<b>Why Fabri-Kal?</b>	22
-----------------------	----

<b>Temperature Guidelines</b>	23
-------------------------------	----

# Built on more than 60 years of product packaging excellence.

Fabri-Kal was founded in Kalamazoo, Michigan, in 1950 when seven shareholders and nine employees set up shop in 5,000 square feet of a former A&P grocery store. Today, Fabri-Kal is one of North America's largest thermoformers, with more than 1,000 dedicated employees. Fabri-Kal is headquartered in Kalamazoo, Michigan, with manufacturing facilities across the United States.

We are proud to be a family-owned company driven by our mission to act responsibly. We are a member of the Sustainable Packaging Coalition (SPC) and, in line with that commitment, our Kalamazoo, Michigan, plant earned LEED® Silver certification in 2010. We are a leader in green packaging and the use of plant-based materials and post-consumer recycled (PCR) resins.

Our dedication to delivering the best product quality and customer service is unparalleled. From engineering to marketing, Fabri-Kal is home to industry-leading packaging talent, all sharing a passion to be the best by doing the best for our customers.

All Fabri-Kal products are proudly made in the U.S.A.

# Kal-Clear® PET Cups

This premium cup offering has durable sidewalls and complete clarity for enhanced product presentation. Smooth rolled rims allow for leak resistant lid fit. Pair Kal-Clear Cups with cup inserts and lids to create a variety of on-the-go options. Recyclable in the communities that accept PET cups. See page eight for lid and insert options.

# Greenware® Cold Cups

Greenware Cups are made from annually-renewable plants, not petroleum. It's a difference that matters to consumers. Sturdy, crystal-clear cups are made from Ingeo™ biopolymer (PLA), a resin derived from plants. BPI certified to be commercially compostable.\*

## Greenware<sup>®</sup> Portion Cups and Lids

Greenware Portion Cups are made from annually-renewable plants, not petroleum. It's a difference that matters to consumers. Crystal-clear Greenware Portion Cups are made from Ingeo™ biopolymer (PLA), a resin derived from plants. Smooth-rolled rims allow for secure lid fits, reducing the risk of spills. BPI certified to be commercially compostable.\*

## Greenware® On-the-Go Boxes

Greenware On-The-Go Boxes are made from annually-renewable plants, not petroleum. Sturdy, crystal-clear boxes are made from Ingeo™ biopolymer (PLA), a resin derived from plants. These compact, versatile containers are available in a variety of styles with two lid options, making grab-and-go food combinations easy to create and sell. BPI certified to be commercially compostable.\*

\* Compostable in actively managed municipal or industrial facilities, which may not be available in your area. Not suitable for backyard composting.

## TruWare™ Deli Containers

These attractive, square containers are made from 50% post-consumer recycled PET plastic bottles for reduced environmental impact. Enhance product presentation and shelf appeal with our crystal-clear, durable containers. Two interchangeable lids prevent spills and make for easy post-sale lid reapplication. Recyclable in the communities that accept PET containers.

# Why Fabri-Kal?

## Expertise.

We are experienced thinkers and problem-solvers who have been dedicated to finding the best product packaging solutions for more than 60 years.

---

## Collaboration.

We listen to our customers, uncovering more ideas to find your best stock or custom packaging solution.

---

## Responsibility.

We're guided by our family history and mission to act responsibly. We're committed to providing products that are sustainable and traceable. Our Michigan-based plant received LEED® Silver certification in 2010, and we are a leader in sustainable packaging—using plant-based materials and post-consumer recycled (PCR) resins.

---

## Innovation.

We'll analyze, explore, create—and enjoy the process—as we bring your innovative packaging solution to life. Our materials experts will introduce options you may not have considered, including a wide range of resins to ensure the best use of material for your packaging application.

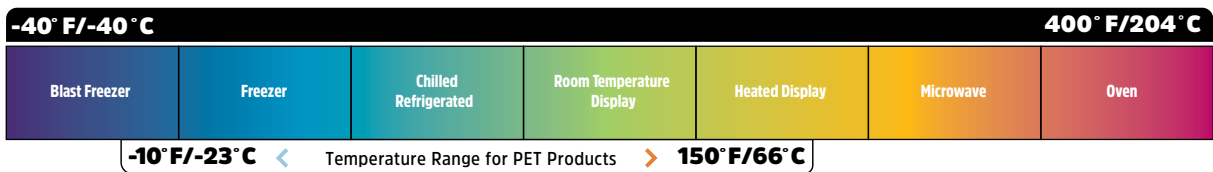

# Temperature Guidelines

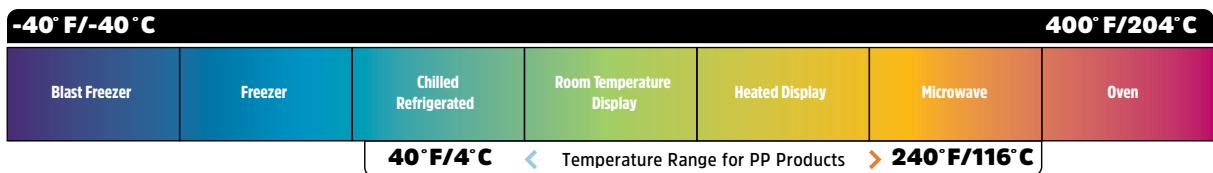

## For All Fabri-Kal Products

To ensure proper usage of Fabri-Kal products, we have provided these tested and previously published guidelines. These guidelines are recommended for most applications. They are, however, not a substitute for product testing and can be affected by differing recipes, ingredients, processes and supply chains. You are ultimately responsible for the confirmation of product acceptability based on your specific conditions.
