68 oz. - 1 Piece

Contemporary drinkware with angular bowls and finely drawn stems. Inspired by the sociability of cosmopolitan culture and urban living. Nearly invisible bowls create an incredibly pure wine experience, highlighting even the most subtle notes while cocktails highlight the full spectrum of flavors locked away in your craft recipes.

ECO CRYSTAL

COMMITMENT TO SUSTAINABILITY

For 2022 we are introducing even more innovative shapes and collections to the next generation of ultra-clear crystal. Eco Crystal is brought to life by all electric furnaces using 100% renewable resources and is crafted to have unrivaled clarity that has been certified through strict testing by the International Standards Organization (ISO), it is 100% recyclable, and is produced in Europe's first CO₂ negative region.

It is produced using:

- Solar energy using over 75,000 ft² of solar panels on reclaimed and repurposed factory roof
- Biomass Fuel
- Geothermal Energy
- Environmentally safe raw materials quality controlled to the highest standards.

For more information, please visit:
www.hospitalitybrandsusa.com/sustainability

ECO CRYSTAL
FROM HOSPITALITY BRANDS

TIMELESS

Beautifully cut lines ring an assertive crystal shape, lending an air of confidence to any serve.

Designed in Italy with inspiration from the eternal city, it's stems and tumblers seamlessly fit into any presentation with design language that is truly timeless.

LUX STACK

Grooves cut into the base of each piece add both visual appeal and value as water drains from the channels for less scale build up. That means less time cleaning and more time serving your guests their favorites.

Lux Stack enlarged to show detail.

GIO

Creating “simple” is one of the toughest design challenges and yet when done correctly, creates a glass that is both modern and classic, able to blend in or stand out as needed and Gio achieves this beautifully. Incredibly light and shockingly thin, Gio removes as much as possible between guests and their drinks so that the flavors truly stand out.

CAMEO

The Cameo and Pearls collections are part of our close-up ready collections, popular throughout the world for not only their distinct style, but also for making stars out of the bars and restaurants that use them. Both collections highlight the beautiful craft creations within and create an experience for your guests before they take their first sip.

A vintage beer dispensing machine, possibly a Schlitz, is shown in a dark setting. The machine is black with a prominent silver-colored top section that reads "AUTOMATIC MASTER-SEALER". A glass of golden beer with a thick head of foam is being dispensed from the machine. The word "REVOLUTION" is overlaid in large, white, serif capital letters across the center of the image.

REVOLUTION

REVOLUTION

The Revolution collection was meticulously designed with every angle and curve a pointed design choice to ensure each ingredient in the beer is a melody for you to enjoy. The “hips” of the glass are built to be both comfortable and easy to use while the unique shape limits heat transfer from the hand to glass. The bowl is engineered to both be stackable without sticking and is designed to assist in the accumulation and release of the key attributes of the hops. It’s beautifully shaped headspace created by the flared rim allows the composition of subtle notes and aromas to play a symphony of flavor. Pair a breakthrough robust heavy sham and fully tempered glass throughout the body for the full range and all that adds up to the next revolution is craft beer.

REVOLUTION TASTER PADDLE
HG-BFW07-006

H: .75" L: 15.75" W: 3.75" 6 pcs.

STACKABLE

Made specifically to be able to stack without sticking, cracking, or breaking under normal use. Perfect to save space and for easier clean up and transport from the table.

FULLY TEMPERED

Glassware that is much more resistant to thermal or mechanical shock

QUICK OVERVIEW

Fully Tempered Stronger than regular glass.

Robust Heavy Sham Thick, bold bottom reduces heat transfer from surfaces.

Narrow Hips Ergonomically designed hips are comfortable for all hand sizes and keeps drinks colder for longer.

Stackable Stacks without sticking so it's easy to store and cleanup is a breeze.

Wide Bowl Accumulates and releases aromas, unlocking key aspects of hops and flavor.

Flared Rim Directs the aromas to intensify the full flavor profile.

Fully Tempered ● Stackable ●

REVOLUTION GRAND

The Revolution collection was designed with the consumer in mind to pour a fantastic glass of beer. The “hips” of the glass are for easy holding and the uniquely designed glassware limits heat transfer from the hand to glass while the bowl is designed to assist in the accumulation and release of the attributes of the hops. A flared rim directs the beer in a way to better accentuate the attributes of your beverage and provides a refreshing and enlivening taste.

STACK

Staples of any bar, our Nonic, Beck Stack, and Tulip Stack collections further improves the practicality of the stacking glassware by adding the robust toughness of fully tempered glass. Tempering reduces the chance of nicks and cracks on the rim and shape presents the perfect shelf to reduce the chance of slipping from guests' hands, ultimately reducing your re-ordering costs.

GLASSWARE CARE ADVICE

Storing:

- Do not put cutlery into glasses.
- Do not stack glasses that have not been designed to stack.

Using:

- Do not pick up glasses in clusters.
- Be careful to avoid contact with the beer tap.
- Do not put cold liquids into hot or warm glasses straight from the dishwasher as this can cause cracks. Pre-heat glasses for hot drinks by running them under the hot tap.

Washing:

These products are specially designed to withstand the rigours of the Foodservice and Hospitality Industry, including automatic glasswashers found widely in most businesses. To ensure the quality level of the product, it is important to take note of the following:

- Always wash new glasses before use.
- Always use a non-caustic detergent as caustic detergents affect head retention, etch the glass, and give the glass a shadowy tinge. Water on the premises should be stored at 140°F. If water is stored at a higher temperature e.g. 185°F, even when this is reduced because of travelling to the machine, it could still be high enough to bake debris onto the glass. Coffee cups should never be washed in a glass washing machine as coffee dregs can taint the water and stain the glasses, this also applies to drinks that contain cream.
- If cracks or chips are found in glasses, they should be discarded immediately and never put in the dishwasher.

Hand-Wash Only:

As these glasses are crafted with highly specialized pigments or artisan touches, glassware with this label may chip or color may strip when exposed to the high temperatures of a conventional dishwasher.
