Equipment, Innovation & Service to Meet Every Need

Together, We Can Make More Happen

MORE PARTNERSHIP

We've partnered with industry-leading experts to bring forward the most cost-effective floor care solutions. When business demands undivided attention, Diversey is there, ready to work together, to create a customized facility solution that optimizes your business and your bottom line.

MORE INDUSTRY EXPERTISE

Diversey has a long history of proactively finding, quantifying, recommending, executing and achieving continuous value for our partners. For over 100 years, TASKI® by Diversey has been an industry leader in floor care with over 50 years of machine leadership.

MORE INNOVATION

Continuous improvement is how Diversey supports and delivers solutions to pressing problems that customers experience. Diversey re-imagines the industry and delivers highly efficient, cost saving and innovative solutions that harmonize processes, enhance sustainability and improve productivity.

TASKI® Floor Care Machines

TASKI® is a strategic business unit within Diversey supplying machines and service globally to its customers for over fifty years. With worldwide sales, the TASKI brand is known for innovation and quality backed up by first-class service.

The TASKI® portfolio consists of a comprehensive range of machines

- Vacuums – canister, upright, back pack, wet and dry
- Single disc rotaries – low, high and ultra-high speed
- Carpet cleaning machines – dry and extraction
- Auto scrubbers – walk-behind, stand-on and ride-on
- Robotics - Hands-Free Cleaning applications

Introducing TASKI IntelliFleet: A Unique Fleet Management Solution

The intelligent way to manage your entire fleet of TASKI® machines at the lowest total cost of ownership.

TASKI® Costs Less to Manage

TASKI® IntelliFleet is a customizable fleet management solution that enables you to purchase top-of-the-range machines at the lowest total cost of ownership.

The TASKI IntelliFleet solution is a tailor-made fleet strategy that will help you manage and reduce ongoing expenses. TASKI IntelliFleet solution provides an innovative, cost-efficient solution every step of the way.

Carpet Care Systems

TASKI® procarpet 30 and 45

TASKI® procarpet machines have been designed using expertise in vacuum pick-up and chemical application to design a high-performance carpet cleaning system with excellent results.

- Deep cleaning through spray extraction is the ultimate way of thoroughly cleaning carpets
- Increases the lifetime of carpets by removing ingrained dirt while maintaining high appearance levels
- Carpet & Rug Institute Certification

TASKI® Dry Foam Carpet Care System

The TASKI® Dry Foam Carpet Care System incorporates several of Diversey's innovations into one high-performance package.

- The first low-moisture system to deliver both excellent interim and near-extraction quality cleaning with unbelievably fast dry times
- Minimizes interruptions in foot traffic and reduces labor costs
- Special dry foam brushes in two sizes with a glide plate that protects the carpet, reducing drag and increasing efficiency
- Dry foam generator that dispenses our highly effective foam to cleaning specifications, leading to exceptionally clean carpets that dry in approximately 30 minutes
- Carpet & Rug Institute Certification

Light, Agile & Versatile: Meet the TASKI Aero Vacuum Line

Performance

Excellent airflow and low energy consumption rating support best-in-class performance. Optional TASKI Turbo Brush boosts cleaning performance even higher for those most challenging vacuuming tasks.

Comfort & Ergonomics

Exceptional low weight, latest design and materials deliver superb ergonomics. All are critical for user acceptance and productivity.

Flexibility & Autonomy

The TASKI Aero vacuums deliver exceptional flexibility and, for any customer wanting the best tools to clean and maintain their buildings, the TASKI Aero range brings huge value. The Aero canister vacuum offers an ECO-mode for even lower energy consumption and the Aero BP 3-in-1 multifunctional platform offers a superior back pack vacuum, tub vacuum and blower all in one unique design.

Did You Know?

We believe that sustainability and a healthy bottom line should go hand-in-hand. Solutions that protect the environment are more profitable and are good business practice for now and for the future. This is one of many reasons why all TASKI® machines are approximately 99% recyclable.

We took the guesswork out of maintaining your TASKI® machine by identifying daily maintenance points in yellow. If it is yellow, it is a machine component that should be checked and/or cleaned at the end of every shift. All maintenance points are easily accessible and were designed to simplify clean up and user training.

Large Auto Scrubbers

TASKI® swingo® 2100µmicro

small on space. BIG on clean

The award winning TASKI® swingo® 2100µmicro may be small in size, but it's BIG when it comes to efficient and intelligent cleaning of congested areas like shops, malls and hospital corridors. The new TASKI micro rider represents an evolution in micro ride-on auto scrubbers, combining compact design with an unchallenged performance and high flexibility for operations beyond traditional boundaries.

2015 ISSA®
INNOVATION AWARD
Visitors' Choice Award Winner

TASKI® swingo® 2100µmicro

FEWER STOPS, TIGHTER PLACES, BIGGER SPACES

Faster cleaning and increased productivity from the tightest spaces to a range of almost 54,000 square feet on one tank is possible with the TASKI® swingo® 2100µmicro. The clever combination of a highly efficient water management system and generous 20 gallon tank allows you to minimize the number of time-consuming tank filling stops.

FIRST TIME RIGHT

Enhanced cleaning and drying performance prevents time consuming turns and rework tasks. The new TASKI® swingo® 2100µmicro is the perfect cleaning solution where safety and high standards are critical.

FITTING YOUR INDIVIDUAL NEEDS

Operators can equip their machines with everything they need to work autonomously on task without wasting time locating and retrieving items. Simply customize your machine and add any tool or accessory from the extensive TASKI trolley and tools range.

EXCELLENT AUTONOMY

Up to 4 hours of cleaning autonomy ensures sufficient runtime to complete the tasks the TASKI® swingo® 2100µmicro is designed for. The on-board Battery Management System (BMS) simplifies battery charging, prevents unexpected downtime and ensures a long battery life.

SAFETY FIRST

A better all-around view increases safety for both the operator and bystanders, helping prevent accidents. Energy efficient LED lights to the front and back of the machine allow the operator to work in low ambient lighting settings such as shops and warehouses during quiet periods.

DAYTIME CLEANING READY

Ideal for daytime cleaning, the TASKI® swingo® 2100µmicro operates with a low working noise level making it ideal for busy environments.

Large Auto Scrubbers

TASKI® swingo® 2500B

Large ride-on auto scrubber featuring an innovative squeegee system that quickly dries floors and all-wheel steering for easy handling, even in narrow and congested areas.

Did You Know?

The patented TASKI® 3-wheel V and W-shaped squeegee systems offer the best results in water recovery. The V-shapes channel water better at higher speeds without any adjustments, ensuring the machine recovers every drop of water, every time. TASKI® squeegees reduce downtime and limit risk of slip and fall accidents.

How's that for savings through safety?

Large Auto Scrubbers

TASKI® swingo® 5000B

Large ride-on auto scrubber with all-wheel steering, a large working width, large tank size and its patented IntelliFlow™ system radically increase productivity while reducing water consumption.

Did You Know?

TASKI® swingo® 755-5000 auto scrubber machines have received Environmental Claims Validation for their patented TASKI® IntelliFlow™ cleaning solution dispensing system. Find out more about IntelliFlow on page 20.

The Future is Now and We are Ready!

The TASKI Intellibot® SWINGOBOT 2000™ from Diversey is a hands-free robotic floor care machine with built-in sensors and innovative onboard technologies, enabling facilities to effectively and consistently clean floors in less time.

TASKI Intellibot® SWINGOBOT 2000 helps you to:

Improve Cleaning Performance:

While TASKI® Intellibot® SWINGOBOT 2000™ is taking care of your floor, your cleaning staff can get additional time on their schedule to take care of other tasks better than ever!

Increase Productivity Throughout the Facility:

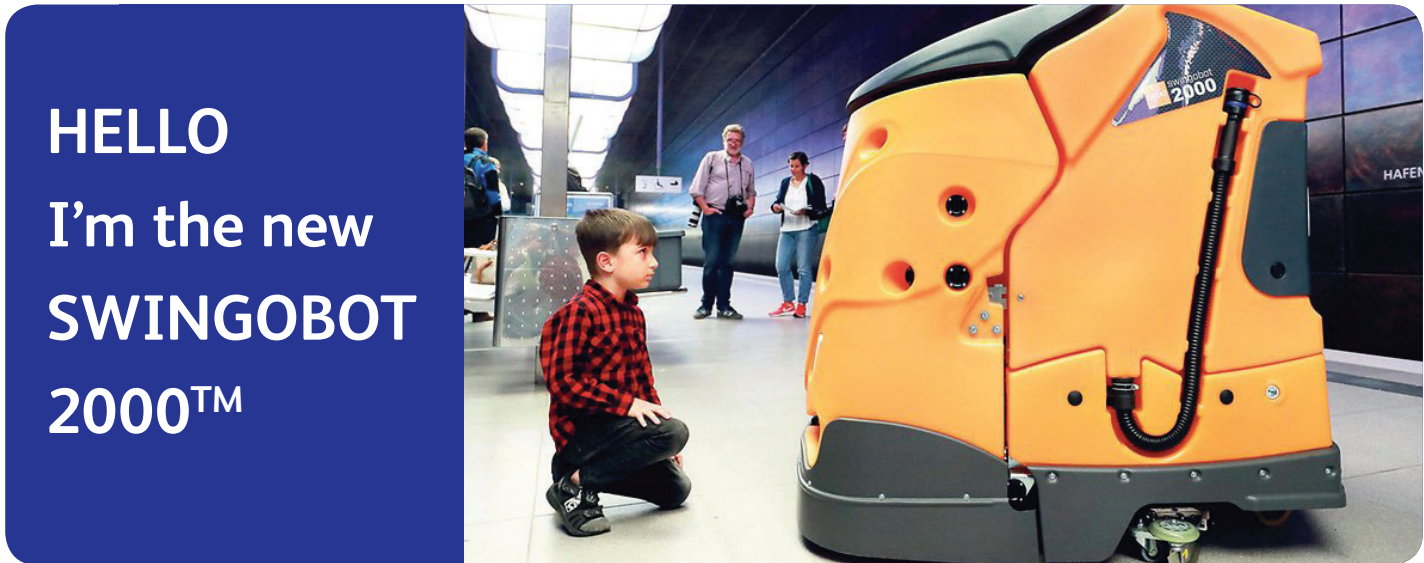

In times like these when profit is seen as the highest priority for everyone, ASKI® Intellibot® SWINGOBOT 2000™ offers higher productivity without compromising any of your current cleaning activities.

Manage Risks by Tracking Activity:

Recording every site's floor surface from Day 1, TASKI® Intellibot® SWINGOBOT 2000™ can repeat tasks each day with recorded schedules. Staff can also share detailed, cloud-based reports with IntelliTrack™ and IntelliTrail®, integral parts of the Diversey Internet of Clean (IoC) platform.

Chemical Cleaners

Dry Foam Shampoo & Encapsulation Cleaner

Excellent wetting neutral carpet and upholstery detergent that is free of alkalis and soap. Product encapsulates soils to dry and be vacuumed out. Used as part of the Diversey Dry Foam Carpet Care System or Encapsulation System to deliver the ultimate carpet cleaning solution. It dries in as little as 30 minutes, reducing the amount of down time. Pale straw in color with a floral scent.

TASKI® Intelligent Solutions

In today's environment, we are constantly challenged to find better ways to clean floors while lowering the cost to clean. Advancement in machines, chemicals and cleaning tools can help meet this challenge.

At the heart of the machines, advanced TASKI IntelliFlow™, TASKI IntelliDose™ and TASKI IntelliTrail® technologies provide unrivaled chemical, water and fleet management for a superior cleaning that is better for the world and your bottom line.

IntelliFlow™
Do not sacrifice precious time

IntelliDose™
Up to 484 square feet with one pouch

IntelliTrail®
Knowing today, ready for tomorrow

IntelliFlow™

Only TASKI auto scrubbers tie the cleaning solution to the speed of the machine. The patented, Environmental Claims Validated TASKI IntelliFlow™ technology delivers the proper amount of solution onto the floor according to the speed of cleaning. As the user slows down, the advanced system adjusts in real time to use less solution, substantially decreasing water consumption, reducing tank refills and lowering costs. Available as a standard feature on TASKI® swingo® 755-5000 auto scrubbers.

IntelliDose™

Our proprietary IntelliDose™ system calculates and delivers the optimal amount of chemical for any task or floor type, ensuring superior cleaning while controlling and reducing chemical consumption. The disposable pouches can be swapped out effortlessly, improving safety and ease of use. Maximize effectiveness and simplify your operation by taking cleaning to a new level with IntelliDose™.

IntelliTrail®

TASKI IntelliTrail® is a web based application that allows you to locate, monitor and manage your machine fleet. IntelliTrail® provides total visibility of assets, insight of machine working time and notifications when needed most. IntelliTrail® helps to reduce total cost of ownership by improving administration, work efficiency and risk mitigation. Protect your investment by managing your fleet remotely with TASKI® IntelliTrail®.

TASKI® IntelliTrail® Puts You in Control

TASKI® IntelliTrail® supports cost reduction of your total machine fleet, cleaning operations and administration up to 25% through:

- The ability to track the geo-location of each individual machine provides **full transparency of the performance of your machine fleet** through improved operator and location monitoring
- **Prevent damage, misuse and battery depletion** when machine is not being used; crash and machine movement monitoring helps to proactively manage risks
- **Control spend on service and maintenance** with machine service reminders and improved preventative maintenance
- **Peace of mind** – focus on your core business, we take care of the rest

Twister™ Diamond Floor Pad Systems

Twister by Diversey is an innovative method for everyday machine cleaning on polished concrete, terrazzo and natural stone floors. Twister floor pads are impregnated with billions of microscopic diamonds that micro-polish the floors providing a glossy, surface that resists dirt and water.

Twister Standard System:

The Twister Standard System is specially formulated for low to medium traffic environments, such as schools and offices, with less than 5,000 visitors daily. The Standard System typically uses white, yellow, and green pads in sequence that will deep clean and restore floors, then continue to use green pads for daily cleaning and polishing.

Twister Pad	Specification	Frequency
	Use the Extreme pad as a problem solver on floors as a first step in the restoration process that have been etched or stained with a lifespan of approx. 100,000 – 150,000 ft ² under optimal circumstances.	Optional use
	Use the White pad for deep cleaning to remove tiny scratches, which will then to prepare for daily cleaning with a lifespan of approx. 150,000 – 300,000 ft ² under optimal circumstances	Periodic use
	Use the Yellow pad for deep cleaning to remove tiny scratches, which will then prepare for daily cleaning with a lifespan of approx. 300,000 - 500,000 ft ² under optimal circumstances	Periodic use
	Use the Green pad for daily cleaning to maintain gloss and cleanliness with a lifespan of approx. 300,000 - 500,000 ft ² under optimal circumstances	Daily use

Twister High Traffic System:

The Twister High Traffic System is specially formulated for high traffic environments, like shopping malls, supermarkets and airports, with greater than 5,000 visitors a day. These pads have more diamonds and stiffer backing than Twister's Standard Line to effectively repair polished concrete or terrazzo floors. The High Traffic system typically uses orange and blue pads, in sequence that will deep clean and restore floors, then continue to use the blue pads for daily cleaning and polishing.

Twister Pad	Specification	Frequency
	Use the Extreme pad as a problem solver on floors as a first step in the restoration process that have been etched or stained with a lifespan of approx. 100,000 – 150,000 ft ² under optimal circumstances.	Optional use
	Use Orange pad for deep cleaning to remove tiny scratches, which will then prepare for daily cleaning with a lifespan of approx. 450,000 - 650,000 ft ² under optimal circumstances	Periodic use
	Use the Blue pad for daily cleaning to maintain gloss and cleanliness with a lifespan of approx. 450,000 - 650,000 ft ² under optimal circumstances	Daily use
	Use the Pink pad for high gloss results as a last step in the restoration process. It can also be used for daily cleaning with a lifespan of approx. 450,000 - 650,000 ft ² under optimal circumstances	Optional use

Consider a Fully Integrated Cleaning Solution

TASKI® strives to offer a comprehensive cleaning program that combines your organization’s best practices with the most innovative solutions available. From ergonomically designed Mobile Work Stations to color-designated microfiber cleaning, TASKI Tools take your cleaning program to the next level.

- **Flexibility** – designed to meet your needs
- **Efficiency** – get the job done faster with the right tools and supplies on board
- **Satisfaction** – ergonomic design and specialty tools reduce muscle strain, fatigue and improve staff satisfaction
- **Sustainability** – pre-wetted microfiber system reduces chemical and water usage

Glass and Mirror Solutions

The fine microfibers of the Pro Glass mop make it easy to pick up and remove the smallest dust particles, dirt and grease from windows, mirrors and hard, polished surfaces including stainless steel.

Microfiber Solutions

The TASKI microfiber cloths are manufactured using the highest quality materials available to guarantee superior cleaning performance.

Floor Mopping Solutions

The Pace High Impact Floor Cleaning System with microfiber pads delivers rapid, high efficiency cleaning on all types of floors and is part of the Diversey GREENGUARD® Certified System.

**Solutions designed
to meet your
facility's needs!**

TASKI® offers intelligent solutions customized to meet your needs

Stripper-Free Floor Finish Removal

The combination of a TASKI® machine and HTC Twister Xtreme Pads™ is an excellent option for deep-scrubbing operations where many coats of finish need to be removed. Combine these pads, a TASKI machine and water to strip away floor finish with less mess and fewer slips than with traditional floor stripping methods.

The Stripper-Free Advantage

Time Savings

Less time spent waiting for chemicals to dwell; just scrub and re-coat

Safety

Reduced exposure to stripper and slip-fall potential for your staff and guests

Cost Reduction

Save time and money while improving productivity

Eco-Friendly

Reduce your carbon footprint with safe and sustainable Intelligent Solutions by TASKI®

Supercharge your Floor Finish Removal Solution with...

TXP – Twister Xtreme Pads™

TXP offers a mechanical heavy duty cleaning method with billions of microscopic diamonds impregnated in each pad. This revolutionary pad will perform exceptionally fast and efficient when stripping with or without chemicals.

Prominence™™ Heavy Duty Floor Cleaner

This highly effective floor cleaner can help take your floor finish removal to the next level. When used with a Twister Xtreme Pad and an appropriate TASKI auto scrubber, your floor finish removal program will outperform all others. Adding as little as 1/2 ounce of Diversey's Prominence per gallon of water can improve stripper-free stripping results by 25% or more!

Did You Know...?

Any TASKI® swingo® machine kit from the 455-5000 is a viable solution for stripper-free floor finish removal. If a TASKI® auto scrubber is not available, any of the TASKI single-disc machines may be used to achieve superior results.

Working Together

Ensuring Satisfaction from the Beginning

USA-CLEAN® is your #1 resource for ongoing troubleshooting and support. USA-CLEAN will provide helpful resources including login information for USAfix™, an online service platform with access to manuals, repair guides, a parts catalog and more! Staying on top of your business is as easy as 1-2-3:

Warranty & Service Contracts

All TASKI® machines are covered under warranty for a specified duration from the date of purchase against defects in material and workmanship. These warranties are in effect only when the machine is maintained and operated in accordance with instructions provided with the machine and when used in normal service by the original purchaser with recommended Diversey products and sold by Diversey or an authorized TASKI distributor.

TASKI swingo® auto scrubbers (350E/B-5000B) and TASKI procarpet 30/45 are warranted for twenty-four (24) months from the date of purchase. TASKI single-disc machines are warranted for twenty-four (24) months from the date of purchase with all plastic parts being warranted for seven (7) years from the date of purchase. TASKI vacuums (Jet 38/50, Vento 8S/15S, Vacuumat 22/22T/44T), foam generator and swingo 150E are warranted for twelve (12) months from the date of purchase.

Further to the standard warranty, Diversey offers a range of service contracts - bronze, silver and gold. Contact your TASKI representative for more information.

Diversey has been, and always will be, pioneers and facilitators for life. We constantly deliver revolutionary cleaning and hygiene technologies that provide total confidence to our customers across all of our global sectors. Led by Dr. Ilham Kadri, President & CEO, and headquartered in Charlotte, North Carolina, USA, Diversey employs approximately 9,000 people globally, generating net sales of approximately \$2.6 billion in 2017.
