About Inno-Pak	55

AT INNO-PAK, WE THINK DIFFERENTLY.

Where many great companies began in a garage or workshop, our CEO created Inno-Pak at a folding table in his basement. While other companies think outside the box, we reinvented the box to be more sustainable and customer friendly.

Our way of thinking differently about the needs and challenges of the industries we serve is the source of our innovative spirit. It's how we're able to provide you with the most innovative products and the best customer service whether that's tamper-evident packaging, sustainable solutions for your business, or cost-neutral innovations that enhance customers' experience with your food.

Inside this catalog, you will find products that will help you meet your business's needs, and if you don't find a solution that works for you, call us.

WE LOVE A CHALLENGE.

We also do it for the challenge. When other companies say it can't be done, we accept the challenge. We will design and manufacture a custom solution that addresses your graphic or structural needs without sacrificing cost effectiveness, and we'll work with you through every step of the process to help you bring your solution to life.
