# Take Control of Your Cutlery

Experience the power of the SmartStock® Tri-Tower Cutlery Station to help your operation reduce cutlery usage, enhance hygiene, streamline employee tasks, and maximize counter space. Isn't it time to take control of your cutlery and improve operations?

Universal chambers let operators configure the dispenser with any combination of Series-T utensils.

## Why SmartStock® Tri-Tower is Good for Business

### Hygienic, Automatic Dispensing

Touchless dispensing means no buttons or levers to push, so patrons touch only the utensils they need. Cutlery is dispensed one at a time, which can help reduce cutlery usage by 31% on average.<sup>1</sup>

### High-Capacity Efficiency

Dispensers hold up to 390 utensils, so restocking is less frequent. And three universal cutlery chambers allow the flexibility to offer any combination of utensils.

### Convenient 3-in-1 Station

Patrons get all their cutlery at one efficient station, and replaceable “cutlery badges” above each dispenser opening indicate exactly which utensil they’re selecting.

### Easy and Intuitive for Employees

Dispensers are fully enclosed to promote hygiene. Pre-loaded, dispenser-ready cutlery skewers help reduce loading time, and color display indicators show employees when refills are needed.

### Reliable Technology, Small Footprint

Operators trust Tri-Tower for consistent performance and ease of use. These dispensers require very little counter space and can also be mounted on the wall.

### Customizable Inserts

Dispenser inserts are available to add colorful design and messaging to the exterior. Or, you can order customized inserts with your own messaging and/or branding.

## Tri-Tower Dispenser + Series-T Cutlery Refill Selections

MFR #	Dixie Ultra® SmartStock® Product	Substrate	Series	Color	Quantity
<b>Cutlery Dispenser</b>
