

# HOSPITAL ISOLATION BAGS

**NOW ON  
CORELESS ROLLS!**

Pitt Plastics offers color coded, printed bags for Infectious Waste, Infectious Linen and Non-contagious Linen management. Our printed Stock Isolation Bags are imprinted with English and Spanish to help ensure complete understanding for safety and proper use.

Complete sanitary management is available in both Linear Low and High Density from Pitt Plastics. They are available in a full range of sizes and strengths as well as featuring the multi-layered star seal.

Our Linear Low Isolation bags start with top quality resins and are carefully constructed to provide greater film strength. This added film strength yields a bag with superior puncture and tear resistance.

The High Density Isolation bags are environmentally responsible as well as cost efficient. The unique blend of first grade high molecular weight High Density Polyethylene and LLDPE resins reduces the tendency in most high density can liners for tears or punctures to "zipper".

Red Bags: Infectious Waste

Yellow Bags: Infectious Linen

**Blue Non-contagious Linen bags are unprinted**

- Maximum film strength for tough applications
- Puncture and tear resistant
- Leak-resistant star seal
- Ideal for hospitals, doctors' offices, dental clinics and nursing homes
- Bi-Lingual imprint in English & Spanish with the Universal Biohazard symbol
- Designed for Infectious Waste, Infectious Linen and Non-contagious Linen management
- NOW AVAILABLE ON CORELESS ROLLS
