

Scensibles® SecureFit360® Receptacle Liner

Key Features

Universal Poly Liners Bags

Featuring the SecureFit360® liner for safe removal of waste - The wraparound handle eliminates the need to reach into receptacle to remove the liner. The SecureFit360® fits most surface mounted receptacles. U.S. Patent No. 9,957,105 & 8,690,429

New Improved SecureFit360 HD liner bags are more rigid to provide a better formed fit, making installation and removal easier and more efficient. The frosted color masks the contents yet still allows cleaning staff to see and avoid potential needles and other sharps. The heat seal at the top strengthens the built-in wrap around strap and makes it appear neater on the receptacle. Not only is the thinner high density bag made with considerably less plastic than the original low density SecureFit360, it sends 50% less material weight to a landfill than Kraft waxed paper bags.

SKU	LBSF500HD
Brand	SecureFit360®
Color	Frosted Clear
Construction	Wraparound Handle
Country of Origin	US
Format	Sanitary Waste Receptacle Liners
Fragrance	Lightly Scented
GTIN ITF-14	10895370002191
GTIN UPC	895370002194
HTS CODE	3923.21.00.95
LTL Only	No
Material	12 micron high density polyethylene
NMFC	150930S2
Packaging Put/Up	500/cs
Pallet Hi	16
Pallet Ti	12
Qty per Pallet	192
Refrigerated	No
Sell UOM Height (inches)	3.00
Sell UOM Length (inches)	13.00
Sell UOM Weight (lbs.)	5.00
