

RETHINK FOAM

VIO® CUPS BIODEGRADE* 92% OVER 4 YEARS

The demand for takeout is surging—along with a desire for good corporate citizenship. By using Vio® biodegradable* foam cups with biodegradable* lids and straws, you show customers that you're taking their needs—and the environment—seriously.

A WIN FOR YOU A WIN FOR ALL

Even though your primary consumer is willing to pay more for sustainable products¹, that doesn't mean you have to.

VIO BIODEGRADABLE* CUPS AND FOOD CONTAINERS:

- Cost less than any other eco-friendly cup option available
- Perform better than the alternatives—keeping hot and colds at just the desired temp
- Come in a variety of sizes for any and every carryout use, with custom print available

*Cups biodegrade 92% over 4 years, lids biodegrade 86.8% over 7.9 years, straws biodegrade 88.5% over 7 years. Tested under conditions that simulate both wetter and biologically active landfills using the ASTM D5511 test. Wetter or biologically active landfills may not exist in your area. The stated rate and extent of degradation do not mean that the product will continue to decompose.

GOOD THINGS COME IN THREES.

WE DIDN'T STOP AT CUPS. VIO® BIODEGRADABLE* STRAWS AND LIDS MEET TODAY'S CONSUMER STANDARDS AND ARE ANOTHER FIRST TO MARKET.

- Vio biodegradable* straws perform the same as traditional straws, and cost less than other plastic straw alternatives.
- Vio biodegradable* lids fit snugly and feature superior ventilation and insulation.
- Straws and lids complement Vio cups with their vibrant green color.
