700131	10" (8mm) Solid White	500	6 pk

Because One Size Does Not Fit All...

We offer our PLA and PAPER straws in three standard lengths (5¾", 7¾" & 10") and (5mm, 6mm & 8mm) diameters.

3 diameters to choose from
(actual size)

PLA STRAW FACTS:

- PLA = Polylactic Acid (PLA) is a bioplastic derived from renewable resources like corn starch or sugar cane
- PLA takes up to 65% less energy to produce than other conventional plastics
- PLA straws are also not intended to be used with hot beverages

PAPER STRAW FACTS:

- Free of gluten, GMO or BPA
- FDA, EU and California Prop 65 compliant
- Made of paper and coated with food grade adhesive (no beeswax)
- Breaks down quickly in a compost environment
- Designed for single use, but will last up to 4 hours—much longer than the typical meal service
- Not intended to be used with hot beverages
- Available in custom designs, minimums and lead times vary

For sanitary reasons, use straws one time only

Individually wrapped straws promote safer more sanitary serving practices
