

**NEW**

## PURELL® Professional Surface Disinfecting Wipes

WORKING HARD TO KEEP GERMS AND HARSH CHEMICALS OUT OF THE WORKPLACE

**Powerful Efficacy** – Kills 99.9% of viruses and bacteria – including cold and flu, strep, norovirus, *Listeria*, MRSA, VRE, and human coronavirus.\*

**Worry-Free Disinfection** – Many surface wipes use harsh chemicals. But PURELL Professional Surface Disinfecting Wipes are best-in-category for safety. There's no need for rinsing, gloves, or handwashing after use.

**Superior Performance** – The durable, one-step disinfectant and cleaner is safe to use across a wide range of surfaces – from door handles to desks, coffee pots to cafeteria tables.

Show a commitment to well-being with the brand people know and trust

### PURELL® Professional Surface Disinfecting Wipes Advantages:

- Safe for common workplace surfaces
- No bleach, harsh fumes, or handwashing after use
- No toxic chemical residue
- Durable, one-step disinfectant and cleaning formulation
- Meets OSHA requirements for blood-borne pathogens

### Use PURELL® Surface Disinfecting Wipes as part of The PURELL SOLUTION™

PURELL Surface Disinfecting Wipes are the perfect addition to The PURELL SOLUTION, a holistic set of products designed to fight germs on hands and surfaces. PURELL Surface Wipes are best for the frequent disinfection of hard surfaces or where quick turnaround is needed. Use alongside PURELL® Surface Disinfectant Spray, ideal for daily disinfection of hard or soft surfaces where broader coverage is needed.

The PURELL Brand is built upon high standards of performance to provide the most effective solutions for offices and professional facilities.

\*Coronavirus Disease 2019 (COVID-19) is caused by SARS-CoV-2. PURELL® Surface Disinfecting and Sanitizing Wipes have demonstrated effectiveness against viruses similar to SARS-CoV-2 on hard, nonporous surfaces. Therefore, PURELL Surface Disinfecting and Sanitizing Wipes can be used against SARS-CoV-2 when used in accordance with the directions for use against Feline Calicivirus (Norovirus) (5-min) on hard, nonporous surfaces. Refer to the CDC website at <https://www.cdc.gov/coronavirus/index.html> for additional information.
