Georgia-Pacific

A Solution for Every Space. Even Small Spaces.

When you put SofPull® Centerpull paper towels in patient rooms, you'll treat your staff and patients to better care.

The towels are soft, absorbent and gentle on hands, yet tough enough to clean up messes. And the durable one-towel-at-a-time dispenser helps reduce cross-contamination – and is easy to refill. Plus, it's battery-free.

Can be mounted horizontally under cabinets and other tight spaces.

Just Right for Healthcare

- The dispensing nozzle—when used with SofPull® paper towels—can help reduce waste with one-at-a-time dispensing and minimized 'towel roping'.
- Viewing window so you can see towel level before a run-out
- Sleek look complements other GP PRO solutions
- Lock helps improve reliability and can reduce product pilferage
- Touchless dispensing with one-hand ease, without the complex moving parts of an automated dispenser

Efficient

One-at-a-time dispensing helps control usage and costs

Hygienic

Touchless dispensing can help reduce cross-contamination

Helps Reduce Waste

Controlled dispensing helps minimize usage

Easy to Maintain

Self-threading design

Soft, Absorbent

Towel dries hands quickly or wipes up large spills and tough messes
