

RECYCLING, UTILITY AND DECORATIVE WASTE | CLEANING | SAFETY  
SKIN CARE | WASHROOM | FOODSERVICE | MATERIAL HANDLING

## Waste Management

A large range of items to cover the waste management needs from the simplest waste bin to the most elaborate recycling system.

## Cleaning

A full range of cleaning systems and small accessories offer you versatile equipment solutions to manage cleaning operations in all type of facilities.

## Safety

An extended range of Floor Signs, Cones and Barricades to emphasize site safety, avoid slips and falls and secure areas in hazardous environments.

## Skin care

Experience a new level of hygiene. Superior luxury liquid, foam and spray soaps are environmentally responsible with ingenious dispensers that ensure best cost-in-use.

## Washroom solutions

Improve any washroom's image with Innovative dispensing platforms that deliver highly effective and cost-efficient odour control and cleanliness. World leading fragrances enhance the washroom experience.

## Food Service

Rubbermaid Commercial Products' proven experience in Food Service equipment enables us to offer products to manage your Food Service business in accordance with HACCP guidelines.

## Material Handling

Light and heavy duty transport Trolleys, Carts and Trucks will help you move material around faster and easily, saving time and avoiding painful back strain.

## Product Specification Table

Ref	Colour Code	Description	Material	Dimensions	Capacity	Colour	Pack
FG352600	GRAY, WHT, YEL, RED	Square BRUTE® Container	Polyethylene	54.6 x 54.6 x 57.2 cm	106 l		6

Add the colour code to the product reference in order to have a complete product reference number (SKU). For example, the complete reference number for Square Brute Container in red is FG352600RED.

Ref	Colour Code	Description	Material	Dimensions	Colour	Pack
1855312		Double-Sided Folding Frame	Stainless steel/Plastic	41.3 x 21.6 x 2.4 cm		3

If the "Colour code" field is empty, this means that the "Ref" field corresponds to the complete product reference number (SKU). In this example, the complete reference number for Double-Sided Folding Frame is 1855312.

## Rubbermaid Commercial Products Colours

Errors & omissions excepted – to the best of our knowledge the information supplied in this catalogue is accurate.

# CERTIFICATIONS

## ISO 9001

ISO 9001 is an internationally recognised quality management system that provides:

- Guidance for businesses that want to implement or improve quality systems within their business;
- Benchmarks that customers can use to evaluate a supplier's quality system.

**ISO Certification of the Commercial Products Facilities perfectly embodies Rubbermaid® principles:**

- ISO certification represents a commitment to continuous value improvement.

Rather than look at particular products, ISO reviews the systems and procedures through which businesses assure quality products.

- ISO certification shows that a company has built a culture of quality.
- ISO certification demonstrates a commitment to world class quality systems and the global marketplace.

## ISO 14001

ISO 14001 is an internationally recognised Environmental management system that assists companies:

- in reducing their negative impact on the environment.
- in continually improving their environmental performance, whilst complying with any applicable legislation.
- in meeting their environmental and economic goals.

## CE

The CE marking (an acronym for the French "Conformite Europeenne") certifies that a product has met EU health, safety, and environmental requirements, which ensure consumer safety. Manufacturers in the European Union (EU) and abroad must meet CE marking requirements where applicable in order to market their products in Europe.

## CSFM

California State Fire Marshal. The state of California is regarded as having the most stringent fire codes of all the United States. Having the responsibility of preventing fire, the Californian Fire Service requires that all containers which are used in public areas to collect combustible materials (cigarettes) must pass an anti-fire test.

## BPA-FREE

This logo indicates that the product, which is intended for food contact, does not contain Bisphenol A (BPA).

## FDA

Food and Drug Administration does not approve products. The FDA sets regulations which require compliance.

## FM

Factory Mutual is an independent testing agency whose approvals are based on Standard 6921 Combustible Waste Containers. Standard 6921 contains performance criteria for containers with covers (lids) and their ability to withstand internal fires, maintain a certain range of stability, if dumped, and stay intact over a wide temperature range. Standard 6920 contains performance criteria for Oily Waste Containers.

## FOOD CONTACT

This logo guarantees compliance with the European Community regulation EC n°1935/2004 and EU Regulation 10/2011 that define standards for items that will be in contact with food. These standards relate to the production, materials and structure of the item, according to its use. Rubbermaid works closely with officially recognised European laboratories to comply with the highest standards in terms of "Food Contact".

## GREEN SEAL™

This product meets Green Seal Standard GS-41 based on effective performance and protective limits on VOC's and human environmental toxicity. GreenSeal.org

Better for the environment...

- Minimum impact on the aquatic ecosystem
  - Complies with the strict requirements of biological degradation
  - Limited packaging waste
- ... better for you.

## HACCP

HACCP defines critical control points and related processes to ensure basic hygiene requirements are met in professional kitchens. The intuitive use of products marked with this symbol guarantees that they comply with the HACCP-guidelines. Since the 1st of January 2006 the European Community Directives EC No 852/2004 and EC No 853/2004 have been prescribing the implementation of HACCP mandatory guidelines in the European Union territory.

## ISTA

International Safe Transit Association. The Compacted Mops were tested and certified via ISTA Test Procedures.

## LNE

The Laboratoire National d'Essais is an independent testing laboratory based in France. It lists products which meet their criteria for safety.

## NSF

National Sanitation Foundation is an independent testing lab/organisation in Ann Arbor, Michigan. NSF lists products which meet their criteria for cleanliness and sanitation: food contact, splash zone and non-food contact, as per Standard 2: Food Equipment and Standard 18: Manual Beverage Dispensers. Also, Standard 21: Thermoplastic Refuse Containers. To find Rubbermaid NSF certified products, please go to: [www.nsf.org/certified](http://www.nsf.org/certified)

## RUSSIAN

Since 1993 the Russian government has implemented the Russian Standard certification for most products entering the Russian territory. The aim is to guarantee people's health and security.

## TÜV

The TÜV certification officially certifies the compliance of the Rubbermaid Commercial Products with the European requirements.

## UL

Underwriters Laboratory. The UL classified baskets meet the criteria for UL Standard 242 which is a standard of performance for open top, non-metallic wastepaper containers. UL classified baskets are generally found in patient care rooms (hospitals/nursing homes).

United States Department of Agriculture Equipment Listing (Meat and Poultry and 3A Dairy Listing). Items that comply with USDA regulations via the design, construction and materials of a product.

UV stabiliser added for maximum life in outdoor settings.

Indicates products that contribute to Green Cleaning and Sustainability.

Assembly required.

Hands-free products that help reduce the risk of cross-contamination.

**Products and components are subject to change without notice, and may differ from catalogue imagery. Refer to "pack" size for exact carton contents.**

### Rubbermaid washroom guarantee

The Guarantee is against faulty workmanship and failure in operation when the products are used as directed. Guarantee is void should any claims be made on products that have been abused or vandalised, or if products have been used with non approved refills.

### RUBBERMAID MATTERS

Successful professionals have learned to trust Rubbermaid Commercial Products to deliver money-saving innovations, with best-in-class performance and quality. When you choose products carrying the Rubbermaid Commercial Products brand, you are choosing the best value for your money, and communicating that your business maintains the highest standards.

Rely on Rubbermaid:  
**INNOVATION  
QUALITY  
TRUST**

### Experience that matters...

From the rich and luxurious to the economical, Rubbermaid's complete line of skin care systems suits every need. Rubbermaid's innovative dispensers range from automatic through-the-counter systems and to manual wall-mounted styles. Superior hand washing and sanitising experience, lower cost-in-use, and environmentally responsible products mean Rubbermaid is your source for innovative hygiene solutions.

### A NEW CLEAN LOOK FAMILY FOR A COORDINATED LOOK IN YOUR WASHROOM

Rubbermaid Commercial Products is committed to helping facilities deliver a positive experience for washroom patrons and clean, coordinated dispensing systems is a key contributor to that experience.

Rubbermaid currently offers a premium range of matching dispensers for air, surface, and skin care. The look and the colour offering of the new Clean Look dispensers can be matched with either the premium systems or the newly launched FLEX skin care dispensers.

The industry leading programmability and overall operation of the dispensers will not change, but all Clean Look style dispensers will be available in white, black and chrome.

### SMARTER CLEANING

The new Rubbermaid HYGEN™ Clean Water System features a Filter Bucket and Wringer with built-in scrubbers to help loosen and remove debris from the mop. Twin rollers allow for optimised wringing efficiency, and an innovative filtering system processes dirty water into cleaner water with a simple tilt of the bucket.

# Sustainability Matters

## HOW CAN RUBBERMAID COMMERCIAL PRODUCTS SUPPORT YOUR SUSTAINABILITY GOALS?

By using Rubbermaid Commercial Products, you will realise our commitment to supporting your green initiatives through:

- Waste reduction through product durability and recyclability
- Recycling
- Green cleaning
- Packaging reduction

## OUR PRODUCTS

We incorporate sustainability principles in the way we design and produce our products—from our ground-breaking utilisation of recycled materials in plastic, metal, and textile products, and our long-standing refusal to purchase colorants containing heavy metals, to our industry-best quality and durability.

## OUR BUSINESS

Rubbermaid is committed to conducting our business in an ecologically responsible manner. This includes an active Energy Management System, whereby we measure our energy consumption, target reductions, and report our results, having recycling programmes in all of our facilities, and taking an industry leadership role in the use of recycled resins and metals—a vital link in the recycling chain.

## YOUR BUSINESS

Whether you distribute or utilise Rubbermaid Commercial Products, you will experience our commitment to supporting your green initiatives, recycling, green cleaning, water efficiency, waste reduction through product durability & recyclability and packaging reduction.

**Slim Jim® Containers to encourage waste separation and recycling (page 10)**

**Rubbermaid HYGEN™ Clean Water System is greener (page 54)**

**TCell™ Revolutionary air care system that creates an environment that is fresh all day, without added VOC's (page 110)**

**Better for the environment...**

- Minimum impact on the aquatic ecosystem
- Complies with the strict requirements of biological degradation
- Limited packaging waste

**...better for you.**

# Waste Management

## Why does recycling matter?

### Waste is a big problem.

Too much waste is still being sent to landfill sites or being incinerated, when the best solution to reduce our environmental impact is to recycle and compost as much of our waste as possible.

The EU has set strict objectives : By 2020 :

- Landfill will be banned for at least paper, glass, textiles, plastic and metal.
- Separate waste collection systems for these categories must be set up.

**Rubbermaid has the ideal solutions to help you set up a Recycling Programme.**

### Practical guide to set up your recycling programme:

#### 1. Analyse Needs

- What waste streams do you want to recycle?  
Possible examples:
  - paper
  - cardboard
  - general waste
  - plastic bottles
  - cans
  - milk and juice (Tetra Pak) cartons
- Identification of contractors who pick up recycling waste.

---

#### 2. Set Objectives

- Measure the volume of each individual waste type.
- Negotiate with your contractors who pick up recycling waste.
- Define if recycling will be a profit centre.
- Track volume trends.
- Track material trends.
- Measure these results against main objectives.

---

#### 3. Choose Products and Implement Recycling

- Choose appropriate recycling products.
- Identify key areas for recycling points and put up adequate signage.
- Contract with recycling contractors and define frequency.

---

#### 4. Training

**Success of recycling on site is based on:**

- Clearly communicating about your recycling programme.
- Putting intuitive stickers and posters up at recycling points.
- Creating awareness across the site, with awareness posters for encouragement.
- Training cleaners to ensure they are fully engaged in the recycling programme.

### Solutions to achieve recycling.

<b>Paper</b>					
<b>Bottles</b>

## Smarter Recycling.

Rubbermaid offers a wide range of products to help you actively manage and recycle your waste. This includes everything from desk-side containers for paper recycling to complete indoor and outdoor recycling stations and mobile collection equipment for handling larger loads with ease.

### Rubbermaid offers Sustainable Products.

Not only do our recycling solutions help you increase recycling rates and reduce waste to landfill, they are designed and manufactured as sustainable products themselves, helping to further reduce overall environmental impact.

#### Quality and Durability:

Longer lifespan products improve sustainability. Rubbermaid's products are designed and tested to be of the highest quality and durability. Lower replacement costs.

#### Recyclable:

Rubbermaid's sustainable plastic, aluminium and steel products are engineered with the environment in mind. When a product does finally reach the end of its useful life, it is recyclable.

#### Recycled Content:

Many of Rubbermaid's sustainable plastic, aluminium and steel products have a significant recycled content. This lessens environmental impact by reducing the demand for raw materials.

### Manufacturing, Sourcing and Packaging.

Rubbermaid Commercial Products have made a real and significant commitment to clean, sustainable manufacturing. We search the world over to find the best resources that will meet our stringent quality and environmental standards and continually strive to make our packaging more sustainable, using less material and a higher recycled and recyclable content.

**Products made with PCR close the recycling loop by incorporating recycled material into new products!**

### Environmentally Responsible Products.

- Post-Consumer Resin (PCR) content.  
Rubbermaid offers a full line of recycling products that contain post-consumer recycled resin. Metal products contain post-consumer recycled content too.
- Environmental Stewardship-environmentally conscious recycling products enhance facilities' sustainability.

### Did you know?

- Zero factory emissions on all Rubbermaid products made in U.S.A.
- 100% of our Nonconforming products after production checks are reground and reused.

## Slim Jim® Containers

The industry standard in space-saving waste management.

- Efficient size and shape designed to fit in tight spaces.
- Durable, all-plastic construction is easy to clean.
- Handled versions make lifting and carrying easier.
- Bottom hand-holds provide a secure grip during emptying.

87L

### VENTED CHANNELS

- Reduce the pull force required to lift out full bin liner by 60%.

### MOLDED HANDLE

- Make lifting and emptying easy

### BIN LINER CINCHES

- Four pull-through holes and bin liner cinches eliminate knot tying.

### BASE GRIP

- Offers better control during emptying.
- Moulded-in drag rim provides added durability.

# WASTE MANAGEMENT: Recycling

## MULTIPLE STREAM SORTING

- Use any combination of the restricted opening tops to sort up to four separate waste streams. Tops snap securely into lid.
- Commingle lid for mixed recyclables.

## FLEXIBLE LABELING

- Includes separate colour-coded symbol and word labels for customising the Recycling Station based on facility needs.

## PERMANENT HOT-STAMPED LOGO

## EASY TO EMPTY

- Centre hinge allows the lid to be opened from either side for easy access to waste. Eliminates the need to remove the lid during emptying and helps reduce worker strain and trip-and-fall hazards.

## Glutton® Recycling Stations

Support your facility's recycling programme, help reduce labour costs, and improve worker well-being.

- High-capacity, all-in-one centralised solutions for efficient waste sorting.
- Includes designated, item-specific tops, symbol label pack, and word label pack in English, Spanish and French that provides visual cue and encourage compliance.
- Features traditional Rubbermaid Commercial Products strength and durability in easy-to-clean, impact-resistant post-consumer plastic.

1792372

Shipped as 1 kit : bases, 87 l Slim Jim containers, hinged lid, inserts and pictograms.

## Fire Resistant Wastebaskets

Simple safe wastebaskets for general waste disposal.

- Rounded corners add strength and durability for long product life.
- Long-lasting, fibreglass. Will not rust, chip or peel and resists dents.
- Scratch-resistant texture cleans easily, maintaining long-term appearance.
- Conforms to important fire resistance standards.
- Tested and classified by Underwriters Laboratories as able to contain burning paper without the wastebasket melting or contributing fuel to the container's contents.
- Saddle Bin FG295073 fits R050713 / R050714 / R050715 for waste separation. (⚠ FG295073 has no fire resistance certification).

# WASTE MANAGEMENT: Recycling

The perfect fit for all your waste sorting needs is SlimJim®

**60% easier to pull liner\***

The Rubbermaid Slim Jim® containers will not only save you time and money sorting waste but are also Built to Last - lasting longer than the others.

Scan this QR code and discover the full power of Slim Jim®  
\* compared to non vented Slim Jim containers

**Work Smarter.**

# New!

## SLIM JIM® STEP-ON CONTAINERS

**DISCOVER OUR NEW RANGE OF SLIM JIM® STEP-ON CONTAINERS NOW!**  
Maximise space efficiency with a slim profile and small footprint.  
Commercial-grade construction delivers best-in-class durability.  
Quiet and controlled lid-closure minimises noise – ensuring a safe and pleasant environment. A comprehensive product offering will more than satisfy the diverse needs of any facility.

**Work Smarter.**

# How much can you do to ensure the safety of your employees?

## Implement a more hygienic waste disposal regime

Thorough procedures are necessary to make sure waste is correctly disposed of. It is not just a case of keeping waste out of contact with clean surfaces – the airborne dispersion of bacteria and spores means that waste materials must be well-contained at all times.

### Rubbermaid's Step-On range of easy-to-clean hands-free bins help you dispose of waste safely and hygienically:

- Hands-free disposal: heavy-duty pedal for hygienic, hands-free use to significantly reduce cross-contamination through hand contact
- Each bin is equipped with a lid: essential for containing airborne pathogens and odours
- Soft-closing lid damper system: prevents the violent rush of air associated with a poorly designed bin that can disperse airborne contaminants into the surrounding environment
- Rounded corners and smooth contours for easy cleaning
- Hygienic non-porous resin and stainless steel construction for many years of reliable service

### Did you know?

Improper disposal of waste can lead to food poisoning in food preparation areas.

## Reduce physical stress and cut lost working hours

Repetitive or strenuous physical labour can result in musculoskeletal disorders (MSDs).

### Primarily, MSDs can cause severe discomfort for staff, but there are also major costs to consider for employers:

- Medical, rehabilitative and administrative costs
- Loss of productivity
- Absenteeism

It is the employer's responsibility to provide their staff with the appropriate ergonomic equipment to help prevent the occurrence of MSDs. All Rubbermaid products are ergonomically-designed to help reduce physical fatigue and strain.

### Rubbermaid's Step-On Best is the ideal solution and provides a number of ways to avoid MSDs:

- Easy emptying
- Front-opening to avoid lifting of potentially heavy waste bags
- Easy-grips for improved control and transport

### Did you know?

90% of the working population is affected by musculoskeletal disorders (MSDs) at some point in their working lives. EU directives 90/269/EEC, 89/391/EEC and 89/654/EEC legally oblige the employer to provide staff with safe working environments and appropriate ergonomic equipment.

# WASTE MANAGEMENT: Utility & Decorative Step-On

## Slim Jim® Step-On Containers

Maximise space with a slender, discrete design and smaller footprints. Commercial grade pedal ensures long lasting product lifecycle. Silent lid minimizes noise to provide a safe and pleasant environment.

# New!

**SLOW-CLOSING, DAMPENED LID**

- Healthcare noise level compliance
- Eliminates wall damages

**FINGERPRINT PROOF STAINLESS STEEL**

- Stays shiny & bright
- Requires less cleaning

**OPTIONAL DUAL WASTE STREAM LINERS**

- Unique waste sorting opportunities
- Sustainability options
- Reduces Risk of cross-contamination

**EASY-LIFT RIGID LINER OR RETAINER BAND SYSTEM**

- Liners stay-in place
- Increased productivity

**EASY-ACCESS FOOT PEDAL**

- Hands free, slip free pedal operation
- Reduces risk for cross-contamination

**FRONT OR END STEP STYLES**

- Minimum footprint with maximum volume
- On-trend design

**WIDE RANGE OF COLOURS**

- Waste stream identification
- Reduces cross-contamination

## Slim Jim® Step-On Resin containers Fits in the tightest spaces.

- Space saving, Small footprint
- Silent lid closure minimises noise level.
- Commercial grade pedal ensures long product lifecycle.
- Rigid liner included for End Step containers.
- Easy to clean surface.
- 90L Front Step containers have built-in wheels
- Wide range of colors for waste stream identification: beige, white, red, yellow, grey, black.

# WASTE MANAGEMENT: Hands-free Containers

## FRONT OPENING

- Easy to empty and easy to clean.
- Front opening gives easier access for easier cleaning.
- No heavy lifting—the front opening greatly reduces back strain.

## BAG HOLDER

- Secures the polyliner.

## LARGE PEDAL

- Large foot pedal permits hands-free opening to reduce spread of bacteria. Compliant with HACCP guidelines.

## QUIET OPERATION

- Rubber wheels permit quiet transport without making marks on the floor.
- Damping mechanism gently closes without slamming.

## Step-On Best

A 100 l front opening Step-On Bin, meeting users' needs: cleanability, hygiene, safety, ergonomics and durability.

# WASTE MANAGEMENT: Hands-free Containers

## Step-On Waste Containers

Greater capacity Step-On Containers make waste collection more efficient and help reduce labour costs.

- Hands-free, slow-closing lid.
- Durable stainless steel and plastic construction.
- Extra-large foot pedal for ease of use.

### Easy-to-clean construction.

- Available in impact-resistant all plastic and new plastic/stainless steel hybrid construction for easy cleaning and long product life.

### Extra-large foot pedal.

- Large foot pedal is easy to locate and operate. Step-On function enables hands-free, hygienic disposal.

FG614687BLA

### Key features for Step-On Waste Container and Premium Linen Hamper

**CAN LINER RETAINING STRAPS**  
Metal retaining straps keep can liners securely in place and out of sight during use.

**QUIET, SLOW-CLOSING LID**  
Integrated lid damper reduces excessive noise and helps keep odours and bacteria from escaping.

**EXTRA-LARGE FOOT PEDAL**  
Large foot pedal provides hands-free, hygienic disposal.

## Premium Linen Hamper

Collect linen more efficiently and improve worker well-being.

- Quiet, slow-closing lid.
- Highly aesthetic design.
- Metal retaining straps keep can liners securely in place.

### Durable construction.

- Impact-resistant plastic and aluminium construction for long product life and easy manoeuvrability.

### Quiet casters.

- Quiet casters (two lockable in front and two full swivel in rear) provide quiet manoeuvrability for noise-sensitive environments.

### Optional Linen hamper bag.

- Washable, PVC-lined, leak-resistant bag features zippered front access for easy emptying (bag sold separately).

# WASTE MANAGEMENT: Hands-free Containers

## The Defenders

Fire-Safe powder-coated Steel Defenders.

- Self closing piano hinged lid.
- Restraint mechanism protects walls and equipment.
- Leak-proof rigid plastic liner.
- Fire-safe and self-extinguishing.
- Ideal for healthcare environments.

- Silent closing available on all sizes (use FGQDAMPERKIT).

- Folding retainer bands hold polyliner bag in place.

- Pedal avoids cross-contamination.

# How important is durability to your business?

Products that break or lose performance after only a few weeks or month are serious barriers to productivity, and continual replacement of these items makes it difficult to keep costs down.

## The robust Rubbermaid solution

With more than 50 years of designing and manufacturing plastic products, Rubbermaid knows how to do durability.

### Our products:

- Are incredibly robust – see 'Did You Know' section below.
- Are resistant to bending or indentation.
- Are unaffected by rust: being plastic, our products do not rust.  
All metallic components are made from stainless steel.
- Suitable for extreme temperatures.
- Suited to indoor and outdoor use.

## Did you know?

Our rigorous testing processes are designed to create products that improve productivity, increase efficiency and promote safer working practices.

To prove how tough our products are, we conducted abrasion testing\* of the BRUTE® 167-litre container (item number FG2643).

Each BRUTE® container was loaded to 20% capacity with water, a weight of approximately 35 kg. The containers were then held by one handle, tilted and dragged across an interior floor – replicating the way most containers are used. The BRUTE® containers lasted an average of 4.5km until leakage occurred.

## Greener plastics

Rubbermaid Commercial Products carefully respects the environment at every stage of the manufacturing process - a substantial proportion of the Rubbermaid's range can already be recycled.

**Rubbermaid looks to offer the very best in durability, ergonomics and safety.**

**Overall, the best return on investment available:**

- Longer lasting. Made using the best materials to improve longevity.
- Low replacement rate. Our equipment keeps going and going and going.
- Make cash savings for your company.

\* Internal testing

# WASTE MANAGEMENT: Utility Waste

- Rear doors allow easy contents removal.

- Secures a can liner and flips up for easy access to storage area.

- Turns on its own axis and fits in tight environments.

- Sorting options: Holds an optional 87 l Slim Jim® container for improved waste sortation and recycling.

**Mega BRUTE® Mobile Collector**  
 Mega BRUTE® Mobile Collector is a highly manoeuvrable and versatile waste and linen collection and sorting system. Innovative design features deliver improved productivity and ease of use.

- High capacity: 450 l .
- Polyliner retainer (secures a 200 l liner).
- Usable with 87 l Slim Jim.
- Optional lid fully covers waste and supplies.

# 50% EASIER TO LIFT LINERS

The BRUTE® makes what was once backbreaking work easy with built-in venting channels that prevent the liner from sticking and cinches that keep the bag from falling in. It's innovation your workers (and their backs) can appreciate.

**BUILT IN VENTING CHANNELS**

**CINCHES KEEP BAG FROM FALLING IN**

# BRUTE®

# WASTE MANAGEMENT: Utility Waste

## BRUTE® Containers

### NEW DESIGN - THE TOUGHEST JUST GOT MORE PRODUCTIVE

Since 1968, Rubbermaid Commercial Product BRUTE® containers have been trusted by professionals for their iconic durability and reliability. With every lift, drag and drop, they've outlasted - and outperformed every competitor in their industry thanks to their proprietary design and the highest quality materials.

But we're raising the bar even higher with the new BRUTE®. Innovative venting channels make removing liners 50% easier. Integrated cinches secure can liners, meaning knot free liner changes. Contoured base handles improve grip, reduce strain and improve efficiency when emptying containers. Self-draining lid eliminates water pooling.

## Wide range of colours

**NEW**

### Liner Cinches

Secure liners from falling in eliminating the need to tie knots

### Rim with rib

strengthened design  
Increases strength and resists crushing

### Reinforced Rounded Handle Contoured Base Handles

Easier to lift and control during emptying

**NEW**

### Venting Channels

50% easier to lift liners

### Reinforced Rounded Handle

Tear resistant handles provide a comfortable grip

### Strengthened Base

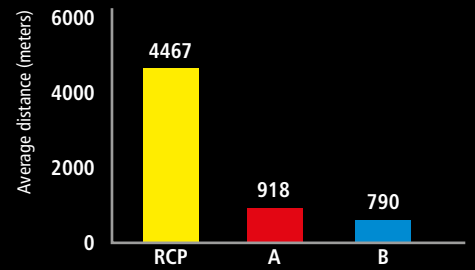

Drag resistant - can be continuously dragged over rough surfaces

## NOTHING beats a BRUTE 5x longer on drag test\*

### Brute Drag Test\*

Average distance before failure

\*Internal test

# WASTE MANAGEMENT: Utility Waste

## BRUTE® Containers

Smart ergonomics, high durability, fast and safe change-out.

- Proprietary design constructed with the highest quality material plus a UV inhibitor ensures long life in even the most extreme commercial environments.
- Guaranteed to never fade, warp, crack, or crush.
- Rounded handles make lifting and moving easier, and are reinforced to resist tearing or damage from even the heaviest loads.
- Reinforced base is specifically engineered to be dragged over rough surfaces, extending life and overall durability even in the toughest environments.
- Contoured base handles improve grip and ergonomics, reducing strain and improving efficiency when emptying containers.
- Meets NSF 2, 21 approval and is USDA Meat and Poultry Group listed, ensuring regulatory compliance for food storage and clean ability.

### New design features

- Innovative venting channels make lifting out liners up to 50% easier, improving productivity and reducing the risk of injury.
- Integrated cinches secure the liner, allowing for efficient knot free liner changes. Tested to 20,000 cycles.
- Rim features integrated rib structure to increase strength and resist crushing.

# How can you improve the look of your indoor and outdoor waste disposal units?

Bins don't need to be boring. Say goodbye to rubbish designs with Rubbermaid's range of decorative waste solutions that allow you select the ideal bin for every situation. With Rubbermaid, no longer do you have to put up with cheap-looking bins that fail to last. With exceptional durability and appropriate styles, Rubbermaid Decorative Waste Solutions are built for long-lasting performance, indoors and outdoors.

## High-quality materials

### Stainless Steel Decorative Waste Solutions:

- Do not stain, corrode or rust.
- Greater resistance to oxidation and corrosion.
- Protective layer immediately reforms when the surface is scratched.

### Powder Coated and Galvanised Steel Waste Solutions: Rubbermaid's unique powder coating is a fine plastic powder that cures to form a uniform protective layer.

- Rubbermaid's powder coating is much tougher than conventional paint finishes.
- Powder coating acts like a second skin, helping to protect the product from the elements.
- All galvanised products are coated with zinc to help prevent corrosion.

## Did You Know?

**Rubbermaid Commercial Products is committed to manufacturing and delivering products in an ecologically responsible manner.**

- All of Rubbermaid's plastic and metal containers are 100% recyclable.
- Powder coating spray is 100% recyclable.
- Stainless steel is 100% recyclable.
- Many of Rubbermaid's sustainable plastic, aluminium and steel products are made of significant amounts of recycled material.

# A beautiful difference

Just some of the many options available in Rubbermaid's Decorative Waste Range:

- Enhance your building's indoor environments by choosing the very best bins.
- Maintain style and durability in even the harshest of outdoor conditions.

## SMOKING OUTDOORS

Public health regulations continue to move smokers outdoors, making it ever more important to keep cigarette butts off the ground and out of waste bins. Rubbermaid's Smoking Management range of outdoor receptacles provide smokers with a convenient and tidy way to snuff-out cigarettes and dispose of them safely.

From our standard Ash/Trash Steel Containers to the innovative Smokers' Pole, Rubbermaid is dedicated to developing simple, easy to empty bins that keep pace with the current move towards outdoor smoking.

## Designer Line™

Ideally suited to upscale environments.

- Clean lines with elegant chrome or brass accents.
- Heavy gauge powder-coated, fire-safe steel.
- The exceptional durability provides a low maintenance solution for prominent areas.
- Half round shape ideal where space is limited.

FGS01620GLBK

FGS0125SSPL

### STAINLESS STEEL BOTTOM RIM

- Designed to protect the floor from corrosion when the floor is cleaned with water and chemicals.

### PROTECTIVE VINYL RIM

- On all side disposal opening prevents injuries.

# WASTE MANAGEMENT: Outdoor Waste

## Ranger®

Ranger® waste containers feature modern styling, and easy-to-service design.

- High-capacity waste management.
- Designed for stadiums, parks, shopping centres, and other high-traffic areas.
- Permanently attached hinged lid for easy emptying.

MODELS WITH DOORS ARE UL/FM AND CSFM APPROVED.

### LID OPTIONS

#### 2 HINGED DOORS

- for waste concealment and odour control. (FG843088 and FG917188)

#### 4 OPENINGS

- for easier access in high-traffic areas. (FG917388)

#### BETTER LINER RETENTION

Metal retainers keep can liners securely in place and eliminate knot tying.

#### ENHANCED DURABILITY

Ranger® lids feature integrated, durable hinges that keep the lid securely attached to the container during emptying.

#### WEIGHTED BASE OPTION

Optional Weighted Base (FG917700) is secured with screws for added stability.

## Metropolitan Smokers' Station

Introducing Rubbermaid's solution to smoking litter management: Metropolitan is a stylish all-metal, high-capacity smokers' station.

### EASY-TO-EMPTY

Hinged lid flips open to provide complete access to the 6 liters galvanized liner. Simply lift out liner, discard waste, and re-insert.

### USER-FRIENDLY

Stainless steel snuff plates on both sides of unit.

### WEATHERPROOF FINISH

Long-lasting Uni-Koat® powder-coated finish.

### SECURITY FEATURES

Integrated keyed cam lock secures lid against tampering and helps reduce replacement costs.

### AESTHETIC & DURABLE

All-metal construction in a slim, contemporary design.

### WEIGHTED BASE AND BOLT-DOWN CAPABILITY

Base features holes for standard 9.525 mm lag or concrete bolts (not included) and is weighted for stability.

# WASTE MANAGEMENT: Smoking Management

## Aladdin Smokers' Station®

Weather-resistant, fire-safe steel construction will not burn.

- Factory Mutual approved fire-safe/ self-extinguishing.
- Oxygen-restricting design quickly extinguishes cigarettes.
- Nylon base pads prevent damage to surface and base.
- Stainless steel latches and nickel-plated brass chain.
- Optional anchoring kits available.

FGR1639EHGR

Stainless steel latches require no tedious, time-consuming alignment to fasten. Forms a tight fitting seal.

Top and base connected with nickel-plated brass chain to deter theft.

FGR1639EHGR	Aladdin Smokers' Station®	16.1 L	Aluminium	Ø 40.6 x 98.4 cm	■	1

## GroundsKeeper™ Cigarette Waste Collector

All-weather solution to an unsightly environmental problem.

- Hygienic easy to service steel canister.
- Restricted opening shields cigarette butts from view and weather.
- Large galvanised steel inner canister.
- Steel base plate adds weight for stability and discourages theft.
- Optional weight ring available for stability (FG628400BLA).

FG628400BLA

FG257088BLA

FG257088BLA

## GroundsKeeper™ Tuscan

Combines clean good looks with easy GroundsKeeper™ maintenance.

- Waste concealment and odour control.
- Blends with many architectural styles.
- High-capacity ash containment system.
- Anchor holes for added security.

# How can Rubbermaid help you achieve even better standards in cleaning?

Cleaning for health is a vital task carrying great responsibility. The standard of cleaning will be scrutinised by healthcare managers and the need to perform to the highest level is ever-present. As a result, you need the best cleaning products available, products you can rely on to get the job done without any hassle.

## Did you know?

Time is money. Rubbermaid's range of advanced cleaning tools allows you to clean faster than ever before. Our internal testing has shown Rubbermaid's Pulse Mop to be 50% faster than traditional mop and bucket. The Pulse allows the user to direct a jet of water (or chemical) on to the target area, maximising efficiency and reducing the need to regularly move the mop to a bucket.

## Rubbermaid will help you...

- Enable daytime cleaning services to reduce costs and improve cleaners' wellbeing.
- Provide healthy environments with the use of superior microfibre textiles.
- Offer ergonomic products to help your employees avoid injuries, strains and illnesses.
- Easier spot cleaning to help you keep your location in peak condition.

## Rubbermaid's complete cleaning systems help you equip your team for every cleaning situation, from general to high-risk areas:

- Damp mopping: choose between traditional and microfibre mops.
- Dusting: a complete range of microfibre mops and high level solutions.
- Surface cleaning: the different textiles will clean glass and chrome better and easier.
- Mop buckets: single and double buckets with highly efficient wringing systems.
- Disinfecting bucket for healthier environments.
- Large range of cleaning carts to improve productivity.

In addition to specialist cleaning equipment, Rubbermaid supplies a full range of cleaning solutions for hospitality environments, such as Housekeeping carts suited to every situation.

# CLEANING FOR HEALTH

A complete system designed especially for high risk health environments.

## SUPERIOR CLEANING FOR: Superior INFECTION CONTROL

Dealing with germs has become a global problem.

Nosocomial Infections or Hospital Acquired Infections have become a major issue for the healthcare sector in many countries.

IN EUROPE 6 TO 10% OF PATIENTS CONTRACT NOSOCOMIAL INFECTIONS.

Escherichia Coli	
Pseudomonas Aeruginosa	
Staphylococcus Aureus	
Clostridium Difficile	

## SUPERIOR PRODUCTIVITY

European employers must ensure the health, safety and wellbeing of their employees; this applies both to cleaning people working in-house and cleaning contractors. They need to equip their teams with productive and efficient tools that support RSI (Repetitive Stress Injuries) and MSDs (Musculoskeletal Disorders) reduction for common benefits.

THE RUBBERMAID HYGEN™  
MICROFIBRE SYSTEM IS

# 75%

performance for  
maintaining healthy, safe  
environments.**

**Rubbermaid**  
Commercial Products  
**HYGEN™**  
SYSTEM

**SMARTER CLEANING**

The new Rubbermaid HYGEN™ Clean Water System features a Filter Bucket and Wringer with built-in scrubbers to help loosen and remove debris from the mop. Twin rollers allow for optimised wringing efficiency, and an innovative filtering system processes dirty water into cleaner water with a simple tilt of the bucket.

Cleans up to  
**1000m<sup>2</sup>**  
with one bucket fill\*

**Cleans the Water**  
SO YOU CAN CLEAN YOUR FLOORS.

**A Complete System.**

**COMPLETE SYSTEM** ■  
Fits all Rubbermaid Commercial Products cleaning carts.

The matched system of Filter Bucket, Double-Sided Folding Frame, Microfibre Flat Mops and Handle are compatible with all Rubbermaid janitor carts.

**RINSING AND SCRUBBING**

Insert the mop into the bucket. Move the mop up and down to enable the built-in scrubbers to remove soil from the mop.

**WRINGING**

Adjust the dial to select your desired level of moisture. Lift the mop so the yellow dot is aligned with the top of the roller. Standing in front of the bucket, press the handle down to wring the mop.

**TRANSFERRING**

When the mop water gets dirty, rather than having to dump the water and refill the bucket, tilt the bucket 90 degrees by pressing the handle. This allows the dirty water to transfer to the filter chamber.

**FILTERING**

Once the water is completely transferred to the filter chamber, rotate the bucket back to its original position. In just a few minutes, cleaner, filtered water will be available in the mop chamber, ready for more mopping.

\* Test conducted by British Institute of Cleaning Science

## Filter Bucket with Wringer Combo

Integrated filter to generate cleaner water!

- Integrated filter improves productivity and reduces chemical/water waste.
- Back-flushable filter is easy to use and maintain.
- Built-in agitators remove more dirt from mops.
- Twin roller design optimises wringer efficiency.
- Adjustable roller wringer accommodates different mop thicknesses and desired moisture levels.
- Floor drain for easy and fast emptying.

## Rubbermaid HYGEN™ Microfibre Buckets

Rubbermaid HYGEN™ Microfibre Buckets complete a highly efficient flat mop cleaning system for healthcare and sanitary maintenance applications.

- Use with Rubbermaid HYGEN™ Microfibre Damp Mops and Quick-Connect tools for a continuous cleaning process.
- Easy-to-clean, lightweight non-porous plastic construction.
- Buckets work with all Rubbermaid HYGEN™ Microfibre Cleaning Carts.

### Charging Bucket

- Reduces cross-contamination when a fresh mop is used for each room or area.
- All-plastic bucket holds 10–20 microfibre damp mops.
- Each mop holds enough liquid to clean up to 23 m<sup>2</sup>; fully loaded bucket (20 mops) can clean up to 450 m<sup>2</sup>.
- Safe for use in MRI rooms.

### Top Down Charging Bucket

- Sieve design enables users to effectively and ergonomically moisten mops.
- Holds up to 16 Double-Sided Microfibre mops (see page 54 for mop information).
- Reduces cross-contamination when a fresh mop is used for each room or area.
- Safe for use in MRI rooms.
- Best for use with Double-Sided Microfibre Mops.

FGQ95088YEL

Bucket design prevents over-saturation of microfibre mops and features a measuring guide for filling with cleaning and disinfecting solution before mops are added.

### USING THE TOP DOWN CHARGING BUCKET

1. Fold the mop in half with the face material inside. Place folded mop vertically inside the bucket.

2. Pour disinfectant over the hinged sieve to moisten the mops evenly.

Ref	Colour Code	Description	Material	Dimensions	Colour	Pack
FGQ95088	YEL	Charging Bucket	Polypropylene	63.8 x 22.4 x 31.0 cm		1
1791802		Top Down Charging Bucket	Polypropylene	60.6 x 24.1 x 34.6 cm		3
1863892		Top Down Charging Bucket	Polypropylene	60.6 x 24.1 x 34.6 cm		3

## Press Wring Bucket

- Use when flood cleaning or heavier liquid lay-down is desired.
- Press sieve provides easy, “no-touch” wringing.
- For use with microfibre flat mops up to 46 cm in length.
- Non-marking casters.
- Floor drain for fast emptying.
- Best for use with Single-Sided Microfibre Mops.

Unique, ribbed “washboard” surface removes dirt and debris from mops before wringing.

FGQ90088YEL

# CLEANING: Rubbermaid HYGEN™

## Rubbermaid PULSE™ Microfibre Floor Cleaning System with Double-Sided Frame

Cleans twice the area with the most productive floor cleaning system. This convenient tool makes dusting and wet mopping faster than ever before.

1855312  
**DOUBLE-SIDED FOLDING FRAME**  
 Provides twice the coverage.  
 (Also sold separately, see page 53)

**TRIGGER HANDLE** ■  
 Red ergonomic trigger handle dispenses three streams of cleaning solution with each press.

**ON-BOARD FLUID RESERVOIR** ■  
 On-board refillable reservoir holds enough solution to clean up to 80 m<sup>2</sup>. Monitor fluid levels via handy reservoir windows.

FGQ966000000  
**RUBBERMAID PULSE™ REFILL CADDY**  
 Capacity: 7.5 l

1862379  
 (Sold without mops)

# CLEANING: Rubbermaid HYGEN™

## NON-SLIP TIP

- When placed against a wall this tip helps prevent the handle from sliding and falling.

## TRIGGER HANDLE

- Red trigger handle dispenses the cleaning solution.
- One-handed operation. Helps reducing RSI (Repetitive Stress Injuries).

## EASY REFILL

- Fill the reservoir with cleaning solution. Reservoir window allow easy monitoring of fluid level.

## AESTHETIC ON-BOARD FLUID RESERVOIR

- High-capacity refillable reservoir holds 0.6 l of solution to clean up to 80 m<sup>2</sup> of floor space.
- Can be used with water only, bleach or cleaning solution.

## QUICK-CONNECT SYSTEM

### IMPROVED SYSTEM!

- Thicker, seamless bladder for improved durability
- Sturdier connection between frame and Pulse

## ON-DEMAND DELIVERY

- Press the trigger handle to dispense three streams of cleaning solution behind the mop (non-atomising for greener cleaning).

**Rubbermaid PULSE™**  
**Microfibre Floor Cleaning System**  
 Clean more square metres in less time. Industry-best microfibre, on-board reservoir, and user-controlled release of solution.

**Clean faster and better!**

CLEANS UP TO  
**80 m<sup>2</sup>**

**Clean Connect™ Cap**

PULSE™ can be used with different mops. Please see page 58 for One-Sided Microfibre Mops or combine with Double-Sided Folding Frame and Microfibre Mops (see pages 53-54).

**Rubbermaid HYGEN™  
Microfibre Damp Mops**

Superior microfibre is proven to remove micro organisms with non-disinfectant neutral cleaner.<sup>1</sup>

- Patented zig-zag scrubbing strips for cleaning tough, dried on stains.
- Reduces water consumption up to 90% versus traditional damp mops.
- 40 cm wet mops are colour-coded with 4 ribbons, help reduce the risk of cross-contamination.
- Velcro attach system.
- High absorbency mop holds up to 0.7 l of liquid.
- Frame and handle available page 63-64.

Colour-coded ribbons.

**67% MICROFIBRE**  
**22% POLYESTER**  
**11% POLYPROPYLENE**

**Bleach-safe durability**

Bleach-safe microfibre textiles from Rubbermaid Commercial Products are proven to last longer and provide better cleaning efficiency than non-bleach-safe textiles.

- Rubbermaid bleach-safe microfibre withstands even the harshest high-PH detergents.
- Bleach sanitizes textiles when laundering below 90 °C (CDC minimum temperature when not using bleach).
- Bleach (hypochlorite based) solution is the only CDC recognised disinfectant for use in areas where Clostridium Difficile or Creutzfeldt-Jakob Disease may be present<sup>2</sup>.

**DURABLE UP TO**

## Combine Rubbermaid PULSE™ Single-Sided or Double-Sided frame with High-capacity FLOW™ Backpack system, which allows user-controlled release of solution.

- Help reduce labour costs and improve worker productivity and well-being.
- Ideal for spot cleaning and to clean anywhere where you can not take a bucket. (Stairs, tube stations, trains, ...)

**HIGH-CAPACITY BACKPACK SYSTEM**  
Holds 5.6L for cleaning up to 820m<sup>2</sup> of floor surface. The 7.5 cm diameter opening makes refilling clean & easy.

**PROTECTS WORKER WELL-BEING**  
Chest and waist straps distribute weight onto user's hips instead of shoulders, reducing user strain.

**IMPROVED COMFORT**  
Backpack features venting channels to improve airflow and reduce moisture on back while wearing.

**BUILT-IN CONVENIENCE**  
Includes built-in pockets for MSDS sheet, water bottle, and work radio/phone for user comfort and efficiency.

Combine with Backpack:  
Clean up to  
**820m<sup>2</sup>\***

## Combine Rubbermaid PULSE™ with optional Rubbermaid PULSE™ Caddy.

**FGQ966000000 RUBBERMAID PULSE™ CADDY** Capacity: 7.5L  
Refills Rubbermaid PULSE™ up to 12 times.

Combine with Caddy:  
Clean up to  
**1000m<sup>2</sup>\***

**SMARTER SYSTEM WITH INTEGRATED COMPONENTS:**  
The Rubbermaid PULSE™ Caddy is designed to be securely transported in Rubbermaid Cleaning Carts for efficient on-the-go refills.

## Rubbermaid HYGEN™ Microfibre Dust Mops

Best-in-the-industry performance with patented zig-zag strips and higher pile looped-end construction to capture and hold more dust and debris.

- Premium looped-end construction reduces linting and improves dust pickup.
- Withstands up to 90° C hot water laundering for bleach-free sanitising.
- Frame and handle are available on page 63-64.

■ Microfibre  
■ Polyester

■ Dust Retention

**63% MICROFIBRE  
37% POLYESTER**

## Finish Mop

For smooth, even application of floor finish.

## Rubbermaid HYGEN™ Flexible Dusting Kit

### Rubbermaid HYGEN™ Flexible Wand Duster Tool.

- Velcro type assembly and elastic band keep sleeve well fastened.
- Quick Connect mechanism converts this hand-held duster to an extended cleaning tool.
- Handle available page 64.

### FGQ85000BK00 - Rubbermaid HYGEN™ Flexible Duster Kit.

- Can be used DRY only.
- 100% Cut-end Microfibre.
- Extremely durable, the sleeves can withstand 500 washing cycles at 90°C and 500 drying cycles at 60°C; 200 cycles with bleach.

### FGQ85200WH00 - Rubbermaid HYGEN™ High Performance Flexible Duster Kit.

- Can be used DRY or DAMP.
- For more heavily soiled areas and hair removal.
- Extremely durable, the sleeves can withstand 500 washing cycles at 90 °C and 500 drying cycles at 60°C; 200 cycles with bleach.

Connect the flexible dusting wands to the extension handles (see p.61).

## Rubbermaid HYGEN™ Flexi Frame™

Clean faster and more effectively with new Rubbermaid HYGEN™ Flexi Frame™. Frame conforms to curved surfaces for better pickup of dirt and debris.

- Frame flexes to clean both contoured and flat surfaces.
- 4 specialised mops for every cleaning need.
- Patented arc shape pulls dirt, hair and debris toward the centre for better pickup.
- Proprietary flexible compound will not crack or split, even when used with bleach or peroxide.
- Use hand-held or with Rubbermaid HYGEN™ Quick-Connect handles and extension poles, excellent to clean hard-to-reach areas (see page 64).
- For all covers: 500 launderings without bleach, 200 launderings with bleach. \*

Better surface contact. Flexible mop frame conforms to the shape of the surface being cleaned.

Patented arc shape pulls dirt, hair and debris toward the centre for better cleaning.

### PROPRIETARY FLEXIBLE COMPOUND

- Will not crack or split, even when used with bleach or peroxide.
- Use hand-held or with any Rubbermaid Quick-Connect handle.

Flexible frame provides better surface contact for more effective cleaning.

## Rubbermaid HYGEN™ Quick-Connect Frames

Quick-Connect frames feature a flat profile that slides easily under furniture and equipment. Trapezoidal shape improves cleaning in corners and other hard-to-reach areas.

- Lightweight aluminium construction is safe for MRI rooms.
- Replaceable hook and loop strips attach all Rubbermaid HYGEN™ Microfibre Damp and Dust Mops.
- Rounded plastic end caps help protect walls and furniture.

Secure pad attachment. Aluminium frames have removable hook-and-loop strips on the underside for attaching pads. Replaceable strips slide into channels and are held in place by removable end caps.

The hook-and-loop strips and end caps are available as spare parts.

Open-step Quick-Connect mechanism makes mop assembly and frame changes fast and easy.

End Caps 1791803

Hook-and-loop Strips R034546

FGQ57000YL00 Quick-Connect frame with squeegee.

Available in 40, 60, 90 and 120 cm widths.

Durable, patent-pending nylon universal joint provides a full range of motion for efficient cleaning.

Rounded plastic end caps help protect walls and furniture.

## Rubbermaid HYGEN™

### Quick-Connect Handles and Poles.

Rubbermaid HYGEN™ Quick-Connect Handles and Pole make cleaning more efficient in every area of your facility. The Quick-Connect mechanism allows easy, time-saving frame exchange.

- Lightweight aluminium construction is safe for MRI rooms.
- Handles available in straight or ergonomic bend styles, in adjustable lengths from 115 cm to 186 cm.
- Extension poles make quick work of high-reach cleaning tasks, with lengths up to 548.6 cm.
- FGQ70100BK00 Quick-Connect adapter allows use of Quick-Connect handles and poles with any standard threaded tool.

FGQ74500YL00 Extends from 50.8 cm to 101.6 cm.

1863883 Extends from 50.8 to 101.6 cm

FGQ75500YL00 Extends from 121.9 cm to 182.9 cm.

1863882 Straight Extension Handle 106.7 cm - 182.9 cm

FGQ75000YL00

FGQ760000000

R034573

FGQ77500YL00 Extends from 182.9 to 548.6 cm!

#### NON-SLIP TIPS

- When placed against a wall, these tips help prevent the handles from sliding and falling (standard on all Quick-Connect handles and poles).

#### LARGE COMFORTABLE GRIP

- Provides better stability for cleaning high areas with extension poles.

#### RUBBERMAID HYGEN™

- Frames and handles contain non-magnetic aluminium and are safe to use in MRI rooms.

FGQ70100BK00

Can also be used in a push/pull style.

Uniquely shaped grip and ergonomic bend to minimise awkward position.

# CLEANING: Rubbermaid Microfibre Cloths & Mitts

## Rubbermaid Microfibre Cloths

### Rubbermaid HYGEN™ Microfibre Cloths

Industry-best microfibre cloths include patented zig-zag scrubbing strips and high quality knitting for better absorption and debris pickup.

- Double-finished edges provide durability and shape retention.
- Launder **500 times** without bleach or **200 times** with bleach.
- Withstands up to 90°C hot water for bleach-free sanitation.
- Colour-coded for general purpose and special applications.
- Smooth, blue knit for no-lint cleaning of glass and polished surfaces.

Microfibre Cloths - Yellow, red, green, and blue cloths for cleaning by area or task.

PROVEN TO REMOVE  
**99.9%**  
of microorganisms

### Rubbermaid Professional Microfibre Cloths

With the cleaning effectiveness of split microfibre and the extended durability, these cloths will keep your cleaning operation at a competitive.

- Split Microfibre.
- Launderable up to 100 times with bleach, 250 times without bleach (based on internal testing).
- Cleans better & last longer.
- Best absorption capacity.
- Low cost alternative that delivers superior cleaning performance.

# CLEANING: String & Tube Mopping

## Web Foot® Microfibre Tube Mops

Designed to have greater floor contact and improved absorbency.

- Constructed with a blend of continuous filament microfibre and polyester.
- Triple the durability and withstands three times the number of launderings of standard blend mops.
- Superior absorbency and release characteristics.
- Tube design reduces drag for increased productivity.
- Lasts 200 launderings with bleach in 90°C water.
- Clean 54% faster than standard cotton mops.
- Ideal in combination with the Down Press Wringer and the Sani Duo or the Combo Bravo Bucket (see page 71-72).

**RUBBERMAID WEB FOOT® MICROFIBRE MOPS PROVIDE MAXIMUM CLEANING POWER WITH BEST-IN-THE-INDUSTRY SPLIT MICROFIBRE YARNS.**

### COTTON FIBRE

- Cotton fibres are too large to clean crevices where bacteria, spores, and viruses hide.
- Tests prove cotton fibres remove only 65% of these contaminants.

### TRADITIONAL NON-SPLIT MICROFIBRE

- While half the size of cotton fibres, non-split microfibre is still not fine enough to effectively remove pathogens.
- Tests prove non-split microfibre also leaves contaminants behind.

### RUBBERMAID SPLIT MICROFIBRE

- Exceptionally fine, premium quality Rubbermaid split microfibre penetrates microscopic crevices where cotton and non-split microfibre cannot reach.
- Tests prove Rubbermaid split microfibre traps, holds and removes 95% of contaminants.

FGT81206GR00

### DURABLE HEADBAND

PVC-coated mesh headband for longer product life.

### BLEACH SAFE

in laundry and use.

### DOUBLE-STITCHED TAILBAND

Improves durability and eliminates streaking.

Can be used with handle

Ref	Colour Code	Description	Material	Weight	Colour	Pack
FGT81206	GR00	Web Foot® Microfibre Tube Mop	Microfibre	400 g		6

## Web Foot® Microfibre String Mops

Highly durable and absorbent for extra-long mop life.

- Constructed with a blend of continuous filament microfibre and antimicrobial yarn.
- Pre-laundered and pre-shrunk.
- Double the durability and withstands twice the number of launderings of standard blend mops.
- Recycled content: 21% post-industrial cotton and 28% PET plastic.
- Works with all traditional wet mop handles and frames.
- Ideal in combination with the Down Press Wringer and the single or double bucket and the Combo Bravo bucket or the Sani Duo.

FGA81206GR00

### DURABLE HEADBAND

PVC-coated mesh headband for longer product life.

### SHRINKLESS

Pre-laundered and pre-shrunk for long-lasting performance.

### DOUBLE-STITCHED TAILBAND

for improved durability and launderability.

### LOOPED-END BLENDED YARN

Provides superior absorbency and release for faster drying floors and improved productivity.

Can be used with handle

# CLEANING: String & Tube Mopping

## Cotton Web Foot® Wet Mops

- Balanced blend of cotton and synthetic fibres delivers up to five times the absorbency of cotton mops.
- Looped-end, open-twist yarn reduces linting.
- Woven tailband covers more floor area per stroke.
- Recycled content: colours are 35% post-industrial cotton and 20% PET plastic; white is 35% post-industrial cotton.
- Shipped as compact mop packages.
- Can be used with handle FGH14600.

### Built-in antimicrobial protection

Rubbermaid Commercial Products was the first to spin antimicrobials directly into the mop yarn itself. Web Foot® Mops contain built-in antimicrobial protection for superior performance and product life.

**WaveBrake® Mopping Trolleys**

The WaveBrake® Mopping Trolley combines all the accessories to optimise your cleaning effectiveness.

FG777700YEL

- Down Press Wringer can be used with Kentucky or for flat mops with the press reducer R050163.

- Dirty Water Bucket separates dirty water from clean water.
- 33 l Bucket can be easily removed from dolly for emptying.

- Ergonomic handle for easy manoeuvrability.
- Can carry two safety signs.
- Removable Maid Caddy to store and carry cleaning supplies.

- Accessory Bucket for use in trash collection or extra storage of water or cleaning supplies.

- Quiet Caster Dolly, ideal for noise-sensitive environments.

**Moulded-in WaveBrake®**

This revolutionary bucket shape with moulded-in WaveBrake® inhibits wave formation, which greatly reduces splashing under typical usage.

**WaveBrake® Combos**

The WaveBrake® reduces splashing, which means a safer environment, cleaner floors and improved productivity.

- High efficiency Down or Side Press Wringer.
- Premium tubular steel and Structural Web moulded plastic.
- Dirty water separation (optional).
- For Flat mopping, use the WaveBrake® press in combination of the press reducer R050163.

## Lobby Pro® Wet/Dry Spill Pan

Offers users the ability to clean any type of spill, solid, liquid or a combination of both, without having to bend over or touch the spillage.

- The 2 l capacity smooth-skin Spill Pan has a wide sloping front end over which spills are transported into the pan using the Cleaning Wand.
- Beyond the peak of the slope is a drop-off that will not allow liquids to find their way back onto the floor surface.
- The front of pan area also includes a recessed and replaceable rubber blade that contours itself to uneven floor surfaces to help ensure that liquids will not find their way under the pan.
- Spill Pan includes a convenient indented foot rest that allows the pan to be held firmly in place.
- The Cleaning Wand allows users to quickly and effectively transport liquid or mixed spills from smooth or rough surface floors into the Spill Pan.
- The Cleaning Wand blade is made of a soft double moss squeegee foam and is supported by a galvanised metal frame.
- It also includes a 116.8 cm metal handle for wide area spill cleaning without bending over.

# CLEANING: Cleaning Carts

## Microfibre Cleaning Cart

Designed to improve the level of hygiene in sensitive cleaning environments. Accommodates all Rubbermaid Microfibre Cleaning Solutions.

- Easy separation of dirty and clean microfibre mops.
- Can accommodate up to 2 disinfecting buckets.
- The cart comes fitted with: 4 colour-coded buckets, 2 yellow organising boxes, 1 waste cover and storage compartment and 1 yellow high capacity vinyl bag.
- Accessories will provide more efficiency. For accessories please see pages 78-79.

### 4 COLOUR-CODED BUCKETS

Prevent cross-contamination by assigning one colour to a specific area of use.

FG9T83010000

### WASTE COVER AND STORAGE COMPARTMENT

FG617900BLA

### MOP HANDLE HOLDERS FIT ALL SIZES

New system for securing mop and broom handle to the cart.

### LOBBY PRO™ DUST PAN HOLDER

### COMFORT GRIP HANDLE

### 2 HOOKS (on each side)

To fix a Brute container, Slim Jim container or hold safety signs (4 pieces).

### MICROFIBRE MOP FRAME HOLDER

### HIGH CAPACITY VINYL BAG – 128 l

Leak-proof waste bag with improved zip. Other colours available - Black canvas (PVC lined) or red, blue, green PVC bags. See Accessories pages 78-79.

### MICROFIBRE DISINFECTING BUCKET PLATFORM

Platform easily carries a fully loaded Microfibre Disinfecting Bucket.

### LARGE PLATFORM

For Press Wring Bucket, WaveBrake® Combo Bucket, and Single Combo Bucket. Can accommodate an optional Slim Jim (FG354000) or an optional Brute Container (FG263200).

### NON-MARKING CASTERS

Non-marking casters for easy manoeuvrability, perfect for noise-sensitive environments. Locking casters available. See Accessories pages 78-79.

FG9T8400YEL

### 2 ORGANISING BOXES – 28 l

Perfect for separation of clean/dirty microfibre mops. Removable from both sides.

## Triple Capacity Cart

Maximise productivity and help reduce labour costs with the Triple Capacity Cart. High-capacity cart provides multi-stream collection for efficient, cost-effective sorting. Customisable options support recycling and green cleaning.

- High-capacity zipped bags hold up to 128 l each available in Red, Green and Blue with universal recycling symbol and Yellow for general waste (bags sold separately).
- Rubber Tool Grips hold handles upright.
- Non-rusting and easy-to-clean aluminium and structural web plastic construction.
- Features 2 swivel casters and 2 wheels.

FG9T8901 Wire bag holder allows for further sortation within each vinyl bag. Works with all FG9T7200 Carts.

Versatile Storage options. Organise and store supplies and tools with removable caddies and other accessories (sold separately).

FG9T93010000 Recycling Bags with Universal Recycling Symbol. Also available - Black canvas bag (PVC lined). See Accessories pages 78-79.

### BROOM STORAGE

Both handles include rubber Tool Grips that hold handles.

### COMFORT GRIP CART HANDLE

Improved design makes the cart more manoeuvrable and comfortable.

### HIGH-CAPACITY VINYL BAG

PVC lined, leak-proof vinyl bags hold up to 128 l, improving productivity by reducing the number of trips to empty waste. Zipped front access makes waste removal easier. (Bags sold separately.)

### RECESSED STORAGE AREA

Large, open storage area below center bag.

Combine with Accessories such as Security compartment and Waste covers for more security. See Accessories page 78-79.

FG9T9200BLA Triple Capacity Cart with three FG9T8000YEL High Capacity Vinyl Bags.

FG9T9200BLA Triple Capacity Cart shown with optional FG9T9300 Recycling Bags and FG253300 Lobby Pro® Deluxe Upright Dustpan and Broom.

Can be converted to 4 Swivel casters with Locking casters. See Accessories page 78-79.

# How can you provide even better hotel housekeeping services to your customers?

The hotel housekeeper is the guardian of a hotel's brand. Their job is vital to ensure that guests have an enjoyable stay, and that standards of hygiene are upheld.

The main challenges for the housekeeper often include:

- The need to reduce cleaning time.
- Maintaining clean corridors while performing normal housekeeping duties.
- The lack of storage space available.
- Providing a nominal level of security and looking to prevent theft from rooms.

Rubbermaid offers a wide range of ergonomic solutions that help housekeepers meet every challenge in:

- The High Capacity Cart is designed to service up to 16 rooms.
- For smaller hotels and limited storage, the Compact Folding Housekeeping Cart combines the best in functionality with a significant reduction in size when folded.
- Rubbermaid provides a selection of different designs and finishes to suit each hotel interior.
- To prevent theft, all carts are supplied with locking cupboard spaces, while the majority of models feature locking security hoods.

## Did you know?

Not every hotel has wide, spacious corridors and large areas of room space to manoeuvre a cleaning cart. That is why Rubbermaid has designed the Compact Folding Housekeeping Cart to fold down to nearly 30% less than its original size.

# CLEANING: Housekeeping Carts

## PROTECTIVE SECURITY HOOD

- Lockable, to keep cleaning supplies and amenities concealed from view (optional).

## MOULDED-IN HANDLES

- For easy mobility down halls and around corners.

## LOCKING DOOR KIT

- Conceals contents to provide enhanced security.

## LINEN ACCESSORY MESH BAG

- Attached to handle area, ideal for transporting additional clean towels/linens (optional).

## SILENT NON-MARKING WHEELS

- (20 cm), two locking brakes. Aiding movement on all floor surfaces.

## High Capacity Housekeeping Carts,

designed for larger hotels.

Fully equipped they can service up to 16 rooms.

# How can you avoid accidents at work?

Don't fall into the trap of thinking accidents won't happen to you. In the EU, slips, trips and falls occur every 3 minutes, resulting in 4.5 million accidents every year in the workplace. The pain and inconvenience to staff and the public is considerable, but there is also the business cost:

- Accidents in the workplace result in more than 3 days' absence in 20% of cases.
- Cost in medical expenses, sick pay and compensation approximately 20 billion every year.
- Represent 33% of all reported injuries, with 50% of incidents involving members of the public.

Rubbermaid's complete range of signs, barricades and cleaning equipment forms your main line of defence against slips, trips and falls in the workplace.

## Did you know?

Rubbermaid solutions can reduce the risk of accidents for your staff and/or for your clients by 66%.

## Rubbermaid helps reduce risk in three stages:

### 1. WARNING

Signage warning of potential hazards and existing spills.

### 2. SECURING

Barricade Systems redirect pedestrians from hazardous scenes until the area is dry and safe.

### 3. CLEANING-UP

Address and clean the spill with appropriate, effective cleaning equipment, making the area safe for customers and employees.

- in Retail
- in Maintenance
- in Food Service
- in Healthcare

## Floor Signs

Lightweight and versatile, but make a strong statement about safety.

- "Caution" warning messages printed in English, French and Spanish for effective communication to broad audiences.
- Folding design for convenient storage or transport on Cleaning Carts and Rim Caddy.
- Two-sided, FG611200YEL and 1867505 models available for use in narrow areas.
- Two models of wooden signs with an elegant and sophisticated design perfect for the hospitality environment.

## Stable Safety Signs

- Self-opening feet give sign large, stable base.
- Low centre of gravity helps prevent tipping when bumped, kicked or blown by wind.

**New!**

## Over-The-Spill® System

Slip resistant pads quickly cover spills.

### FG425100YEL Over-The-Spill® Station Kit

- Station mounts easily to a flat surface.
- Durable corrugated plastic construction.
- Quick reference usage drawing.
- Large parts absorb up to 0.45 l of fluid per pad.
- Refillable dispenser.
- Bilingual directions for use (English, Spanish).

### FG425400YEL Over-The-Spill® Pad Tablet

- Tablet mounts easily onto a floor sign or any flat surface.
- Perforated pads are easy to remove.
- Each medium size pad absorbs up to 0.34 l of liquid.
- Mildew resistant pads hold to floor even when saturated.
- Higher capacity of 25 pads saves time for refilling.

# SKIN CARE

## SKIN CARE

Rubbermaid Flex™ .....	97
Manual Skin Care System.....	97
Accessories & Parts .....	98
EnrichedLotion™ - Liquid Formulas.....	98
EnrichedFoam™ - Foam Formulas.....	99
Classic Manual Enriched Foam Systems ..	100
Spray Skin Care Systems .....	101
Rubbermaid AutoFoam™ Systems .....	102
Rubbermaid One-Shot dispensers .....	103

## Why is Skin Care so important?

Looking after your skin is important, especially if you regularly use abrasive chemicals or are exposed to extreme conditions. Staff and customers value high-quality hand soaps and reliable soap dispensers – a faulty dispenser will leave customers unhappy and inconvenienced.

### Experience that matters...

From the rich and luxurious to the economical, Rubbermaid Commercial Products' complete line of skin care systems suits every need. Rubbermaid's innovative dispensers range from automatic through-the-counter systems or to manual wall-mounted styles. Superior hand washing experience, lower cost-in-use, and environmentally responsible products mean Rubbermaid is your source for innovative solutions.

Encouraging healthy hand washing is good practice.

### Most importantly, the range of skin care systems meets the following key needs:

- Continuous supply of soap, alcohol free and alcohol plus hand rub.
- Reliable performance with no drips or clogs.
- Easy and low cost servicing.
- An enjoyable and safe hand washing experience.

## Rubbermaid Best Practice

Follow our recommended 3-step skin hygiene regimen to improve personal wellness with our complete line of respected formulas, moisturising and soaps with antibacterial agents and nourishing skin lotions.

### ■ Enriched Foam soaps

Rich, dense skin care formulations that washroom users will love. This high quality foam soap contains up to 70% more soap solids than other foams, and is enriched with skin-friendly conditioners and moisturisers.

### ■ Spray soaps

The most cost-effective system available – reduces soap consumption by up to 60%. Formulas include lotion soap with moisturisers and spray soap with antibacterial agents.

### ■ Liquid soaps

Stylish dispensers and high quality cleansers for a top class washroom image. All formulas include moisturising ingredients to soothe and soften the skin.

## Smarter Skin Care

Rubbermaid Skin Care provides customers with a comprehensive hygiene programme of innovative product solutions and motivating support materials to deliver superior Personal, Economic and Environmental Health.

### SUSTAINABILITY

Environmentally preferred solutions that do not compromise performance

## DID YOU KNOW?

The largest organ in your body is your skin - a vital protective 'layer' that allows us to react to external conditions and regulate our body temperatures. The average human body has 1.5-2.0 square metres (16-21.5 sq ft.) of skin, between 2-3 mm (0.10 inch) thick. The average square inch (6.5 cm<sup>2</sup>) of skin holds 650 sweat glands, 20 blood vessels, 60,000 melanocytes, and more than 1,000 nerve endings.

# SKIN CARE: Wall Mount - Manual

## Rubbermaid Flex™ Manual Skin Care System

New Rubbermaid Flex™ (Foam Liquid Excellence) Skin Care System's revolutionary design allows you to use either foam or liquid refills in the same dispenser.

- Highest yield of hand washes – up to 3,250 per refill.
- Rubbermaid signature moisturising complex with shea butter, vitamin E and panthenol.
- Rich, dense lather and distinctive fragrances.
- Rubbermaid's broadest selection of formulations including hand washes, shampoos and new Ecolabel formulas.
- Superior "clean look" styling improves washroom aesthetics.
- 2 sizes to meet any capacity, space or installation requirement.
- New 75% alcohol hand rub.
- Hygienically sealed refills eliminate potential contamination.
- Box-less refills evacuate fully to reduce waste.
- Easy to use, ergonomic systems

## WASHROOM SOLUTIONS

# Clean Look

### HOW DO YOU GIVE YOUR WASHROOM THE CONTEMPORARY COORDINATED LOOK?

Independent studies prove that a spotlessly clean, contemporary appearance for the washroom has a disproportionately positive influence on a visitor's overall impression and experience of a facility.

The same studies also report that the aesthetic image of the washroom contributes significantly to the morale and long-term retention of staff.

As a result, whenever property owners and facilities managers now update or modernise away-from-home restrooms, there is a much-increased focus on careful coordination of style and colour to improve the overall aesthetic image of the washroom.

Rubbermaid has long been at the forefront of this trend offering a premium range of matching dispensers for air, surface, and skin care under the Microburst Duet and AutoFoam brand names.

And now the company is upping the ante with the launch of the new Clean Look family of dispensers which perfectly match and complement either of the premium systems or the newly launched FLEX skin care dispensers. A complete family range with unique touch free solutions.

Available in white, black and chrome, new Clean Look family dispensers are leaders in sanitary style and offer the programmability, ease of operation, and stunning good looks that will delight both the building owner and washroom visitors.

## How can you tell a winning washroom?

Everyone expects washrooms to look clean and smell clean. An immaculately clean washroom is worth nothing if unpleasant odours linger for too long. Equally, good odour control needs to be environmentally sustainable and easy to maintain – a system that needs constant supervision is definitely not an ideal situation.

Rubbermaid's air care products provide discreet and effective systems to help you make the best impression. Rubbermaid's innovative dispensing platforms deliver highly effective and cost-efficient odour control without the need for constant maintenance. Rubbermaid's world-leading fragrances enhance the washroom experience.

- Reliable and cost effective
- Simple servicing
- Flexible programme options

### Aerosol Systems

Advanced aerosol dispensing with a choice of operating programmes and refill options.

### Microburst Systems

Compact system delivers full impact odour control, with three times the odour control and fragrance as ordinary refills but 63% less VOCs (volatile organic compounds) than standard aerosols.

### TCell™

Small and stylish system for continuous odour control and fragrance, powered by revolutionary battery-less fuel cell technology.

### Pump Spray System

A non-aerosol alternative for effective air care and odour control.

**71%**

FEEL A FRESH SMELLING  
RESTROOM IS A SIGN  
OF A WELL-MAINTAINED  
RESTROOM

**DID YOU KNOW?** Fragrance Fatigue:

When an individual's olfactory organ becomes saturated with a particular smell or fragrance, resulting in an insensitivity to the presence of the particular fragrance.

# WASHROOM SOLUTIONS: Air care

## MICROBURST SYSTEMS

Compact, cost-effective aerosol system delivers three times the odour control and fragrance as ordinary refills. Micro-spray technology delivers broad room coverage while high impact, long lasting concentrated fragrances.

**3X**  
MORE ODOUR CONTROL  
THAN ORDINARY REFILLS

■ **DUAL FRAGRANCES**  
Alternates between two complementary scents, eliminates fragrance fatigue, and keeps rooms fresh and pleasant.

## Microburst Duet®

Advanced Dual fragrance Odour Control System for noticeable freshness.

⌚ Programming options:
60 / 90 / 120 / 180 days
8 / 12 / 16 / 24 hr
5 / 6 / 7 days per week

- Flexible programming options.
- Spray rotation: hour to hour, AM to PM, day to day, can to can.
- Automatically alternates between two complementary fragrances for renewed freshness.
- Each refill lasts up to 180 days and batteries last over 2 years; very low maintenance needed, up to 66% lower labour costs.
- Alternating scents eliminate fragrance fatigue.
- Programmable freshness.
- Cost-effective solution.
- High-quality, customer preferred refill fragrances
- Spray: 25 µl

The dispensers require 2 x C Cell Alkaline batteries - last up to 3 years (sold separately).

## TCell™

Revolutionary air care system that creates an environment that is fresh all day, every day, utilising its patented fluid delivery system.

- Patented, precision dosing delivery system; one dispenser covers from 3 to 4 toilets and urinals (169 cubic metres).
- High quality, long lasting designer fragrances that your customers will love.
- Reliably delivers a consistent and continuous level of fragrance.
- New fuel cell technology delivers fresh fragrance and odour control continuously for 60 up to 90 days per refill.
- Stylish, contemporary dispenser design to complement any washroom decor.

- No batteries or electrical plug-in needed – just install and go
  - No added VOC's
  - SILENT operation

## Standard Dispenser

- Ideal for use in washrooms, corridors, lobbies, meeting rooms, hotel ensuite bathrooms, restaurants, healthcare premises, offices, retail and educational facilities.

### PATENTED FUEL CELL TECHNOLOGY

The fuel cell creates hydrogen in the fragrance chamber. As each molecule of hydrogen is created it forces an equal volume of fragrance out of the chamber. Natural air flow in the washroom distributes the fragrance throughout the room.

- New fuel cell technology delivers fresh fragrance and odour control continuously for 60 or 90 days per refill.

# WASHROOM SOLUTIONS: Air care

## TCell™ Fragrance Refills

Pure designer fragrances that washroom users love.

- 'Clean air' technology containing no propellants or added VOCs, no aerosol can disposal.
- Only 4-6 refills to dispose of annually. Less refills into the waste stream.

### DISPENSER INSTALLATION

Position the dispenser in an area where moving air will disperse the fragrance and neutraliser throughout the entire area, normally 0.9 to 1.8 metres from the entrance way.

# TCell™

A true odour neutraliser, TCell™ refills are available in a wide range of customer preferred fragrances from mild to intense for a clean, fresh scent that lasts. Conventional gel systems lose their fragrance intensity over the life of the refill, but TCell™ remains constant.

How a fragrance intensity is perceived is a personnel, please contact your local sales representative for samples. Our sales representative can also consult you on which fragrance to use, depending on where the dispenser is situated.

## Microburst 3000

Full impact odour control in one compact system.

- Microburst super-concentrated fragrance with odour neutraliser technology delivers long lasting room freshness.
- Easy-to-customise flexible programming for individual washroom requirements with each refill lasting up to 90 days.
- Convenient visual indicators show battery and refill life for easy servicing.
- Choice of refills: 35 concentrated fragrances, odour neutraliser (see page 114).
- Spray: 25µl

Programming options:
30 / 60 / 90 days
8 / 12 / 16 / 24 hr
5 / 6 / 7 days per week

### MICROBURST 3000 SYSTEM

Combines great looks with low-cost, effective performance.

**BATTERY GAUGE**  
Shows battery life; battery lasts up to 36 months\*  
3000 - 2 C Cell

**ALARM SYMBOL**  
Optional audio tone indicates need to change batteries and refill.

**REFILL INDICATOR**  
Shows days remaining before refills need to be changed; refills last up to 168 days.

**FLEXIBLE PROGRAMMING**  
Options include 8/12/16/24 hours per day and 5, 6, or 7 days per week.

## Air Care Fragrances

Innovative fragrances create an environment that reinforces the fact that the washroom is clean and safe to use.

- Long lasting fragrance intensity that washroom users notice and appreciate.
- Over 25 customer-preferred fragrances to choose from.

### Mild Fragrance Intensity Chart Intense

Citrus fragrances characterised by fresh citrus scents such as lemon, orange, lime and grapefruit.

Fruity fragrances characterised by fruity notes such as apple, pear, plum, mango and melon.

Floral fragrances characterised by floral notes such as rose, jasmine, violet and green notes.

Herbal fragrances characterised by herbal notes such as rosemary, mint, coriander, lavender and sage.

Fougere fragrances characterised by cologne-type notes such as lavender, moss and wood.

Oriental fragrances characterised by notes such as spices, sweet balsams and resins.

Gourmande fragrances characterised by notes such as vanilla.

NEW!  
Spa Fragrance

Energising Spa. Features a bold, revitalising citrus fusion of mandarin leaf and pomelo enhanced with the fresh essential oils of bergamot, grapefruit, and lime to invigorate and recharge the spirit.

NEW!  
Spa Fragrance

Relaxing Spa. Features calming, herbal notes of chamomile and lavender intertwined with a soothing blend of musk, amber, and orchid to soothe the senses.

NEW!  
Spa Fragrance

Purifying Spa. Features crisp, floral notes of white lily, rose, and jasmine that harmonise with soft sandalwood, juniper berry, and lemon grass oils to promote clarity and boost concentration.

The Pump Spray dispenser requires 2 x D Cell Alkaline batteries - last up to 2 years (sold separately).

# How can you make sure your washroom surfaces are clean?

We all know that visible dirt is only half the story. Dirt invisible to the naked eye is the biggest threat to health and hygiene, with dangerous microbes being spread by human contact and surviving for up to 48 hours. Keeping toilets and urinals clean and odour-free is therefore an essential part of any cleaning programme.

Rubbermaid's range of surface, pipe and drain cleaning products and systems ensures that toilets and urinals are always clean, always fresh and always presentable.

### Automatic Fixtures & Cleaners

- **Automated dispensing**  
Powerful hygiene formulations are dispensed automatically in measured doses and flushed into the toilet or urinal.
- **Blockages prevention**  
Lime scale and hard water deposits can lead to full-scale blockages. Rubbermaid's automated dispensers help prevent these troublesome deposits from forming in traps and pipes.
- **Odour-causing scale removed**  
Uric scale build-up causes unpleasant odours. Prevent its formation with Rubbermaid's range of products.

### Seat & Handle Cleaners

- **Clean surfaces**  
Concentrated formulations creating a powerful cleaning foam that reduces both surface stains and scale with each flush.

#### DID YOU KNOW?

The average toilet seat harbours 49 different types of bacteria per square inch.

# WASHROOM SOLUTIONS: Surface care

## AUTOMATIC FIXTURES & CLEANERS

### AutoCleaner

Automated toilet and urinal cleaning.

- Automated toilet and urinal cleaning.
- Automatically reduces and prevents scale and stains on surfaces.
- Formulations that help to control the growth of microorganisms. Touch-free operation reduces the risk of cross infection.
- Eliminates bad odours at source and helps to maintain an odour-free environment.
- Digital dispenser communicates with Water Management.
- 6000 doses.

### Digital Dispenser

- Ideal for tailored operation with advanced dispensing programme settings.
- Automatic cost control – controlled operation helps to save labour and service costs.

Programming options:
30 / 60 / 90 days
8 / 12 / 16 / 24 hr
5 / 6 / 7 days per week

1817010

1817011

1817009

**7X** MORE CFU per ml than traditional Bio products!

### AutoClean Refills

- **Purinel cleaner**  
Reduces hard water built-up and helps to control the growth of microorganisms.
- **100 million CFU x 1 ml.**
- **Bio-Purinel**  
Prevents uric scale build-up and maintains pipes, traps and drains.
- **Purinel Descaler**  
Effective control of limescale and hard water build-up.

## Water Management AutoFlush System

Automated water management system for urinals operating with a header tank.

- Regulated water flow ensures maximum efficiency of AutoCleaner with BioPurinel refills.
- Saves money by reducing water consumption.
- Keeps urinals regularly flushed and clean.
- Reduces the risk of blockages by regular controlled flushing.
- Reliable trouble-free operation.
- Communicates with AutoCleaner.

R0140051

Ref	Description	Dimensions	Colour	Pack
R0140051	Water Management AutoFlush White	15.2 x 11.3 x 11.3 cm	<input type="checkbox"/>	1

The system requires 4 x AA Cell Alkaline batteries - last 1 to 2 years (sold separately).

## Purinel Bio - Hard Surface Cleaner

- Combines biodegradable surfactants, friendly bacteria and fresh fragrance
  - removes the Biofilm, source of organic waste build-up and odours hidden deep in floor and wall grout lines.
- Combines cleaning with odour removal and helps to control the growth of microorganisms
  - cuts down on cleaning time and material costs.
- Guaranteed high bacterial counts – 70 million CFUs per concentrated ml
  - keeps working after being applied.
  - Mop water disposed of after cleaning through the drain continues the bioactive cleaning.
- Breaks down uric salts and scale naturally
  - enzyme technology breaks down the bacteria in the accumulating uric scale, without the use of harsh or corrosive chemicals.
- Suitable for use on all walls, floors and hard surfaces in a multitude of public and commercial washroom settings:
  - Leisure & Health Clubs
  - Airports, trains & train stations
  - Locker rooms
  - Retail
  - Food Service

### How to use

- Dilution rate: 1 part concentrate to 10 parts water for first three days. 1 part concentrate to 40 parts water each subsequent application.
- Shelf life: 2 years.
- Tiled walls, floors, hard surfaces, fixtures & fittings.

Use with Rubbermaid PULSE™ Microfibre Floor Cleaning System (see page 57) to maintain toilet floors in prevention of uric scale staining.

# WASHROOM SOLUTIONS: Sanitary care

## Sanitary Waste Bins

A practical and efficient way to dispose of sanitary waste hygienically.

- Slimline design and reduced height allows the bin to fit comfortably into washroom cubicles for easy access without restricting space.
- Hands-free, foot pedal operation limits direct contact.
- Smooth, ridge-free design is easy to wipe down and does not harbour dust or dirt.

### 20L Sanitary Waste Bin

- Ideal for larger washrooms.
- Front opening lid.

### 12L Sanitary Waste Bin

- Ideal for modern washrooms with smaller cubicles.

## Nappy Bins

High capacity bins for disposing of used nappies.

- High capacity discretion chute deals efficiently with bulky waste.
- Smooth surfaces that are easy to clean.
- Designed to fit under standard height worktops.
- Incorporates handles for easy carrying.
- Nap2Ped: Touch-free pedal operation.

Ref	Colour Code	Description	Dimensions	Capacity	Colour	Pack

## Step-On Bins

High capacity bins for safe disposal of used nappies.

- Tight-fitting, overlapping lid helps contain odours.
- Rounded corners and smooth contours for easy cleaning and disinfecting.
- Tough, puncture resistant, all-plastic. Construction won't rust or dent, chip or peel.
- Quiet, heavy-duty pedal.
- Optional rigid liners for FG624300GRAY, FG624600GRAY, FG614500, FG614600 containers provide a leak-proof base to help contain liquids.
- Containers FG614300, FG614400, FG614500, FG614600 are TÜV-approved.
- NHS fire testing approved FG614600.

Stabilisation roll on FG614600.

# WASHROOM SOLUTIONS: Accessories

## Baby Changing Stations

Foldable and Compliant with all global safety standards.

- Two models: vertical or horizontal.
- Large, deep bed with adjustable safety belt.
- Foldable design provides space optimisation.
- Easy to reach aluminium hooks on both sides for easy access to diaper.
- Built-in shelf accommodates baby powder and other small items.
- Easy one-handed operation allows for safer opening and closing while leaving the other hand free.
- Antibacterial protection inhibits the growth of bacteria that causes odours and stains.
- Safe and ergonomic design that meets all applicable standards ASTM or EN 12221-1.
- Liner dispenser with moisture barrier on easy-to-service holds (up to 40 liners FG781788WHT each).
- Optional protective liners sold separately (FG781788WHT).

### EASY ONE-HANDED OPERATION

Allows for safer, one-handed opening and closing while leaving the other hand free.

### BUILT-IN SHELF

Built-in shelf accommodates baby powder, cell phone, or other small items.

### MOISTURE BARRIER LINERS

Easy-to-service dispenser holds up to 40 liners (FG781788WHT).

### EASY REACH HOOKS

Hooks on both sides allow user to access diaper bag while keeping child secure.

## HOW TO BECOME HACCP-COMPLIANT WITH RUBBERMAID COMMERCIAL PRODUCTS?

HACCP is a Process Control system that provides guidelines to avoid food contamination during the food preparation process and prevent unsafe food to be served or delivered. Since 2006 the European Community Directive has prescribed the implementation of the HACCP process in EU countries (EC N°852/2004 and EC N°853/2004).

### RECEIVING GOODS

#### Challenges:

- Slow handling of goods can lead to a temperature control failure and increased risk of bacteria growth.

#### Rubbermaid Solutions:

- Handle goods quickly and efficiently with our easy manoeuvrable and high capacity dollies and trucks.

### STORING INGREDIENTS

#### Challenges:

- Unclean equipment and incorrect product storage can lead to contamination and deterioration of ingredients before use.
- Need to follow FIFO management.
- Need to quickly identify contents for inventory and freshness check.

#### Rubbermaid Solutions:

- Our complete food storage system ProSave® keeps ingredients dry and safe from external contamination.
- Safety Storage bins have a FIFO barrier which allows for safe ingredient rotation.
- We also offer small and clear containers.

### PREPARING AND COOKING

#### Challenges:

- Need to reduce the risk of cross-contamination while handling food (e.g. avoid contact between raw meat and cooked ingredients).
- Utensils and GN pans can melt or chip and create room for bacteria build-up.

#### Rubbermaid Solutions:

- Using our colour coded cutting boards will help you to manage unsafe food during the preparation process.
- Heavy Duty High heat GN pans are rated up to 190°C, reducing the risk of melting or breakage.

## Why do you need to comply with HACCP guidelines?

- You avoid costs associated with poor food hygiene.
- You protect your reputation and image.

### TRANSPORTING AND SERVING

#### Challenges:

- Transportation: inadequate insulated containers influence the heat/cold chain.
- Dented metal food pans favour bacteria build up.
- Ice management: Ice handling illnesses are caused by contaminated hands or utensils.

#### Rubbermaid Solutions:

- Our Catermax™, ProServe® and insulated carriers ensure that the temperature chain is respected.
- GN hard and soft lids protect contents from physical hazards.
- Dedicated ice handling system to reduce risk of cross-contamination and improve employee safety.

**Respect**  
Temperature  
chain while handling or  
TRANSPORTING FOOD

### WASTE MANAGEMENT

#### Challenges:

- Inappropriate waste handling can result in cross-contamination because of contact with contaminated waste.

#### Rubbermaid Solutions:

- Step-on Containers: foot operation avoids contact between hand and contaminated waste.

eliminate all  
contact  
with waste products

### CLEANING

#### Challenges:

- Residues on hard-to-clean pans or containers: bacteria build up.
- Inappropriate equipment: inefficient cleaning.
- Area not disinfected efficiently after work.

#### Rubbermaid Solutions:

- Non-stick cold or high heat GN pans, smooth surface and rounded shape containers ease cleaning process.
- Pulse™ will help improve cleaning tasks.
- Hygen™ Microfibre mops and cloths are one of the best bacteria removers on the market.

make  
hygiene  
intuitive

# PROFESSIONAL DIGITAL SCALES

## Compact & High Performance Digital Scales

- Reinforced design protects the internal and external scale components from the day-to-day abuse of the professional kitchen.
- Portion count feature keeps track of portions measured.
- Antimicrobial protection helps prevent the growth of bacteria in between cleaning.
- Removable stainless steel platform.
- AC adaptor included, or can be used with 4x AA batteries (High Performance)/ 4x AAA batteries (Compact). Batteries not included.
- Read-out pounds, ounces, and grams.

5 Kgs

6 Kgs

## Premium Dishwasher-safe Digital Scale

- Innovative removable shell design tolerates a wide range of temperature and humidity changes making it dishwasher-safe and durable for all professional kitchen environments.
- Calculate feature promotes kitchen efficiency by determining portion sizes or number of portions needed.
- Read-out pounds, ounces, and grams.
- AC adapter and internal rechargeable battery included; can be used with 4x AA batteries (not included).
- Plastic shell or stainless steel shell.
- Additional oversize platform included (28.2 x 19.4 cm).

# How can you improve your food decanting and storage facilities?

Serving and handling food carries a responsibility to store the food correctly – ensuring frozen and chilled food is stored at the correct temperatures and protected from cross-contamination.

## Some of the challenges you may face:

- Labelling and identification are vitally important in order to allow staff to use stock in the correct date-order.
- Following FIFO (First In, First Out) food handling procedures can help to gain control of food stocks and reduce wastage.
- Space constraints – using efficient methods of storing food can help to reduce wastage and improve stock rotation.

Rubbermaid's complete range of food storage and decanting solutions allow you to greatly improve the efficiency of your food storage processes.

- Handle food quickly and efficiently with Rubbermaid's dollies and trucks.
- Our complete storage system, ProSave®, will help you to keep ingredients dry and safe from contamination.
- A wide selection of clear container types to aid the quick identification of contents.
- Our safety storage bins have a 'FIFO barrier' which provides safe ingredient rotation.

## DID YOU KNOW ?

- Receiving food safely

Food delivered to your business must be:

- if it is chilled, at a temperature of 5°C or below.
- if it is hot, at temperature of 60°C or above.
- if it is frozen, not partly thawed.
- if food does not meet these requirement you must reject that food.

## DID YOU KNOW ?

- Store safely.
- Keep storerooms cool, dry and well-ventilated.
- Keep dry food out of direct sunlight.
- Do not store chemicals in the area.
- Store dry foods at least 15 cm off the floor.
- Do not store cleaning equipment in storeroom.

## ProSave™ Safety Storage Ingredient Systems

Improve safety and productivity with new Safety Storage Bins for smaller quantities of ingredients. Lid design provides access to ingredients while stacked, on a shelf or under a prep table.

- Lid design allows for one-handed access to ingredients while stacked.
- Clear windows and ingredient labels for easy identification of contents.
- Integrated 2 Cup Safety Portioning Scoop and hook provide dedicated scoop storage for safe ingredient portioning.
- Assists in complying with HACCP guidelines.
- FIFO (First In, First Out) barrier aids in proper rotation of ingredients.

- Dual opening and closing allows for one-handed access while stacked on a shelf or a table.

- Lid locks onto base to protect ingredient integrity.

- The scoop hook allows the safe storage of the scoop in the container with no contact between the handle and the food.

- FIFO Barrier supports first in, first out rotation of ingredients for improved quality and safety.

- Front and rear handles aid with safe and stable portability.

FG9G6000WHT

FIFO barrier for proper rotation of ingredients.

### PRODUCTIVITY

- Scoop Hook allows scoop to be easily accessible in every Ingredient Bin.

### SAFETY

- Scoop handle is held out of Ingredient Bin, preventing cross-contamination.

### SECURITY

- Snap fit secures to base to make handling easier.

### COMPLIANCE CODE FACTS

Rubbermaid Commercial Products' Ingredient Bin Systems are the only containers on the market that allow scoops to be safely stored inside the bin while also completely complying with HACCP-guidelines.

## ProSave Ingredient Bin Systems

Store, transport and measure ingredients safely.

- Scoop hook system reduces cross-contamination and provides quick access.
- Clear windows and ingredient labels for easy identification of contents.
- Clasp secures lid on base, protecting quality of ingredients.
- Durable, industrial-grade structural web plastic construction; smooth surfaces for easy cleaning.
- Casters allow bins to be easily moved between multiple prep stations.

## Food Boxes and Lids

- Clear for visibility, durability and stain-resistance.
- Tight-fitting snap-on lids.
- Freezer safe.
- Date control panels on boxes and lids for easier inventory control.
- Available in standard industry sizes to accommodate existing storage racks, counters, etc.

## Dual Action Lids

- One handed access.
- Easy access to contents without removing the lid.
- Keeps food covered or uncovered when needed.

## Drain Trays and Colanders

- Ideal for multiple food storage and preparation applications.
- Drains food quickly and conveniently. Ideal for marinating and thawing foods.
- Universal lid fits all major brands of clear boxes.
- Domed design promotes liquid drainage.
- Promotes airflow within food boxes and separation from moisture.
- New drain hole design with softened edges prevents food damage.

ProSave® Dual Action Food Box Lids:  
One-Handed Access  
For improved flexibility and efficiency.

Colanders:  
Promotes liquid drainage.

Drain Trays:  
Domed design allows for improved  
drainage to keep food longer fresh.

## Space Saving Square Storage Containers

Stackable containers store more in less space.

Square Storage Containers.

- Square containers store up to 25% more on a shelf than round containers in the same space.
- Available in break-resistant clear material for visibility or durable white polyethylene; both with smooth surfaces for easy cleaning.
- Manage food inventory with easy to read measurement graduations – red for quarts and blue for litres.
- Durable handles for easy transport and drain holes for proper washing and drying.
- Temperature range for clear containers: -40°C to 100°C.
- Temperature range for white containers: -28°C to 65°C.
- Assists in complying with HACCP guidelines.
- Compliant to NSF and EU standards certified by LNE laboratory.
- Commercial dishwasher safe.

### Lids

- Snap-tight fit reduces leakage, helps prevent spoilage, and limits cross-contamination.
- Corner pull tab for easy lid removal.
- Lids available in two sizes to fit all containers, eliminating the need for multiple lids.
- Compliant to NSF and EU standards certified by LNE laboratory.
- Commercial dishwasher safe.

## Round Storage Containers

Store food safely and efficiently.

- Round shape allows more efficient air circulation for cooling in the refrigerator or freezer.
- Stackable handled containers available in semi-clear polypropylene.

### Polypropylene for better visibility

- Temperature range for semi-clear containers: -28°C to 65°C.
- Compliant to NSF and EU standards certified by LNE laboratory.
- Commercial dishwasher safe.
- BPA-Free.

### Lids

- Positive-lock lids (double wall seal) with corner pull tabs for keeping foods fresher.
- Writing area provided for labeling and dating of contents.
- Lids available in two sizes to fit all containers, eliminating the need for multiple lids.

# How can you make food preparation easier and safer?

The safe preparation of food is of vital importance. Cross-contamination of raw meat with ready-to-eat foods is the number one cause of food poisoning.

**Good food-handling practices include:**

- Ensuring against cross-contamination.
- Management of unsafe food, such as raw meat.
- Regular and thorough cleaning processes, reducing the risk of bacteria growth in food storage areas.
- Utensils, such as metal pans can dent during food preparation and become ineffective.

**Rubbermaid can help you avoid unsafe food handling practices by offering complete, high-quality kitchen, cleaning and food storage solutions.**

- Efficient, organised food storage in transparent space-saving containers, safety storage bins, presentation dishes or carts.
- Straight from preparation to cooking, Rubbermaid's Gastronorm Pans allow easy storage, preparation, cooking and transportation of food.
- Rubbermaid's colour-coded cutting boards help you stay organised by avoiding contact between hazardous food and safely cooked food.
- Gastronorm pans will not dent or chip, reducing the risk of bacteria build up.
- Peace of mind: Rubbermaid scrapers and spatulas will not melt or deform, even at high temperatures.

**DID YOU KNOW ?**

- Avoid contact between raw food and cooked.
- Safely cooked food can become contaminated through even the slightest contact with raw food. This cross-contamination can be direct, as when raw poultry meat comes into contact with cooked food.
- It can also be more subtle. For example, do not prepare a raw chicken and then use the same unwashed cutting board and knife to carve the cooked bird. Doing so can reintroduce the disease-causing organisms.

## Gastronorm® Food Pans for cold preparations

- Gastronorm® Food Pans for cold preparations (resistant from -40°C to 100°C).
- Non-stick surfaces for easy food release, easy cleaning.
- Soft Sealing lids temperature range is -29°C to +65°C.
- Pans and Lids are commercial dishwasher and microwave safe.
- Not for use in steam table

### HARD COVER:

- Deep, moulded handles are designed with secure finger grips to minimise food contamination and contact with food.

### WRITE-IN WINDOWS:

- to facilitate date coding for inventory control.

### PEG HOLE LID:

- Peg holes are used for hang drying - lids dry faster while saving counter space.

### SOFT STORAGE LID:

- Seals on insert plan help reduce air flow to food - therefore maintaining food quality. No overlap on food pans allows easy use in transport.

### NOTCHED HARD COVER:

- Notch allows spoon to be easily available while food remains covered; it keeps spoon handle out of food, helping to prevent cross-contamination.

### DOUBLE SECURE LID:

- Easy grip tab allows for easy removal of the lid from the pan. Two-seal system makes this lid the most air tight of all the Rubbermaid options and it is ideal for longer term storage or air sensitive foods.

## Gastronorm® Heavy Duty Food Pans for hot preparations

- Heavy duty high heat material is made of a highly resistant resin.
- Heavy duty high heat material gives an excellent product clarity.
- Rubbermaid Gastronorm® Food Pans can go directly from storage to bain-marie without switching containers.
- Rubbermaid Gastronorm® Food Pans and Hard Covers are temperature-rated from -40°C to +190°C.
- Clear lids feature moulded-in, cool-touch handles designed for safe handling and convenience.
- See-through container saves time by allowing quick, easy identification of contents, also reduces food wastage.
- Rubbermaid Gastronorm® Food Pans maintain their shape and positive appearance.
- Available in amber, white or black.
- Non-stick surfaces for easy food release, easy cleaning.
- Not for use with open flame.

Both Hot and Cold Food Pans meet CEN Gastronorm® specification 631-1 developed by the European Committee for Standardisation. Both Hot and Cold Food Pans with Soft Sealing Lids are designed to fit Max System™ Racks and Carts and CaterMax™ and ProServe® Insulated Carriers. All Pans, Drain Trays and Lids are also NSF Std. 2 certified.

## Max System™ Racks and Carts

Increase efficiency by maximizing space, transportation and storage.

- An innovative system specially designed to work with Gastronorm®-sized food pans.
- Rubbermaid Max System™ components are made of impact-resistant structural web plastic.
- Easy-to-clean plastic construction that resists stains and corrosion.
- Designed with soft, rounded corners that are easy on walls, doors and other equipment.
- Ideal for use in cold / freezer rooms.
- Heat-resistant plastic construction allows hot baking pans (176° C max.) to be pulled directly from the oven and placed on the rack.
- Quiet handling and upscale design let workers move food directly from kitchen to dining room for fast restocking without repeated trips.
- Rubber casters available as option.
- NSF certified for cleanability.
- 12.7 cm swivel casters are non-marking: two lockable, two non-lockable.

FG331500WHT  
Prep Cart-End Loader  
Opening: 33 cm  
Accommodates: 8 slots

## Scoops

Multi-purpose scoops designed for better weight distribution, improved handling.

- Made of durable Polycarbonate material or white polyethylene.
- Smooth surfaces for easy cleaning.
- Dishwasher safe.
- Durable contour scoops made of Polycarbonate material, fit new ingredient bins.

FG9F7500CLR

Bouncer™ Contour Scoop (FG9F7500CLR & FG9F7600CLR) is designed for the Ingredient Bin System (page 132) the contoured design keeps hands away from food, reducing cross-contamination.

## Cutting Boards

6 colour-coded Cutting Boards and Storage Rack.

- Helps reduce the risk of cross-contamination.
- High density polyethylene.
- Non-absorbent cutting surface.
- Will not blunt knives while in use.
- Bright, easy-to-see colour-coded system.
- Enhances food safety in day to day operations.
- Commercial-dishwasher safe - will not warp from dishwashing.
- Versatile rack stores boards in vertical or horizontal position to maximise counter space.
- BPA-Free.

Colour coded system helps reduce risk of cross-contamination

## Step-On Best

A 100 l front opening Step-On Bin, meeting users' needs: cleanability, hygiene, safety, ergonomic and durability.

### Improved productivity:

- Front opening: provides easy access to the bag for emptying without the need to lift and also provides easy access for cleaning.
- The front latch simplifies the opening and closing of the doors.
- No draft angles and rounded corners for rapid cleaning.

### Ergonomically efficient:

- Robust ergonomic handle: ensures easy manoeuvrability.
- Front opening.

### Quiet Operation:

- Non-marking and quiet rubber wheels.
- Silent closing thanks to a sophisticated damping mechanism.
- Large pedal can be accessed from the sides.

### Enhanced Durability:

- Made with structural web and out of polypropylene: product can support weight without deforming; reduces product weight while maintaining strength.
- Curved lid prevents objects being placed on it.

### BAG HOLDER

- Secures standard polyliners.

### FRONT OPENING

- Easy to empty and easy to clean.

# What's the best way to stock your front-of-house furniture and equipment?

In the catering and hospitality industry, your front-of-house furniture and equipment will be in constant use and facing repeated wear. In order to provide the very best service to your customers, you need robust, presentable equipment that will help your service staff deliver the best possible service and keep your guests comfortable at all times.

**Some of the most common front-of-house problems include:**

- Inadequately insulated food transportation containers can negatively influence the temperature chain.
- Food preparation and delivery carts need to be clean, stylish and presentable when used in front of guests.
- Transporting heavy items can lead to injuries.
- Carts need to be easy to manoeuvre in busy front-of-house areas.
- Ice management: ice handling illnesses are caused by contaminated or unwashed hands or utensils.
- Ensure comfort and safety for your little guests with practical child seats.

**Rubbermaid's total front-of-house solutions provide all the answers you need for a smooth-running catering or hospitality establishment**

- Food transportation: Rubbermaid's ProServe and Catermax insulated carriers ensure the temperature chain is left unbroken.
- Gastronorm Pans and soft lids protect contents from harm.
- Rubbermaid Carts now feature an upgraded design to fit all environments, with swivel casters for easy manoeuvrability and a high load capacity to reduce transportation time and physical strains of serving staff.
- A dedicated ice handling system to reduce risk of cross-contamination and improve employee safety.
- Our Sturdy Chair and Baby Changing Stations have built-in antibacterial protection to help prevent the growth of stain and odour and minimize risk of injury.

**DID YOU KNOW ?**

- Serving food safely for waiters.

- Use serving utensils with long handles to keep hands away from food.

## CaterMax™ Insulated Carriers

An innovative system that allows hot and cold foods to be transported and served at the perfect temperature.

- Specially designed seal helps retain temperature without using unreliable gaskets that can wear out and harbour harmful bacteria.
- 3 convenient sizes to suit all requirements.
- Fresh, professional appearance in any catering situation.
- Works systematically with Rubbermaid Max System™ Racks, Carts and Gastronorm® Food Pans and Soft Sealing Lids.
- The range either comes with integral wheels or can be used with trolley for easy transportation.

## Caterer's Trolley

CaterMax™ Insulated Carriers stack conveniently for easy transport on the trolley.

- Slotted, non-skid surface helps prevent load shifting.
- Durable structural foam deck will not rust, dent or bend.
- Three-position handle lets users push, pull or fold flat for use as a dolly.
- 4 non-marking casters, including 2 locking.
- Optional rubber casters available.

## FOOD SAFE ZONE

CaterMax™ Insulated Carriers retain temperature better than competitor carriers to preserve food freshness and quality.

Serpentine seal for better cleanability maintains safe food temperatures during transport.

Smooth plastic surfaces clean easily; resist dents and scratches.

CaterMax™ features durable plastic hardware that is easy to latch and carry.

## PROSERVE® Lightweight Insulated Carriers

Four layers of thermal retention provide lightweight option for safely transporting food and beverages.

- Keeps hot food hot and cold food cold safely for four hours.
- PROSERVE® carriers are between 36%–72% lighter than traditional rigid competitive products (see chart).
- Time temperature monitoring and labelling is easy with large identification window secured to each carrier.
- Range includes: 3 End Load Carriers (small, medium, large), 2 Top Load Carriers (half pan, full pan).

### RIGID INTERIOR INSULATION

Expanded polypropylene (EPP) insulation is lightweight and over 300% stronger than typical Styrofoam® Insulation. EPP resists flaking, cleans easily, and provides uncompromising support.

### COMMERCIAL GRADE NYLON EXTERIOR

Strong (840 denier) nylon surrounds and protects the inner layers.

### NON-WOVEN POLYESTER INSULATION

Nearly an inch thick, it is the same insulation used in high-performance cold-weather gear. Will not retain moisture or odours.

### REFLECTIVE VAPOUR BARRIER

Helps maintain even temperature throughout the carrier, so foods maintain their ideal temperatures.

### ALUMINIUM RUNNERS

Provides pan support in End Load Carriers and are wide enough to accommodate any lid type.

No.	Heat loss & Cold Retention		Weight Comparison		
	Heat Loss in °C/Hr*	Heat Gain in °C/Hr*	PROSERVE®	Traditional Equivalent †	Difference

## Professional Delivery Bags

Designed especially for professional food delivery:  
hot and cold applications.

- Nylon construction for years of performance.
- 2 cm of polyester insulation for maximum thermal performance and no moisture or odour retention.
- Large content labeling windows.
- Nylon thread that will not deteriorate with use.
- FG9F3500 / FG9F3600 / FG9F3700 and FG9F4000 have a Velcro system closure and handles.
- FG9F3800 / FG9F3900 have commercial-grade zips, closures and handles.
- Hanging loop for drying and storage.
- Rubbermaid "Steam Release System" enhances thermal retention properties of our ProServe® Delivery Bags in case of heavy uses: steam will be released more effectively and moisture retention will be drastically reduced.

## Sturdy Chair™ Baby Seats with Microban® Antimicrobial Protection

Sturdy Chair™ Baby Seats make safety and cleanliness a priority for your youngest guests.

- Contemporary design with Microban® technology makes it easier to clean than wood.
- Microban® provides all-over protection from bacteria growth that can cause odours and staining.
- Meets TUV and European safety standards.
- Stackable design makes for easy storage.
- Fits under standard table without tray.
- 3 point harness with one handed release.

\*R050836

\*R050835

\*R050837

\*1865517

**NEW!**

"Structural Web" leg bracing bar for added strength. Chairs and Trays available in platinum, dark green, red and black.

- Convenient handle for safe, one-handed manoeuvring throughout the dining room.
- One-piece T-bar and safety harness safely helps to secure child.
- Durable moulded parts are easy to clean.

Including sticker for certified safety: placed at the entrance of a restaurant shows that the safety for little guests is a major concern.

- Microban® antimicrobial protection helps prevent the growth of stain and odour causing bacteria.
- Microban® protection is built into the chair during the manufacturing process and will not wash or wear off during the life of the chair.
- Sturdy Chair™ looks newer longer with built-in Microban® antimicrobial protection.

ASTM F404-04 and TUV Certification Standard Consumer Safety Specifications for high chairs that ensures the design and function of the Sturdy Chair™ Baby Seat meets safety specifications intended to minimize injuries to children under normal use.

\*R050836

FG781588 Sturdy Chair™ Tray available in platinum, dark green, red and black.

### Sample antimicrobial effect

This information is based upon standard laboratory tests and is provided for comparative purposes to substantiate antimicrobial activity for non-public health applications. Microban technology is not designed to protect users from disease-causing microorganisms. Microban protection inhibits the growth of microorganisms that cause stains, odours and product degradation. Antimicrobial action limited to product surface.

## Baby Changing Stations

Foldable and compliant with all global safety standards.

- Two models: vertical or horizontal.
- Large, deep bed with adjustable safety belt.
- Foldable design provides space optimisation.
- Easy to reach aluminium hooks on both sides for easy access to diaper.
- Built-in shelf accommodates baby powder and other small items.
- Easy one-handed operation allows for safer opening and closing while leaving the other hand free.
- Antibacterial protection inhibits the growth of bacteria that cause odours and stains.
- Safe and ergonomic design that meets all applicable standards ASTM or EN 12221-1.
- Liner dispenser with moisture barrier on easy-to-service holds (up to 40 liners each).
- Optional protective liners sold separately (FG781788WHT).

### EASY ONE-HANDED OPERATION

Allows for safer, one-handed opening and closing while leaving the other hand free.

# Why is plastic the best option for material handling efficiency?

Fed up with your metal tools rusting and wooden products rotting? Plastic is the best option for providing reliable, long-lasting material handling equipment that will not let you down.

**Rubbermaid's material handling products are super-strong tools that perform in even the toughest environments.**

**Built from durable plastics such as HDPE, structural foam or structural web, Rubbermaid provides lightweight and easy-to-use products that make material handling simpler, more comfortable and more cost-effective.**

- Lightweight and easy-to-clean construction.
- Quick and easy assembly using commonly available tools.
- Optimum service life: structural foam deck construction will not rust, dent, chip or splinter.
- Virtually maintenance-free.

## Built to last

Many of Rubbermaid's material handling products are manufactured from durable structural foam – providing a lightweight, easy-to-clean and strong product that performs in even the toughest environments.

Duramold™ decks are formed from a precision-engineered resin and metal composite that is lighter than typical steel or wood products without sacrificing strength. This allows Rubbermaid to reduce the overall weight and improve ergonomics.

Duramold has the highest strength-to-weight ratio compared to metal, wood and solid plastic decks. This makes Duramold-based products 35% lighter but still able to carry the same payload weight.

## Strength and durability

Structural foam moulding eliminates the need for a metal frame and provides a seamless, leak-proof body that won't rust, chip, dent or peel.

## Why choose plastic over metal or wood?

There are three main reasons why plastic is a better choice for materials handling than metal or wood:

### Versatility

- Delivers high strength design possibilities.
- More impact absorbent.
- Reduces passing damage to walls, doorways and fixtures.

### Low maintenance and long product life

- Will not rust, dent, chip, peel or splinter.
- No re-painting required.
- Easily cleaned.

### Safety

- Non-conductive of electrical currents.
- Waterproof and will not rot.
- Resistant to most chemicals.
- Quiet operation.

### Plastic will not:

Rust

Chip

Dent

Peel

# How can you avoid the pain and costs associated with repetitive strain injury and MSDs?

Rubbermaid's material handling products are designed to meet the demands of any workplace – from versatile and attractive front-of-house solutions to the rugged and durable workhorses required in manufacturing environments.

## Innovative solutions

Products like Rubbermaid's Convertible Cart are designed for applications where saving time and money are a priority, while still remaining safe and simple to operate.

## Committed to safety

We are committed to designing products that help promote safe work practices, including load security points, ergonomically-designed handles and lightweight construction for ease of manoeuvrability.

## Ergonomics

Many types of work activities can cause musculoskeletal disorders (MSD). As well as the physical pain experienced by the sufferer, MSD are also costly for employers:

- Medical and administrative costs.
- Lost productivity.
- Absenteeism.

## Move loads safely and efficiently

The variable grip-height handle on Rubbermaid carts and trucks improves manoeuvrability and reduces muscle strain for almost every user, regardless of their height.

TRADITIONAL CART HANDLE DESIGN

Angled handle helps keep wrist and bones in forearm aligned for optimum leverage while turning.

IMPROVED VARIABLE GRIP-HEIGHT HANDLE

## The EU has passed several directives relating directly or indirectly to MSD:

EU directives 90/269/EEC, 89/391/EEC and 89/654/EEC legally oblige the employer to provide staff with safe working environments and appropriate ergonomic equipment.

Metal - dents and rusts

Wood - Splinters and rots

## Convertible A-Frame Truck

Unique design combines the bulk load capacity of standard Panel or Bar Stock Trucks with the functionality of a Heavy-Duty 2-Shelf Cart. Perfect solution for transporting oversized, heavy loads of sheet goods, pipe, lumber, bar stock, tools and supplies in one trip.

- Easy convertibility - Spring-loaded release latches safely allow one or both top shelves to be folded down.
- Durable structural foam construction with steel reinforced frame and side rails hold bulky sheet goods firmly in place during transit.
- Large platform deck surface area and 900 kg capacity improve productivity.
- Deck holds up to 30 cm depth of sheet goods, 15 cm on either side of truck.
- Four articulating outrigger arms fold down to cradle lumber, pipe and bar stock.
- 90 kg capacity per side.
- Moulded-in tie-down slots for load security.
- Textured deck surface reduces load slippage.
- Perimeter channel on lower deck retains small items.
- Removable, powder coated lower steel retaining bars.
- Two fixed, two swivel heavy-duty polyolefin casters with brakes, for optimal control, manoeuvrability, and long wear life over a variety of surfaces.

## Convertible Platform Truck

Unique, convertible design quickly transforms the bulk load capacity of standard Platform Truck to the functionality of a Heavy-Duty 2-Shelf Cart. Perfect solution for transporting a variety of materials in multiple user environments with one product.

- Quick conversion - Push-button release latch makes conversion from heavy-duty cart to platform truck effortless.
- Two product configurations in one:
  - 61 cm x 142 cm Heavy Duty Platform Truck, 450 kg overall capacity.
  - 61 cm x 91 cm Two Shelf Heavy Duty Cart, 340 kg overall capacity.
- Ergonomic handle design improves control and worker safety.
- Powder coated steel handle with latching hasp to prevent unintended removal.
- Repositionable storage caddy improves efficiency and productivity.
- Steel reinforced deck for enhanced durability.
- Moulded-in tie-down slots for load security.
- Textured deck top reduces load slippage.
- Deep cart top lip and perimeter deck channel retain small items.
- Two fixed, two swivel heavy-duty casters provide optimal control and manoeuvrability.
- Rubber – floor surface protection, quiet operation, shock absorption.
- Pneumatic – protects load over rough indoor and outdoor surfaces.

FG449700BLA

### U-BOAT CONFIGURATION

- U-boat configuration helps keep stacked or bulky goods in place; 450 kg capacity.

### BUILT-IN SAFETY FEATURES

- Unique slide-locking latches prevent unintended handle removal.

### RUGGED CONSTRUCTION

- Duramold's™ exclusive, precision-engineered resin and metal composite structure provides maximum load support.

## Heavy-Duty Platform Trucks

Ideal for moving large, heavy loads – indoors and out.

- Ergonomic handle design improves control and worker safety.
- Steel reinforced deck for enhanced durability.
- Moulded-in tie-down slots for load security.
- Textured deck surface reduces load slippage.
- Perimeter deck channel retains small items.
- Powder-coated steel handle with retainer clips prevent unintended removal.
- Two fixed, two swivel casters for optimal control and manoeuvrability.
- Two locking casters compliant with the EN 1757-3.

FG440658BLA

## Work-Height Platform Truck

Unique, adjustable design places deck at comfortable, ergonomic height.

- Ergonomic handle design improves control and worker safety.
- Steel reinforced deck for enhanced durability.
- 900 kg weight capacity for heavy loads.
- Perimeter deck channel retains small items.
- Powder-coated steel handle with retainer clips prevent unintended removal.
- Two fixed, two swivel heavy-duty rubber casters for optimal control, manoeuvrability, and cushioned load.
- Two locking casters available separately.

R050827

Adjustable platform deck reduces the strain of bending and lifting. SKUs R050827 adjust from 70 to 90 cm high in 10 cm increments.

## Side Panel Platform Truck

Ideal for transporting and retaining small packages and materials.

- Ergonomic handle design improves control and worker safety.
- Side panels easily remove to accommodate oversize loads.
- Versatile design allows for multiple configurations, 1 to 4 panels.
- End-panel retainer clips prevent unintended removal.
- Side panel cut-outs allow for ergonomic access of contents.
- Steel reinforced deck for enhanced durability.
- Moulded-in tie-down slots for load security.
- Textured deck surface reduces load slippage.
- Perimeter deck channel retains small items.
- Casters allow floor surface protection, quiet operation, shock absorption.

R050831

## 5th Wheel Wagon Truck

Ideal for moving heavy loads in manufacturing plants, warehouses, maintenance shops and outdoor environments.

- Fifth wheel steering ensures tight turning radius and easy manoeuvrability.
- Vinyl grip, powder coated "T" pull handle stays upright when not in use.
- T-end is removable for towing applications (tow package sold separately).
- Steel reinforced deck for enhanced durability.
- Moulded-in tie-down slots for load security.
- Textured deck surface reduces load slippage.
- Perimeter deck channel retains small items.
- Pneumatic - protects load over rough indoor and outdoor surfaces.

## MATERIAL HANDLING: Heavy-duty

### Heavy-Duty Utility Carts Lipped shelves

Perfect for transporting materials, supplies and heavy loads.

- Two options: Top shelf flat or lipped.

- Higher, more ergonomically-shaped handle.
- Easy reach storage area.
- Hammer/ cord hook.

- General purpose hook with tool slots.
- V-notch for tubing cutting.

- Wire-spool-ready leg design.
- Locking casters.

- Ergonomic handle design improves control and worker safety.
- Easy-reach tool / accessory hooks and storage area enhances productivity and organisation.
- Customise-it fittings built in: add your own wire spools, rolls, etc.
- Optimum service life: sturdy structural foam construction won't rust, dent, chip or splinter.
- Virtually maintenance free.
- 220 kg weight capacity for heavy loads.
- 12.7 cm non-marking, gray TPR casters, 2 fixed and 2 swivel, for easy and quiet manoeuvrability.
- Universal uprights makes assembly quick and easy.
- 2 locking casters compliant with the EN-1757-3.

FG450058BLA

#### STAY ORGANISED

Easy-reach tool/accessory hooks provide additional storage. (FG452058 and FG452558 have storage caddies only)

#### WORK MORE EFFICIENTLY

Built-in tool holster and caddy keep items at hand and in place during transport.

# MATERIAL HANDLING: Heavy-duty

## Stanchion Platform Truck

Perfect for moving and storing long, bulky loads such as roll goods, pipe, carpet and linoleum.

- Heavy-duty steel corner posts provide easy loading and unloading.
- Corner posts retainer clips prevent unintended removal.
- Steel reinforced deck for enhanced durability.
- 1100 kg weight capacity for heavy loads.
- Moulded-in tie-down slots for load security.
- Textured deck surface reduces load slippage.
- Perimeter deck channel retains small items.
- Two fixed, two swivel heavy-duty polyolefin casters for optimal control, manoeuvrability, and long wear life over a variety of surfaces.

## Sheet & Panel Truck

Ideal for moving large, hard-to-handle items such as sheet goods, doors, lumber, tables and piping.

- Three removable powder-coated steel vertical frames provide support for hard-to-handle loads.
- Vertical frame retainer clips prevent unintended removal.
- Steel reinforced deck for enhanced durability.
- 900 kg weight capacity for heavy loads.
- Moulded-in tie-down slots for load security.
- Textured deck surface reduces load slippage.
- Perimeter deck channel retains small items.
- Two fixed, two swivel heavy-duty polyolefin casters for optimal control, manoeuvrability and long wear life over a variety of surfaces.

## A-Frame Panel Truck

Ideal for safely moving large, bulky sheet goods.

- Durable powder-coated high-side inclined frame and side rail holds load firmly in place during transit.
- Inclined frame and side rail retainer clips prevent unintended removal.
- Large surface load area improves productivity.
- 61 cm W deck holds up to 30.5 cm depth of materials.
- Steel reinforced deck for enhanced durability.
- 900 kg weight capacity for heavy loads.
- Moulded-in tie-down slots for load security.
- Textured deck surface reduces load slippage.
- Perimeter deck channel retains small items.
- Two fixed, two swivel heavy-duty polyolefin casters for optimal control, manoeuvrability and long wear life over a variety of surfaces.

## Convertible Utility Cart

Converts from a utility cart to a platform truck in just seconds.

- Innovative, patent-pending design.
- Multi-functional productivity with improved worker well-being - saving you time and money.
- Rear wheel locks keep cart safely in place while loading and unloading.
- Total 182 kg load capacity (68 kg on top shelf and 114 kg on lower shelf)

**ERGONOMIC HANDLE**  
Designed for comfort.

**RECESSED TOP**  
Helps retain items on shelf during transport.

**NARROW PROFILE**  
Easily navigate through doorways and hallways.

**EXTENDED DECK**  
Makes loading the lower shelf easier.

**CASTERS (2 FIXED, 2 SWIVEL)**  
Four 12.7 cm non-marking (two rear locking) casters help cart move easily, even through tight spaces.

## TradeMaster® Mobile Cabinets & Work Centres

Easily transport tools and supplies where you need them.

- Features locking cabinet doors and 10 cm deep drawers for versatile tool and supply storage and organisation.
- Drawers feature commercial quality, ball bearing slides.
- Metal reinforced structural foam shelves engineered for durability.
- Arrives 90% assembled.

Easy-Grip handle reduces wrist and back strain.

Moulded-in perimeter channel on top shelf.

Central locking system for security.

Open-front top shelf allows easy access to work surface.

Two non-marking 12.7 cm casters and two swivel casters with full-locking mechanism.

Cabinet doors swing 270° for easy access.

Central locking. FG453388

Deep metal drawer box supports 18 kg.

## Trade Cart

Moves productivity right to the work site – a total tool storage and mobile workbench system.

- Four compartmentalised boxes to store assorted parts and hardware.
- Optional cabinet kit creates fully enclosed, lockable storage compartment to help keep tools and materials secure.
- Two storage bins hold essential hand tools and supplies.
- Designed to move easily over hard surfaces, through lifts and doorways.
- Flat surface at ergonomic height provides convenient work area.
- 4 large non-marking casters (2 swivel, 2 locking).
- Compatible with FG335388 Refuse Bin and FG335488 Utility Bin (page 171).

Fully enclosed lockable storage compartment provides tamper resistant security.

FG618000BLA

FG618000 + FG6180L7RED

## Ladder Cart

Ladder Cart provides greater mobility, enhanced access, safe ladder handling and minimal storage requirements.

- Ladder Management – Mid-cart ladder positioning creates stability, security, protects walls and doors from damage. Conveys up to a 1.8 m folding step ladder through standard 201 cm doorway.
- Manoeuvrability – Compact footprint decreases turning radius for easier transport of tools and materials.
- Security – Metal cabinet and lock provide security and safety.
- Capacity – Smarter use of vertical space increases capacity. Holds up to 226.8 kg.
- Organisation – Shallow shelves make it easier to locate parts. Long Item Storage – Cart can be configured to transport florescent tubes, ceiling tiles etc.
- Casters -12.7 cm non-marking casters with brakes allow cart lock-down for safety.
- 2 swivel casters with brakes and 2 rigid casters.

**TOOL HOLDER**

Keeps small tools handy.

**FASTENER CADDY**

Empty caddy can be flipped over to create a level work surface.

**LOCKING STRAP**

Secure ladders with a simple snap.

**CONDUIT/PIPE HOLDER**

Moulded handle holds pipe or conduit for clamping and trimming.

## Triple™ Trolley

Three position handle ensures optimum handling whatever the load.

- Very robust construction, does not dent or rust.
- Wide, easy-to-load deck which is perfectly stable when transporting goods.
- With handle folded flat, the non-slip deck can be used as a dolly.
- Large non-marking casters give greater stability over all surfaces.
- Cut away sections in decks provide hand hold for easy carrying when handle is folded.
- Folds away for space efficient storage.
- 2 swivel and rigid casters.

# How can you ensure the best service in your front of house areas and still use the best-looking equipment?

First impressions count. When a customer walks into your restaurant or hotel they make instant judgments about the presentation of the venue. Make sure you don't turn-off your customers – use Rubbermaid's range of professionally-styled, organised and easy-to-clean service carts.

Musculoskeletal disorders (MSDs) can be caused by repetitively moving overweight or awkward equipment. MSD can be avoided through the use of easily manoeuvrable, ergonomic and carefully designed high-capacity transportation equipment.

### Did You Know?

More than 600 million working days are lost due to work related ill health each year in Europe.

Rubbermaid's materials transportation equipment for office and hospitality environments are specifically designed to help you and your staff complete their daily tasks quickly and easily.

#### The range includes the following features:

- New, upgraded designs to fit every environment.
- Swivel casters for easy manoeuvrability.
- Ergonomic handles to reduce physical strain for users.
- High load capacity to reduce transportation time.
- Greater durability and lower cost compared to stainless steel alternatives.
- Ultra-quiet mark-resistant casters and plastic construction help keep unwanted noise to a minimum.
