Meet Our SmartStock® Classic and Mini Cutlery Dispensers

SmartStock® Cutlery Systems deliver the ultimate guest experience with a hygienic closed-system design and efficient one-at-a-time dispensing. And dispensers are engineered to help ensure maintenance is time saving, infrequent and easy.

29%
One-at-a-time dispensing reduces cutlery usage on average by 29%¹

SmartStock® Classic Cutlery Dispenser

Holding up to 120 utensils, this dispenser is space efficient and easy to maintain.
Color: translucent black.

SmartStock® Mini Cutlery Dispenser

Holds up to 80 utensils, fits under standard-height cabinets, and is perfect for small spaces.
Color: translucent black.

HYGIENIC CLOSED SYSTEM DESIGN

Helps protect cutlery from contamination, and patrons only touch the cutlery they use.

HELPS REDUCE CUTLERY USAGE

One-at-a-time dispensing reduces cutlery usage on average by 29%.¹ That's less consumption and waste than open cutlery bins.

EASY TO REFILL AND MAINTAIN

Pre-counted utensil refills can cut loading time by 50%.² And inventory management is easy with densely compacted refill stacks.

SUSTAINABLE CUTLERY SELECTIONS

Compostable cutlery³ contains up to 96% renewable content; Bio-Blend contains up to 30%.⁴ Can save over 1 lb. of plastic per case vs. individually wrapped cutlery.⁵

¹Compared to open cutlery bins. GP PRO Proprietary Research: CUT-05-01. ²Independent research commissioned by Georgia-Pacific on the SmartStock® Classic Dispenser. ³Product is compostable in commercial composting facilities. Such facilities may not exist in your area. ⁴Renewable material may include starch and/or PLA that come from plants and other naturally renewable materials. ⁵Based on complete wrapped Dixie® cutlery.

Dispenser Accessories

Maximize space and increase convenience with accessories for Dixie Ultra® SmartStock® dispensers. The SmartStock carousel saves counter space and makes it easier for patrons to get the utensils they need. One at a time, of course.

SSSTRAW (straws sold separately)
