PROFESSIONALS TRUST IN QUALITY!

The story began already in 1910 when Mr. Wilhelm Hauser founded a small company bearing his name. The company started as a manufacturer of rattan bread baskets and a number of utensils for bakeries and pastry shops. The period of the two World Wars posed huge challenges for the young company but it managed to survive and grow.

In the middle of the 1950s the "thermo pastry bag" was presented for the first time – it soon became a high-level product, second to none in the baking industry! Until today, professionals throughout the world associate these brand names with the highest product quality.

The company continued its growth, established worldwide representations and took part in national and international exhibitions.

Since 1966, the company – now doing business as "thermohauser" – is located in Uhingen, a small town on the direct route between Stuttgart and Ulm in Southern Germany.

Being always in close contact to the professional users in kitchen and bakery, our products are in constant development and improvement.

For decades now thermohauser has been a highly reliable partner for professional bakeries, pastry shops, canteen kitchens, catering services, butcheries and all other partners in the food industry.

We take pride in offering a wide range of high quality products which can be relied on every time they are being used. Our range of goods is organized in the following categories:

- solutions for food transportation
- pastry bags and accessories
- tools and utensils

Our team is looking forward to serving your needs!  
Please feel free to contact us!

## SOLUTIONS FOR FOOD TRANSPORTATION

### COMPETENCE IN TEMPERATURE CONTROLLED FOOD TRANSPORT

Once upon the time... Working people, who wanted to have a warm meal during the day, had to prepare and transport it long before consumption. The food was filled in a hot-water bottle and wrapped in some cloth. All too often, the meal was no longer hot or fresh at lunchtime.

Decades have passed since then; the technical development has made a large step ahead. The temperature controlled transport of foodstuff is of increasing importance – be it school lunch, factory canteen or ready-to-eat meals on wheels for elderly people. The most essential points are freshness, highest food quality and food safety – starting at the moment of cooking until consumption.

thermo hauser has developed and offers a wide range of specialised products to facilitate the transport or temporary storage of food items, especially temperature sensitive ones:

Our **transportation and insulation boxes** are made of highly insulating EPP (expandable polypropylene) and EPS (expandable polystyrene). Being light weight, but robust and food safe above all, the thermo hauser-boxes are a perfect choice to store and transport food items. An attractive cost-ratio-performance makes the boxes the right choice for short and medium term transport.

The **blu'box transportation** boxes are perfect to be used for longer transportation, storage or when food is being served out of the container. The option to influence the temperature level makes blu'boxes perfectly suited to maintain food quality.

**Dinner Champion** is the name of our attractive and functional food distribution system for ready-to-eat meals on wheels. EPP transportation and insulation boxes protect the inside during transportation – a perfect meal, placed on high quality china and closed with sealing silicone lids, wets ones appetite.

**Gastronorm-containers**, plastic or stainless steel, have become an essential and useful tool in professional kitchens. A large variety of standardized sizes are available.

To support the logistics chain, plastic stacking **containers, tubs and buckets** are useful tools for almost all operational areas of a food company. Being handy, robust and of long-lasting quality, they are perfect for everyday use.

To support our customers with well-thought-out solutions for the transport of delicate food items is our utmost concern. Our range of products provides a solid base to this end.

## EPP / EPS TRANSPORTATION AND INSULATION BOXES

### EPP / EPS INSULATION BOXES

How to make the transport of, especially temperature sensitive food items, easier and more comfortable? With thermo hauser transportation and insulation boxes!

The boxes are made of highly insulating EPP (expandable polypropylene) and EPS (expandable polystyrene). Being light weight, but robust and food safe, the thermo hauser-boxes are the perfect choice to store and transport food items. No CFC is needed for producing the EPP-boxes, they are recyclable as well.

#### EPP-boxes: the top level for transportation and insulation!

The material EPP has been used for years in the automotive industry, as it combines light-weight with extreme shock and break resistance, robustness and long lifetime.

In the early 1990s thermo hauser identified the advantages of the material to be used in the food sector – since then the development has never stopped.

The boxes are perfectly insulating, mainly in a temperature range from -40 °F up to +248 °F. Loss of temperature is low, so the boxes are ideal for the transport of temperature sensitive food items and ready to eat meals.

Their resumption to absorption of flavours and odours as well as their acid resistance make them a perfect solution for meeting hygienic standards, even during longer transport times.

Beyond that, the boxes are dishwasher-proof and easy to clean. Another aspect to make transport as well as storage more comfortable is the stackability of the boxes. thermo hauser EPP-boxes – the right choice, if quality and price are counting.

It depends on the application, but sometimes an easier or oneway solution is needed. **Therefore we offer our EPS-boxes as an alternative.**

The material is highly insulating and food-safe as well. But, due to a reduced shock and break resistance and less resilience of EPS (expandable polystyrene), the boxes have a shorter lifetime circle. At the same time, they are cheaper and therefore another hygienic solution for budget transports.

### EPP-BOXES – OVERVIEW OF THE KEY FACTS

- material: highly insulating EPP
- CFC-free production
- food-safe, hygienic
- light-weight, break-resistant, robust and durable
- dishwasher-proof, easy to clean
- stackable for easy storage
- completely recyclable
- units / pack: 1 piece

## HOTEL PANS

Modern kitchen, canteens, food distributors without Gastronorm-containers? Unbelievable, as they have become an essential and useful tool to distribute, store or serve food.

GN-containers are developed in accordance with the norm DIN 66075 and the European norm EN 631 – both valid in the foodservice industry.

Our hotel pan range includes both, stainless steel containers with convenient foldaway handles and transparent plastic containers. They are available in a variety of standardized sizes, each with different inside heights. The assortment is completed by different lid types, depending on the purpose of use.

All hotel pans are food safe, dishwasher proof and can easily be stacked.

Our hotel pans are perfect to be used in combination with our transportation and insulation boxes!

# DINNER CHAMPION

## DINNER CHAMPION

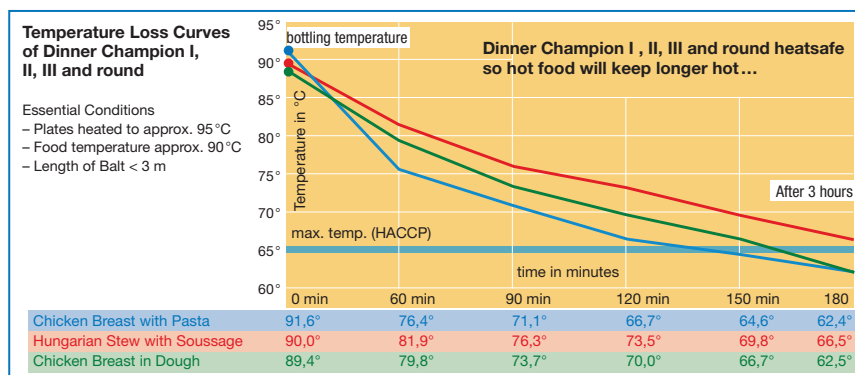

Dinner Champion – this product range stands for a food distribution system, being both attractive and functional. The system is used by distributors of hot meals, more particularly meals on wheels.

The EPP insulation box on the outside protects the system during transportation and waiting time. Being light-weight, robust and perfectly insulating, the box is the base for the high quality of the system. It can easily be cleaned in a dishwasher and simply stored by stacking one on top of each other.

Isn't it much nicer to eat your meal from a high quality porcelain instead of plastic dish? The porcelain is covered by sealing silicone lids and placed on the non-slipping surface of the box, providing a safe transport.

All components of the system are very easy to handle, the applicable hygienic requirements are met. The dishes can be used in the dishwasher as well as in ovens, microwaves or refrigerators.

Using the Dinner Champion food distributions system means creating the perfect base for a perfect meal!

Simple equipping

secure transport

Serving food easily

Dishwasher-proof

## PASTRY BAGS AND ACCESSORIES

### PASTRY BAGS AND ACCESSORIES

#### FOR THE ICING ON THE CAKE – THERMOHAUSER PASTRY BAGS AND ACCESSORIES HELP TO CREATE AN ARTWORK OUT OF EVERY CAKE!

**thermo**hauser is almost synonymous to high quality pastry bags. For decades, we have developed (always in close cooperation with professional end-users) a comprehensive know-how in and around pastry bags and accessories.

No matter, if the bags are reusable or disposable ones, the quality of the product and its production are paramount.

Our pastry bag product range includes various reusable bag qualities as well as a number of disposable, thus extremely hygienic one way products.

The undoubted highlight is our pastry bag "thermo silver" – a reusable pastry bag, made of cotton fabric with a silver-ion coating inside. It stands for even higher hygienic standards.

With regards to quality and size, as well as all other options (such as printing, labelling or special packaging), your demands and requirements prevail.

To put the icing onto almost every cake, the range of pastry bags is completed by a broad variety of accessories, such as piping tips in different materials, sizes and shapes.

## REUSABLE PASTRY BAGS – OVERVIEW OF THE KEY FACTS

- 8 different qualities and sizes
- multiple plastic coating prevent the bags from bleeding
- food safe
- suitable for all kinds of fillings and toppings
- flexible with good haptics, even after frequent washing

### CLEANING RECOMMENDATION:

- hand wash with hot running water
- brief dipping into boiling water

**INFO**

## COTTON FABRIC

- cotton fabric with multiple plastic coating
- color-printing possible
- all bags with top seam and hanger
- bags from size 3 on with reinforced tip

## STANDARD

- thermohäuser's standard product
- best cost-performance ratio
- often used for promotional purposes of large quantities

## PASTRY BAGS – DISPOSABLE QUALITY

### DISPOSABLE PASTRY BAGS – OVERVIEW OF THE KEY FACTS

- hygienic and food-safe solution
- made of PE-foil, transparent shape
- coarse exterior, smooth interior
- simple handling, no cleaning efforts
- can be used with or without tips
- closed tip
- material: LDPE

#### INFO

Use our fastening clips on page 31 to close the disposable bags leak proof, if fillings should be kept cool!

#### INFO

Before use you can easily cut off the tip of filled disposable piping bag and then smooth out the remains completely of the bag with our bag openers on page 31.

## DOUGH CUTTERS AND SCRAPERS

### DOUGH CUTTERS AND SCRAPERS

■ scraper material: stainless steel

■ handle material: PP

#### DOUGH CUTTERS WITH HANDLE

- heavy duty scrapers and scalers
- handle material 30002.47031: TPE

30002.68605		$4\frac{3}{4}'' \times 4\frac{3}{4}''$	6
30002.68615		$5\frac{5}{16}'' \times 5\frac{5}{16}''$	6
30002.68625		$6\frac{5}{16}'' \times 6\frac{5}{16}''$	6
30002.68635	trapezoid, rounded edges	$5\frac{11}{16}'' \times 7\frac{11}{16}''$	6
30002.47031	rectangular, flexible	$4\frac{3}{4}'' \times 4\frac{1}{2}''$	6

#### DOUGH CUTTER WITH HANDLE

- handle color: black

83000.31706		$5\frac{1}{8}'' \times 4\frac{5}{16}''$	1
-------------	--	---	---

#### DOUGH CUTTER WITH ROUND HANDLE

- silicone for finger protection

83000.31952		$5\frac{1}{8}'' \times 4\frac{5}{16}''$	1
-------------	--	---	---

#### SPATULAS

- heavy duty scrapers and spatulas

30002.68655		$9\frac{5}{8}'' \times 1\frac{3}{16}''$	6
30002.68665		$9\frac{5}{8}'' \times 2\frac{3}{8}''$	6
30002.68675		$9\frac{5}{8}'' \times 3\frac{5}{32}''$	6
30002.68685		$9\frac{5}{8}'' \times 4''$	6
30002.68695		$9\frac{5}{8}'' \times 4\frac{3}{4}''$	6
30002.68705	extra broad spatula	$9\frac{5}{8}'' \times 5\frac{1}{8}''$	6

## DOUGH CUTTERS AND SCRAPERS

- material: PP
- color: ivory

- incl. bevelled edge
- heat resistant up to approx. +220 °F

Our PP-scrappers (polypropylene) are heat resistant up to approx. +220 °F!

### BAKING PAPER IN A DISPENSER PACK

- dispenser pack with convenient opening

Convenient dispenser pack!  
More sizes available  
on request!

50001.53202

23<sup>5</sup>/<sub>8</sub>" x 15<sup>3</sup>/<sub>4</sub>"

500

### BAKING FOILS

- material: PTFE-coated glass-fiber tissue
- coated on both sides, non-stick surface
- temperature-resistant from approx. -94 °F up to +500°F
- robust, tear proof
- easy to clean, simply wipe off after use
- reusable

50001.44145

23<sup>5</sup>/<sub>8</sub>" x 15<sup>3</sup>/<sub>4</sub>"

10

83000.31032

full size hotel pan

10

### SILICONE BAKING MATS

- material: silicone coated glass fabrics
- extra sturdy, inside mesh provides additional stability
- heat resistant up to +446 °F
- incl. a special non-stick silicone surface
- easy to clean, simply wipe off after use
- reusable up to 3.000 times

83000.34630

fits full size sheet pan

1

83000.34631

fits half size sheet pan

### INFO

Within Germany the displays will be delivered on cardboard palettes.  
Deliveries in export countries will be dispatched on INKA pallets  
(assembly small: 83000.14151; assembly large: 83000.14153)

These highly colorful and elegant POS displays bring quick sales for last minute shoppers! A one stop shop for your baking needs!

The display has a small footprint which allows placement at any location in your store!

The display can be positioned for impulse buying! Last minute purchases on baking and pastry products which can increase sales and cash flow!

**INFO**

Delivery is fully assembled with a corrugated protection board on a pallet.

Readily mounted for your positioning at the point of sale.

## THERMOHAUSER PROMOTIONAL PRODUCTS

### SUCCESSFUL PROMOTION – WITH THERMOHAUSER!

Your intention is to stay in your customers' mind? Take one of our attractive and useful products and make it promotional one with your brand name on it!

Most of our articles are perfect to be used for advertising and promotional purposes. There is a variety of technical options to grade a product to become a unique eye-catcher!

The most current techniques are:

- single- or multicolour printing, possible on almost all material surfaces
- etching or stamping, convenient for metal surfaces
- branding, used on wooden surfaces
- embossing, possible on plastic surfaces

The creative process is easy!

The first decision you have to make is the choice of the product, you want to personalize. The next step will be to provide your logo, your slogan or whatever you want to be shown on the product.

We will support you with our experience to find the best technique and to settle all questions concerning colours, quantities and technical requirements.

Your ideas, our products and our expertise – this will be a perfect combination to keep your name the best in your customers' mind!

## ADVERTISING TECHNIQUES

Most of the items of our program can be customized with your logo.  
See the advertising technique by these examples:

### SUMMARY OF THE MOST CURRENT ADVERTISING TECHNIQUES

#### PRINTING

- suitable for different surfaces
- single- or multicolour printing possible (one screen per colour)
- attractive result

#### ETCHING

- suitable for metal surfaces (stainless steel)
- long-lasting, attractive result

#### STAMPING

- suitable for metal surfaces
- long-lasting, attractive result

#### BRANDING

- suitable for wooden surfaces
- long-lasting, attractive result

#### EMBOSSING

- suitable for plastic surfaces
- the imprint has always the same colour like the product
- long-lasting, attractive result

## THERMOHAUSER PROMOTIONAL PRODUCTS

### STEP BY STEP TO YOUR INDIVIDUAL ITEM!

**1. You choose an article out of our product range!**

Please note: there are minimum quantities, technical requirements (e.g. colours, printing options, ...) to be observed for each product. Please do not hesitate to contact our sales team to receive an individual offer!

**2. You provide us with high resolution logo, slogan or picture.**

With this we will create the tooling insert – to achieve the best result for you!

If you do not have a master artwork, that fulfils the requirements, please feel free to ask our support.

**3. All details have been settled – colours, sizes, quantities, artwork – this is the moment for you to approve the order for production.**

**4. We produce and deliver your individual promotional product to you!**

**OUR DOUGH SCRAPERS MADE OF PP ARE THE HIGHLIGHT FOR PROMOTIONAL PURPOSES!**

Please choose one of the following colours for your individual scraper (starting on page 55):

**ANOTHER POPULAR PRODUCT IS OUR HOOP-STEEL KNIFE, AVAILABLE WITH DIFFERENT EDGE OPTIONS!**

The handles (knives starting on page 78) are available in following colours:

## NOTES

---

A series of horizontal dotted lines for writing notes.

A series of horizontal dotted lines spanning the width of the page, intended for handwritten notes or calculations.

material	abbreviation	appearance	heat resistance	features and advantages of product
AcrylnitrilButadienStyrol	ABS	dull, very hard	approx. – 58 °F up to + 212 °F	shockproof, dishwasher-proof
expanded Polypropylene	EPP	inking possible, elastic	approx. – 40 °F up to + 248 °F	lightweight, break-resistant, acid-resistant, odour- and tasteless, dishwasher-proof
high-density-polyethylene	HDPE	natural white or coloured, dull, soft-elastic	from – 58 °F up to approx. + 203 °F	unbreakable, shock-proof, for a short period of time resistant against boiling water
melamine	MF	white or coloured, dull to high gloss, very hard, non-elastic	approx. – 58 °F up to + 212 °F	break-resistant, surface hardness, tast- and odourless, dishwasher-proof
low-density-polyethylene	LDPE	natural white or coloured, dull, hard-elastic	from – 58 °F up to approx. + 158 °F	unbreakable, shock-proof, resistant and dimen- sional stable against boiling water
polyamide	PA	natural white or coloured, dull gloss, stiff	approx. – 40 °F up to + 482 °F	glassfibre-reinforcement possible, hard wearing, unbreakable
polyacetal	POM	white transparent, inking possible, hard	from – 40 °F up to approx. + 302 °F	dimensional and temperature stability, dishwas- her-proof
polypropylene	PP	natural white or coloured, high gloss, hard-elastic	from + 32 °F up to approx. + 221 °F	unbreakable, shock-proof, resistant and dimen- sional stable against boiling water, sterilisation possible
polystyrene	PS	crystal clear and gloss	up to approx. + 167 °F	parts under normal stress conditions treated in boiled water
styrolacrylnitril	SAN	transparent or coloured, high gloss, stiff	from – 58 °F up to approx. + 212 °F	very hard surface, scratch resistant, for a short period of time insusceptible against tempera- ture, shock-proof

\* For mistakes, misprint, modifications and amendments no responsibility can be taken over.

\*\* Dimensions have been converted and rounded from metric to the customary system. In case of doubt on error the metric dimensions as shown on [www.thermo hauser.de](http://www.thermo hauser.de) shall prevail.

This "glass- and fork-symbol" was established by the EC-Recommendation-Association. For thermo hauser this symbol guarantees that our plastic materials are physiologically unobjectionable and food safe.

This symbol indicates the recyclability of all used plastic materials by thermo hauser.
