Meeting the needs of culinary professionals

Paper and plastic bakeware
Presentation and packaging

Vol. 7 Catalog

Revolutionizing baking and food packaging in the United States with innovative product lines responsibly manufactured and sourced from around the world.

We are bringing a whole new way of baking to the market with our extensive line of bakeable packaging. Manufactured in partnership with global leaders in paper bakeware, the free-standing bakeware products do not require metal baking molds, allowing the user to bake, store, serve or sell all-in-one decorative container. This streamlines the baking process and allows for maximum production efficiency. The bakeware products do not require pre-greasing or flouring, and they are oven safe up to 400°F and freezer safe.

We also provide products for innovative food packaging and presentation concepts. These products lend themselves to a variety applications with the common goal of making any dessert or food item stand out.

The Welcome Home Brands offering is recognized for its unsurpassed quality, functionality, and its extensive array of decorative designs and shapes.
