLE**
-   
**A REFLECTION OF YOUR OPERATION**

\*Cotton and microfiber cloths were tested as one cloth per one gallon of sanitizer. Dixie Ultra™ Surface System was tested as one roll per one half gallon of sanitizer. Refer to your sanitizer manufacturer's instructions for proper concentrations.
