## Care and Maintenance:

Dispensers should be dusted with a soft, lint-free cloth. Do not use abrasive materials or paper as they will scratch the surface. For cleaning, use a clean, damp cloth, or a solution of mild soap and water. At least once per month it is recommended to remove paper dust from inside the dispenser with a vacuum or compressed air. Always wear eye protection when using compressed air.

## Entretien :

Le distributeur doit être éponoussé tous les jours avec un chiffon doux et peu pelucheux. N'utilisez pas de substance abrasive ni de papier car vous pourriez rayer la surface. Nettoyez la surface au besoin avec un chiffon propre et humide pouvant être combiné avec une solution d'eau et de savon doux. Il est recommandé d'enlever la poussière de papier à l'intérieur du distributeur au moins une fois par mois, avec un aspirateur ou un jet d'air comprimé. Lorsque vous utilisez un jet d'air comprimé, portez toujours une protection oculaire.

## Cuidado y mantenimiento:

A los dispensadores se les debe quitar el polvo utilizando un trapo suave y sin pelusa. No utilice materiales abrasivos ni papel ya que éstos rayarán la superficie. Para la limpieza, utilice un trapo limpio húmedo, o una solución de jabón suave y agua. Al menos una vez al mes, se recomienda remover el polvo de papel del interior del dispensador utilizando una aspiradora o aire comprimido. Siempre utilice protección para los ojos cuando se utilice aire comprimido.
