

Institutional Can Liners

Inteplast is an innovator in the can liner industry. Our commitment to superior service and our ability to supply high-quality can liners makes us a continued success.

Institutional Can Liners

Features & Benefits

- Use prime resins for superior quality
- Effortless bag dispensing from the compact coreless interleaved rolls
- Source reducing product to promote environmental sensitivity
- Star Seal bottom allows even weight distribution and easy removal from receptacle
- Comprehensive offerings for all applications including business, industry, and healthcare

High Density Liners (HDPE)

High density can liners are widely accepted in the market as an economy option. Among some of their features and benefits are that they possess an excellent odor and moisture barrier, plus very high dart impact and tensile strength.

- Material saving = Excellent
- Puncture Resistance = Great
- Tear Resistance = Good
- Load Capacity = Good

Linear Low Density Liners (LLDPE)

Linear low liners are highly puncture and tear resistant. These properties make them the best choice for applications where additional strength and stretch are required. They work well for waste with sharp or jagged edges.

- Material saving = Moderate
- Puncture Resistance = Good
- Tear Resistance = Great
- Load Capacity = Good

Fuerte Liners

Draw Tape Can Liners

Features & Benefits

- No need to knot liner – the bag will fit the container perfectly
- Interleaved for easy one-at-a-time dispensing
- Side-welded to prevent leakage with no seal on the bottom
- Co-extruded for added strength
- Space saver packaging reduces freight costs and allows for easy dispensing directly from the carton

01.

Fill receptacle to the top.

02.

Pull the draw tape.

03.

Secure the draw tape to close.

04.

Easily lift and carry from the strong draw tape handle.

Draw-Tuff® Can Liners
