METROPOLITAN

Contemporary drinkware with angular bowls and finely drawn stems. Inspired by the sociability of cosmopolitan culture and urban living. Nearly invisible bowls create an incredibly pure wine experience, highlighting even the most subtle notes while cocktails highlight the full spectrum of flavors locked away in your craft recipes.

GIO Creating "simple" is one of the toughest design challenges and yet when done correctly, creates a glass that is both modern and classic, able to blend in or stand out as needed and Gio achieves this beautifully. Incredibly light and shockingly thin, Gio removes as much as possible between guests and their drinks so that the flavors truly stand out.

CAMEO

The Cameo and Pearls collections are part of our close-up ready collections, popular throughout the world for not only their distinct style, but also for making stars out of the bars and restaurants that use them. Both collections highlight the beautiful craft creations within and create an experience for your guests before they take their first sip.

GLASSWARE CARE

Storing:

- Do not put cutlery into glasses.
- Do not stack glasses that have not been designed to stack.

Using:

- Do not pick up glasses in clusters.
- Be careful to avoid contact with the beer tap.
- Do not put cold liquids into hot or warm glasses straight from the dishwasher as this can cause cracks. Pre-heat glasses for hot drinks by running them under the hot tap.

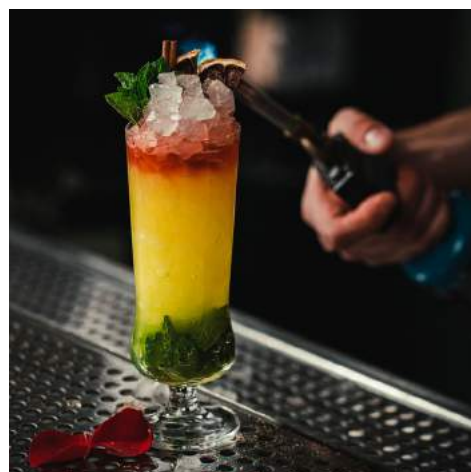

Washing:

These products are specially designed to withstand the rigors of the Foodservice and Hospitality Industry, including automatic glasswashers found widely in most businesses. To ensure the quality level of the product, it is important to take note of the following:

- Always wash new glasses before use.
- Always use a non-caustic detergent as caustic detergents affect head retention, etch the glass, and give the glass a shadowy tinge. Water on the premises should be stored at 140°F. If water is stored at a higher temperature e.g. 185°F, even when this is reduced because of traveling to the machine, it could still be high enough to bake debris onto the glass. Coffee cups should never be washed in a glass washing machine as coffee dregs can taint the water and stain the glasses, this also applies to drinks that contain cream.
- If cracks or chips are found in glasses, they should be discarded immediately and never put in the dishwasher.

Hand-Wash Only:

As these glasses are crafted with highly specialized pigments or artisan touches, glassware with this label may chip or color may strip when exposed to the high temperatures of a conventional dishwasher.
